

The Good Things of Earth. WOMAN'S TRIALS.

ARE NOT ALL FAR-FETCHED.

Her Bitter Disappointment.

THAT our American forests abound in plants, the roots of which possess the most valuable medicinal and curative virtues, is abundantly attested by scores of the most eminent medical writers and teachers of our age. Even the untutored Indians; had, by intuition and experiment, discovered the usefulness of many native plants before the advent of the white race on this continent. This information, crude though it was, imparted freely to the friendlier of the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots and herbs.

It is no longer thought necessary that a medicinal agent, in order to be good and useful, must have been brought across the ocean or that "being carried seven times across the Sahara Desert on the backs of fourteen camels" makes it the more valuable.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most of our obstinate and most fatal diseases, if we would properly investigate them; and, in confirmation of this firm conviction, he points with pride to the almost marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it of leucorrhoea, painful periods, irregularities, prolapsus and other displacements, ulceration of uterus and kindred affections, often after many other advertised medicines had failed.

Both these world-famed medicines are wholly made up from the glyceric extracts of native medicinal roots, found in our American forests. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each of their wrappers. They are both made of such native medicinal roots as have received the strongest endorsement and praise for their curative virtues from the most prominent writers on *Materia Medica* in this country. What is said of their power to cure the several diseases for which they are advised may be easily learned by sending your name and address to Dr. R. V. Pierce, Buffalo, N. Y., for a little booklet which he has compiled, containing copious extracts from numerous standard medical books, which are consulted as authorities by physicians of the several schools of practice for their guidance in prescribing. It is FREE TO ALL. A postal card request will bring it.

You don't have to rely solely upon the manufacturer's say-so as to the power of Dr. Pierce's medicines to cure, as with other medicines sold through druggists. You have the disinterested testimony of a host of the leading medical writers and teachers. Send for this copious testimony. It can be relied upon to be truthful because it is entirely disinterested.

From the little booklet above mentioned, you will learn what a marvelous curative action Stone root, one of the

prominent ingredients of Dr. Pierce's Golden Medical Discovery, exercises over the heart and its diseases, especially those valvular affections which are attended with difficult breathing, smothered sensations, palpitation or irregular heart action. Dr. Paine, author of Paine's Epitomy of Medicine, considered Stone root specific in these cases, and cites bad cases cured by it in his extensive practice. Golden Seal root, another prominent ingredient of Dr. Pierce's "Discovery," is also a valuable heart tonic, as is also Black Cherry-bark, another ingredient. You will also learn that the eminent Drs. Hale, Ellingwood, Johnson, Hare, Coe and others recommend Golden Seal root, and several of them Stone root, Queen's root, Bloodroot and Black Cherrybark for bronchial, throat and lung affections, attended with hoarseness, persistent cough, night-sweats and kindred symptoms indicating approaching consumption. All these agents are faithfully and fully represented in Dr. Pierce's Golden Medical Discovery, and it can be confidently relied upon to produce their combined curative effects, not only in the above mentioned affections, but also in all catarrhal diseases, no matter whether affecting the nasal passages or other regions of the body.

In nasal catarrh, while relying on the "Discovery" as the best constitutional remedy known to medical science, Dr. Sage's Catarrh Remedy should be used to cleanse the nasal passages. Together they constitute the most thorough and effective course of treatment which can be employed for the cure of that troublesome disease.

No other medicines sold through druggists for like purposes, have any such professional endorsement as Dr. Pierce's, and, in consequence, none are so largely prescribed by physicians who know what they are made of and that their composition is of the best ingredients regardless of cost. Send for the little free book now.

The "Golden Medical Discovery" must not be expected to produce miracles. While it is especially suited for the cure of chronic, lingering coughs that are curable, it is not so effective in acute colds and coughs unless slippery elm-mucilage, flaxseed tea, solution of gum arabic, or other mucilaginous demulcent be drunk freely in connection with its use. Nor must the "Discovery" be expected to cure consumption in its advanced stages. In its early stages it will stay its progress and often effect a cure if its use be persisted in for a reasonable length of time. Send for the little book noted above and learn what those most eminent in the medical profession say of the ingredients out of which Dr. Pierce's medicines are made and thereby learn why they cure obstinate diseases.

Dr. Pierce's Pleasant Pellets cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation of the bowels, loss of appetite, coated tongue, sour stomach, windy belchings, "heartburn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. Put up in glass vials, tightly corked, therefore always fresh and reliable. One little "Pellet" is a laxative, two are cathartic. They regulate, invigorate and cleanse the liver, stomach and bowels.

You pay the postage. Dr. Pierce gives you the book. The People's Common Sense Medical Adviser, 1008 pages, 700 illustrations, is sent free on receipt of stamps to defray cost of mailing only. Send 21 one-cent stamps for the paper-bound book, or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE bitter trial in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she learns to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous. It will rather appear to them that those on whom this blessing has been most richly bestowed hardly value it sufficiently.

In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, prolapsus, anteversion, retroversion, inflammation of ovaries, leucorrhoea, giving rise to disagreeable and weakening drains, and in all cases of nervousness, nervous prostration and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for woman's use. You do not have to take Dr. Pierce's word alone for this, because the ingredients of which the "Favorite Prescription" are composed have received the most positive endorsement from the leading medical writers on *Materia Medica* of all the several schools of practice. All the ingredients are printed in plain English on the wrapper enclosing the bottle, so that if you are an invalid woman and make use of this famous medicine you know exactly what you are taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most careful examination.

You do not have to experiment when taking Dr. Pierce's Favorite Prescription, as with the many fake, cheap John Medicines that are sent out on trial, composed of cheap and often harmful ingredients. Dr. Pierce resorted to Nature's Laboratory to get the ingredients for his "Favorite Prescription," believing that the indigenous, or native, medicinal roots of our country are endowed by Providence with the most marvelous curative powers.

The only rational way to attempt to cure disease is by assisting the natural functions of the body, and to do that there is nothing like Nature's remedies which act in Nature's way, toning and invigorating the digestive organs, the liver, the stomach and bowels and the nervous system, which always suffers to a great extent in all the various derangements of the organs distinctly feminine.

The medicine of known composition is one to rely upon—the one that has a record of nearly forty years of cures—the one devised and manufactured by a regularly graduated and experienced practitioner of medicine. By addressing

Dr. R. V. Pierce, at Buffalo, N. Y., you may secure, free, a little pamphlet giving numerous extracts from many medical writers of prominence, extolling the various ingredients which enter into Dr. Pierce's Favorite Prescription. It is worth looking over if you are a sufferer.

Dr. Pierce does not claim for his "Favorite Prescription" that it is a "cure-all." It is recommended as a most perfect specific of woman's peculiar ailments. So uniform are the results which follow the use of this remarkable remedy, that it can be truly affirmed of "Favorite Prescription" that it always helps and almost always cures. Ninety-eight per cent of the women who give this medicine a fair and faithful trial are cured and remain cured.

It is a powerful invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. The local, womanly health is so intimately related to the general health that when diseases of the delicate womanly organs are cured the whole body gains in health and strength. For weak and sickly women who are "worn-out," "run-down" or debilitated, especially for women who work in store, office or schoolroom, who sit at the typewriter or sewing machine, or bear heavy household burdens, Dr. Pierce's Favorite Prescription has proven a priceless benefit because of its health-restoring and strength-giving powers.

As a soothing and strengthening nerve, "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the womanly organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Cures obstinate cases. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhoea, excessive flowing, painful menstruation, uterine suppurations and irregularities, prolapsus or falling of the pelvic organs, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration, inflammation, more or less pain and tenderness over the lower abdomen accompanied with "internal heat."

Dr. Pierce's medicines are made from harmless but efficient medicinal roots found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the friendlier whites, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor by reason of their superior curative virtues and their safe and harmless qualities.

Your druggists sell the "FAVORITE PRESCRIPTION" and also that famous alternative, blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel, I and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Doctor Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

AFFAIRS AT SOUTH OMAHA

Mayor Bluns Warrant to Pay for City Hall Site.

LONG CONTROVERSY IS AT AN END

O'Neil Now Has Sixteen Thousand Eight Hundred Dollars of City's Coin and City Has Lots.

The final chapter in the city hall site was closed yesterday afternoon at the adjourned meeting of the city council, when Mayor Hester signed a warrant for \$16,800 with which to pay for the lot on Twenty-fourth and Q streets. T. J. O'Neil had given a check for \$60,000 as a guarantee that he would grade the lot for \$16 and then the mayor signed the warrant which finished the long controversy which has been carried on among the people of South Omaha and into the court of Douglas county on several occasions.

The warrant was signed just as the council was called together and all the members put in a request for the pen which had signed the previous document, but Mr. Hester settled all controversy on that score by deliberately wiping the pen and placing it in his pocket.

The bonds have been voted for the city hall and now that the lot question is settled, the members of the council expect to get busy on the city hall. More feeling has been wrought up in the city over the selection of this site than any one thing which has happened for some time and now that it is settled the members of the council expressed their hope that all would be peaceful in the future.

Busy Day for Council.

The city council put in a busy afternoon Tuesday, for not only was the committee of Omaha capitalists, interested in the mall house in this city, and showing the members of the council why they wanted the street vacated, but E. C. Hurd, head of the new interurban, was also in the city and took some of the members to see the streets which he wishes for his new road. Mr. Hurd is asking for the right-of-way across several of the streets for the line which will be built across the city.

The interurban will run from Surry City and Forty-second and Q streets, where it will connect with the lines of the Omaha & Council Bluffs car line and use those

tracks to Omaha. The contract for the grading three miles of this work has been let to Lammereaux Bros. and they have begun the work. Their contract is for the first three miles south of Forty-second and Q streets. Another line will be built by the city from Forty-second and Q streets to a junction with the Park line on the west side of Hanson park. For the right-of-way of this line Mr. Hurd was asking that some of the streets be given to his use.

In speaking of the new road, Mr. Hurd said: "The contractors have orders to push this work as rapidly as possible and nothing will be left undone to see that this work is hurried through."

Not being a street railway company, but in the nature of a railroad, the company has not the right to use one of the streets to reach Hanson park, but instead will buy its own right-of-way.

Unfinished Business Wound Up. An adjourned meeting of the council was held to go through with considerable business which was unfinished at the meeting Monday night. All members were present and all voted the same way, passing everything which was presented without a question. The city engineer was instructed to complete plans for a general sewer, to cost in the neighborhood of \$160,000, and the contract was ordered let. This is the sewer proposition which has been in the courts to care for the waters of Mud creek and injunctions are now hanging fire.

The bill of E. L. Howe for assisting in the city treasurer's office for the month of April was referred to the city attorney and finance committee. His bill was \$110. C street, west of Twenty-ninth, was declared vacant to make room for the mall house which Omaha capitalists propose to build near the Union Pacific tracks. A party of Omaha men were in the city during the afternoon and took the members of the council to look over the ground.

John Henriksen was also given the right to put in pipes to carry water from the mineral springs at Brown park to Twenty-fourth and Q streets, where he intends to build a sanitarium. The telephone company and the electric light company were ordered to remove the poles from S to Y streets on Twenty-second.

Mayor Calls for Holiday.

Decoration day will be observed in South Omaha as in other large cities and Mayor Hester has issued this proclamation for the day: "Whereas, the 30th day of May has been set apart and designated as Decoration day, and

Whereas, it is appropriate that the heroes of the volunteer soldiers be kept

in memory, that it may inspire patriotism and loyalty in the minds of all Americans; and

Whereas, the members of the Grand Army of the Republic are rapidly answering the summons of the Great Commander which calls them from the scene of their trials and triumphs. Now therefore, I, Thomas Hester, mayor of the city of South Omaha, by virtue of the power vested in me, do hereby proclaim the 30th day of May, A. D. 1906, a legal holiday, in honor of our brave soldiers and sailor dead and the deeds of heroism and valor of those who have given our national tragedy whose presence we are not permitted to enjoy.

Let this day be free from care and perplexities of business activity and the hilarity of thoughtless sport, and let our citizens make it an occasion to recall the sacrifices and achievements of the greatest volunteer army that ever graced the earth and from their devotion and success let us learn to cherish more dearly the principles and policies represented by the flag of our country and guaranteed to all who had protection beneath its sheltering folds.

Let us on this day assemble in memory of the sailors and soldiers and decorate their graves with the flowers of devotion. Given under my hand this 28th day of May, A. D. 1906.

THOMAS HESTER, Mayor.

Imposter Is Caught.

E. W. Crawford was using a new scheme to collect a little money. He did not meet with the approval of Chief of Police Briggs, so when he heard of the scheme he went to arrest him. Crawford was representing to the good people of South Omaha that he was sent by some priests of San Francisco to solicit funds to aid the sufferers in that city. When the chief appeared on the scene Crawford soon tipped his hat and took to his heels. Briggs, however, was the best sprinter and after chasing him for a block overhauled him and placed him under arrest.

Thieves in Cigar Store.

Some person or persons in need of cigars broke into the barber shop and cigar store belonging to Peter H. Rubscher at Thirty-third and Q streets early Tuesday morning and carried away goods to the value of about \$50. Chief Briggs has made several arrests in connection with the affair and it is confident he has the right party.

High School Drama.

The class play at the high school auditorium was well attended last night and was enjoyed by all who were fortunate enough to be present. Miss Bertha Estrella Clark, who has had charge of the school theatricals for the last four years, had drilled the young men and women until they were thoroughly at home and read their lines well. The play was "The Soldier," in three acts, written by Alice C. Thompson. The cast was: Mrs. Campbell.....Grace McLaughlin Dick, her son.....Lester Stratton Roman, her daughter.....Ella Peterson Stalds, her daughter.....Neil E. Leifer Geoffrey Hastings, Dick's friend.....Harry Nixon Samuel Larky, an elderly gentleman.....Horne Frank Harriet Miller, a young lady.....Elna Adahel Miss Merry, a gossip.....Bessie Darr Jane, Mrs. Campbell's maid.....Miss Walsh John, a sailor, Jane's intended.....Hiram Scoville Boone-Hillhead, present.

Magic City Gossip.

Jetter's Gold Top Beer delivered to all parts of the city. Telephone No. 8. Births reported yesterday were James B. Palmer, thirty-second and R. street; Joseph Duffy, Fortieth and Q streets, a boy. The local order of Eagles is busy with preparations for the annual meeting, which is to be held in South Omaha June 25. The committee realize that they will have their hands full, but say they will be equal to the emergency.

The Women's Missionary society of the Presbyterian church will meet Thursday, May 31, at the home of R. C. Seavers, at 1215 E. 12. The following program will be given: Vocal solo, Miss Laura Peterson; "Shun and Love," Mrs. R. C. Seavers; "Porto Rico," Mrs. W. J. McBurney; piano solo, Miss Anna Duff.

Because of the recent heavy rains paving has been temporarily stopped on Twenty-fourth street. Other streets have been badly washed out and become impassable. One of the worst is the Thirtieth street boulevard, which the street commissioner has fenced from 12 to 15 street. Mayor Hester ordered the work done. City Clerk Gillett has prepared a statement of the total bonded indebtedness of the city and amount of every issue of bonds. The total bonded indebtedness against the city is now \$1,125,000. Mr. Gillett prepared the statement in order to be able

RIGHTS-OF-WAY NOT SO EASY

Concessions to Interurban Road Blocked by Injunction Suit in District Court.

The Omaha, Lincoln & Beatrice railway encountered a snag in the securing of its right-of-way when John Roth, Peter Roth as co-partners and Elizabeth Roth secured a restraining order to prevent the taking of property condemned by the road which belonged to the plaintiffs. The property involved is the south half of block 11 of the second addition to Corrigan Place, South Omaha. The appraisers appointed by the county court allowed Anna Roth \$1,200 and Peter Roth \$800 for their respective shares.

The petition asserts the appraisal was wrongfully made to Anna Roth and Peter Roth instead of the co-partnership, and that W. B. Taylor, one of the appraisers, is disqualified, as he is not a freeholder and D. V. Sholes is disqualified because he is interested in the same kind of a proceeding. The matter will be heard by Judge Kennedy June 2.

The report of the appraisers was filed with the county judge yesterday afternoon. Besides the allowance to the Roths they allow George Warren Smith \$1,825, J. L. Fountain \$60 and Bridget Hughes, John Hughes, Peter Hughes, Rose Hughes, Mary Hughes and Kate Howe \$150 for their interests in property condemned.

GOOD CROWD SEES PICTURE

Give a Realistic View of San Francisco Before and After Disaster.

A crowd of fair size attended the exhibition of stereoscopic and moving pictures of San Francisco at the Auditorium Tuesday night and the scenes met the same unstinted praise as on the opening night. The views give one a vivid illustration of the havoc wrought by the earthquakes and fire, such as could not be conveyed in any other manner except by a visit to the stricken city. The moving pictures of a trip along three miles of Market street before the disaster, when the town was full

PAXTON ON THE WATER BOARD

Successor to Governor Boyd Elected at Called Meeting Last Night.

W. A. Paxton, pioneer citizen, capitalist and stockholder in many commercial institutions, was elected a member of the Water board last night by the members of that body to fill the unexpired term of the late James E. Boyd. Mr. Paxton will serve until after the November election, when the office will be filled by popular vote. The meeting was called hastily. Besides electing Mr. Paxton the board adopted resolutions concerning Governor Boyd, as follows: "After a life of activity and accomplishment, James E. Boyd, died at his home in Omaha on April 30, 1906. For fifty years he was a citizen of Nebraska, a pioneer, state builder and citizen, he shouldered every burden with willing heart and strong arm, and walked erect his heart to all. He was an ardent man, with purpose and energy, resolved that his talents in such ways as to be helpful to all. There was nothing of deceit or hiddenness about him. Fearlessly honest, and confident of himself, he stood in the open, where he could be seen and heard. At all times in his life his name and presence meant something. As a constitution maker, mayor and governor, he yielded to the people the best there was in him, and he yielded none. His public services were rendered for the good of the state of Nebraska, and his determination, he hewed to the line.

In appreciation of Governor Boyd and as a tribute to his memory and devotion to the state of Nebraska, the Water Board of the city of Omaha: That a man has gone from us who with courage, ability and triumphantly met the responsibilities of citizenship; that in compensation for his loss there will be a public service to the city and state which he loved those elements of his character that inspired and towards the best earnestness and integrity in the ordinary affairs of life, and that the people of this city stand among his own people speaks his eulogy and constitutes his monument. And be it resolved, That these resolutions be spread upon the minutes of the board and copies thereof sent to the members of his family.

COLORED BOY HAS A HIGH TIME

Aided by Two Companions He Starts Out to Blow in His Mother's Savings.

Hokey Woods, colored, aged 23 years, and two colored companions were arrested Tuesday evening by Detective Dophoso while indulging in everything their imaginations could summon, that money could buy, on the proceeds of an act of grand larceny. Woods stole a roll of bills containing \$24 from his mother, Mrs. Bessie Woods, 724 South Thirteenth street, in the afternoon, and his reels began. First he bought a suit of clothes for \$14. Then he met two other colored boys and enlisted their aid in getting rid of the rest of the money. The three went out to see the town and all that is in it. Meanwhile Mrs. Woods missed her savings and told the police. The boys had got as far as the Washington hall saloon when Donohoe stopped the flow of coin from young Woods' pockets and nabbed them all. When searched at the station \$24 was found on his person, most of the amount being concealed in the lining of his clothing. What because of the \$24 unaccounted for he refused to say. Ernest Wright and Ross Todd, his companions in the larceny tour, were held, as it is believed they may know something of the missing amount. See Want Ads for Business Donors.

CORNELL ALUMNI CELEBRATES

Omaha Graduates Make Merry Over the Victory of the Ithacans Athletes.

The recent victories of Cornell university at Boston, where for the second time the Ithacans carried off the championship honors of the Intercollegiate Association of Amateur Athletics of America, was the stimulus that called together the Cornell alumni at Omaha at Mauer's Tuesday evening to celebrate the event. The victory came as a surprise, as the University of Pennsylvania and Yale, who had qualified the greater number of men in the trials, were looked upon as the winners, while Harvard was thought sure of being near the top with its band of athletes, who had so cleverly defeated both Dartmouth and Yale in the dual meetings. Pennsylvania gained only second place, Harvard third, Yale fourth, Syracuse fifth; with Colgate, Amherst, Swarthmore, Dartmouth, Lafayette and Stevens following in the order named.

TWO BIG REPUBLICAN EVENTS

Jubilee of Party and National Clubs Held in Philadelphia on Same Dates.

Preparations are being made by republican clubs in Omaha, Lincoln and other Nebraska cities to send delegates to the convention of the National League of Republican clubs, which will be held in Philadelphia, June 17-19. The meeting is of particular importance, as it will mark the golden jubilee of the republican party, which was founded on the same dates fifty years ago. The Musical Fund Hall, where General John C. Fremont was nominated by the first republican convention, is still standing and will be used for the business sessions of the league. The evening sessions will be held in the Academy of Music, where President Roosevelt, Secretaries Taft, Shaw and Root, Senator Beveridge and other prominent men have been invited to make addresses. On Sunday, June 17, the principal feature will be a Lincoln memorial service. An elaborate entertainment program has been prepared by Philadelphia citizens, who propose to show a large number of delegates an interesting and hospitable time.

The McKinley club of Omaha will send two delegates. One of these will be Harry S. Byrne, secretary of the organization, and the other probably H. P. Leavitt or O. B. Erwin, the president. The Young Men's Republican club of Lincoln has written to Mr. Byrne that it expects to send a delegate and preparations are being made by the state league of clubs to have representatives at the gathering.

It is likely that Nebraska will have a candidate for secretary of the league in the field. Honors among the league's roster of officers have not fallen thickly in

THE LAND OF

Uneda Biscuit

The Modern Soda Cracker
