

MAY CORN DEAL SETTLED

Jaquith Gives His Check to Clearing House and Accepts Warehouse Receipts.

THOUGHT HE WAS UNFAIRLY TREATED

Settlement Comes Day Late, According to the Rules of the Exchange and Check Goes with Protest.

The May corn deal on the Omaha Grain exchange has been settled. Friday morning A. B. Jaquith gave his check to the clearing house for \$18,017.74 and accepted warehouse receipts for 80,882 bushels of No. 2 corn in the Uptide Grain company's elevator at South Omaha. That closed the deal, as Jaquith's trades with J. W. Holmquist and others had been closed out the day before.

The settlement should have been made at 10 o'clock, according to the rules of the exchange, but Mr. Jaquith declared he had been unfairly treated and tendered his check only with a letter of protest, which included the statement that he would hold the exchange amenable for damages and which demanded the settlement of unfilled May trades to the amount of \$6,000 bushels at 47 1/2 cents a bushel, at which figure the option closed Thursday.

The disagreement arose over the fact that the rules of the exchange did not specify the time when warehouse receipts shall be registered at the exchange. Mr. Jaquith's story runs thus: "I thought receipts should be registered by 10 o'clock, and when I went to see Secretary McVann, was informed by him that since the rules did not specify a time, he would make a ruling that the registration must be made by 11 o'clock. His afterwards informed me that he had notified N. B. Uptide, who was selling corn, at the decision. I told Mr. Uptide, and also Mr. Babcock of the same firm, that all trades made after 11 were to be understood as under Mr. McVann's ruling. Then I went to buying corn and took about 25,000 bushels from Uptide. The receipts were not registered until the afternoon.

McVann Declines Check. "Secretary McVann came to my office at 1:30, bringing me warehouse receipts for over 80,000 bushels of corn, saying that the board of directors had not stood by him on his ruling and that the receipts would have to be accepted. I offered him the check with the letter of protest, which he declared he would not take. I then sent it to the exchange office. "President Wattles, Mr. Uptide, Secretary McVann and others consulted a lawyer last night, and this morning the board met at my request. A resolution was passed to the effect that the secretary did not possess the right to interpret the rules. I said: 'All right, gentlemen; now that we know where we stand, I will withdraw the protest and allow you to keep the check.' This was done and I took the corn. "Then they wanted to strike from the minutes the resolution they had passed. I would not consent and they had to let it stand.

"I intend to have fair trading on the floor of the exchange and I intend to have explicit rules if it takes me 1,000 years. That is why I would not take the receipts until the board defined the secretary's right to interpret the rules. The board must now pass a rule as to the extreme limit of time for the registration of warehouse receipts. There was no unpleasantness between Mr. McVann and me, nor between Mr. Uptide and me. This little May deal was only a penny ante to what there will be on the floor some day, and in the meantime I want to have the rules made so there will be no possibility of a skin game."

It is generally understood that Mr. Jaquith came out of the May deal a little to the good, for he traded on the Chicago board as well as the Omaha exchange and made some good trades there.

MISS ANDERSON IS INSANE

Pleaky Woman's Long Struggle Against Adversity is Promised an End at Last.

The filing of charges alleging she is insane by Superintendent Morris of the Associated Charities marks the end of Christina Anderson's long struggle against poverty and an unfriendly world. Miss Anderson is a Swede, aged about 20, whose only relative is a sister in Europe, who was driving, according to the last reports received by her. The Omaha woman is a seamstress and has been slowly starving to death because of a mania that everyone wishes to injure her, coupled with the common hallucination of poisoned food.

For years she has lived in a single room at Seventeenth and Cuming streets on the third floor. Her mental decline is said to date back several years to a time when she was employed by a merchant downtown. One day the merchant, in a fit of anger, is said to have made a remark which was construed by Miss Anderson as slighting to her pride. Her pride was wounded and she immediately quit the service and started a suit for defamation of character. This suit was compromised later and she was paid a small amount of cash. But the idea that the remark was constantly being circulated to her detriment grew upon her until she brooded over it continually. Finally her health became undermined, but she pluckily refused assistance and endeavored to earn a livelihood. For the last year she has been more or less under the espionage of the Associated Charities. Her condition eventually got so perilous that Superintendent Morris feared her life would pay the penalty of liberty. Hence the filing of the insanity charges.

There is little doubt that she will be committed to the insane asylum.

SUIT ON LEGACY TAX LAW

Attack Made by Attorney for Mc-Mortney Estate of Fifty Thousand Dollars.

Another attack on the inheritance tax law has been made by John T. Caters, representing the estate of Dr. David S. McMortney who died about two years ago. He left about \$50,000 in stocks, bonds, mortgages and other personal property in a safety deposit vault in Des Moines. Mr. Caters asserts the inheritance tax law cannot apply to this property because it is located outside the state of Nebraska.

The matter was argued Friday morning before County Judge Leslie. Deputy County Attorney Shotwell maintained the tax applied to all personality wherever located provided the deceased was a resident of Nebraska. The tax involved will amount to about \$500, but the principle applied to other cases would involve several thousand dollars in taxes. The case will probably be carried to the supreme court no matter what the decision of the lower court is.

ZIMMAN BALKS ALL-NIGHT LAW

Third Ward Councilman Introduces Ordinances Regulating Hours for Saloons' Operation.

All-night saloon privileges promise to be of short duration. Councilman Zimman has introduced an ordinance compelling saloons to close at or by 1 a. m. and forbidding to open earlier than 5 a. m. In effect the measure will lengthen by one hour the time the saloons have been allowed to run. It was the original intention to make this change when the midnight closing law was repealed. The downtown bars and cafes are the principal places affected and their proprietors wanted the change.

NO NATIONAL CONTROL NOW

Federal Supervision of Insurance, Scoval Says, is Unattainable Ideal.

BUTLER AMES' BILL BEST SUBSTITUTE

President of National Association of Life Underwriters is Entertained by Insurance Men in Omaha.

Charles W. Scoval of Pittsburg, president of the National Association of Life Underwriters, is in Omaha, a guest at the Paxton. President Scoval was entertained at a banquet by the Underwriters' Association of Nebraska at the Commercial club Thursday evening. Among others present at the banquet were State Insurance Commissioner Pierce and a delegation from the Lincoln Underwriters' association. The banquet was largely attended and was addressed by President Scoval, Mr. Pierce and others.

President Scoval said Friday morning: "I am on a tour visiting the fifty or more local associations of the country to familiarize them with the work of the National association and have been out two weeks, visiting Peoria, St. Paul, Minneapolis and Des Moines, Minn. Peoria and Des Moines shall go from here to Denver, Salt Lake, Kansas City, St. Louis and Dayton before returning home. The annual convention of the national association will be held at St. Louis in October, which is the farthest west the meeting of the national association has been held in the sixteen years of its existence, and I am glad to see that western associations are taking a lively interest in the coming national convention. The national association includes in its affiliating membership all life insurance agents of the country, numbering 45,000 persons.

All Want Information. "Judging by my correspondence and by the questions put at local association meetings, every member everywhere wants to be informed as to the general situation, present and prospective, of insurance legislation.
