BUY GOOD MEAT

Not the juiceless, tasteless kind, but the rich, strengthening, nutritious meats which have made our stores famous. There are a very few firms in this city who have the choicest pickings of cattle in the meat houses and we are one of the favored class. Of course it's the heavy cattle we select. They're best—cost more—scarce—but we're building a reputation on our meat-selling and we don't mind the extra expense. Our sole aim is to sell the best meats. We insist on quality of the first order and nothing will serve us from our intention to be at the top of the heap.

HAYDEN BROS.

Other dealers have quit pushing Gasoline Stoves because they can't sell against the New Improved Michigan. We sell the \$5.00 to \$12.00 sizes at \$2.00 per month and the \$15.00 to \$20.00 sizes at \$3.00 per month, or we cut the prices for cash.

We are making a great big bit with Hind's Cold Storage White Enamelled and Glass Trap Refrigerators. If you know anything at all about a Refrigerator, you can see the superiority over any other. We sell the \$6.00 to \$12.00 sizes at \$1.00 per month, the \$15.00 to \$20.00 sizes at \$2.00 per month, the \$25.00 to \$30.00 sizes at \$3.00 per month.

No housewife is so ignorant as to buy any other kind of a Gasoline Stove after she has seen the Michigan. Almost every day up-to-date people from the small towns out in Nebraska, where we have no agents, come to our store and order the Michigan. After they have ordered it they say if our dealers were up to date we would buy at home. We get letters every day written in the same tone. The intelligent people of Omaha all buy the Michigan.

The people who use a large Cold Storage say they only pay this nominal price for ice; they say they buy a 2,000-pound box for \$7.00, which brings the price to 50c per 100 pounds. The Cold Storage is the best ice keeper made and doesn't melt it like the cheap grade of Refrigerators do. Mrs. Sandifor, 113 Pacific, says: "I had no idea that there was so much difference in the ice-keeping qualities of refrigerators."
