

# A HAPPY UNION.

JUST the right proportions of the medicinal principles of Golden Seal root, Queen's root, Stone root, Black Cherrybark, Bloodroot and Mandrake root with chemically pure, triple-refined glycerine, as combined in Dr. Pierce's Golden Medical Discovery, has proven a most efficient remedy for the cure of quite a variety of most obstinate chronic ailments.

Prof. R. Bartholow, M. D., of Jefferson Med. College; Dr. C. of New York; Prof. Johnson, of Medical Department University of New York; Prof. Jno. King, M. D., and Prof. John M. Scudder, M. D., of Cincinnati; Prof. Hale, of Chicago; Prof. Ellingwood, M. D., of Bennett Medical College, Chicago, and a host of other leading and standard authorities of all the several schools of practice, extol, in strongest terms, Golden Seal root as a remedy in all catarrhal affections whether of the nasal passages, throat, bronchia, stomach, intestines, or of other regions where the mucous surfaces are affected, as in pelvic catarrh of females, catarrh of the bladder, and in fact in all catarrhal affections of whatever organ or part.

In catarrh of the nasal passages it is well to cleanse the affected surfaces three times a day with Dr. Sage's Catarrh Remedy solution, while taking the "Golden Medical Discovery" for its constitutional effects.

Stone root is another wonderful efficient remedial agent as combined in "Golden Medical Discovery" in curing all catarrhal affections wherever located. It is also a specific for valvular and other affections of the heart as shown by Prof. Wm. Paine, M. D., Author of "New School Practice," who cites most distressing cases of heart disease cured by it. Prof. Ellingwood, M. D., extols it as a tonic in enfeebled muscular structure of the heart, and also combined with Golden Seal (as in "Golden Medical Discovery") for catarrhal dyspepsia, chronic or obstinate diarrhea and kindred ailments.

The Black Cherrybark, Queen's root, and Bloodroot also add greatly to the efficacy of the "Discovery" in the cure of all catarrhal affections as also in the cure of obstinate cases of throat, laryngeal and bronchial catarrhal affections, attended with hang-over-coughs.

You can't afford to accept a secret nostrum as a substitute for this old reliable, professionally endorsed "Discovery" of KNOWN COMPOSITION. It is non-alcoholic as well as non-secret.

Study the medicinal properties and uses of the root of Golden Seal, one of the most valuable of our American forest plants, as set forth in a little book of extracts made up by Dr. Pierce from the standard works of the leading medical writers and teachers of the several schools of practice, and it will be conclusively apparent to you that a medicine like Dr. Pierce's Golden Medical Discovery, which is rich in all the curative principles abounding in Golden Seal root, so highly extolled by the most eminent medical men, must be surpassingly efficacious in the cure of many obstinate and distressing ailments and especially so in all catarrhal affections of the mucous surfaces, whether of the nasal

passages, throat, or bronchia or of the stomach, bowels, bladder or other pelvic organs. Scarcely less valuable than the properties of Golden Seal, in a curative way, are the several medicinal principles extracted from Stone root, Queen's root, Black Cherrybark, Bloodroot and Mandrake root, all of which are harmoniously blended with triple-refined glycerine in "Golden Medical Discovery."

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or of sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

Do not expect too much from the use of Dr. Pierce's Golden Medical Discovery. It will not work miracles. It will not cure consumption in its advanced stages. No medicine will. Nor is the "Discovery" so good for a sudden attack of acute cough, but for the lingering, obstinate, hang-over-coughs, accompanying catarrhal, throat, laryngeal and bronchial affections, it is a most efficacious remedy. In cases accompanied with wasting of flesh, night-sweats, weak stomach and poor digestion with faulty assimilation, and which, if neglected are apt to lead to consumption, the "Discovery" has proven wonderfully successful in effecting cures.

Dr. Pierce's Pleasant Pellets cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation of the bowels, loss of appetite, coated tongue, sour stomach, windy belchings, "heartburn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. Put up in glass vials, tightly corked, therefore always fresh and reliable. They regulate, invigorate and cleanse the liver, stomach and bowels.

A good medical book, written in plain English, and free from technical terms, is a valuable work for frequent consultation. Such a work is Dr. Pierce's Common Sense Medical Adviser, in plain English, or Medicine Simplified. It's a book of 1008 pages, profusely illustrated with wood cuts and colored plates. It is given away now, although formerly sold in cloth binding for \$1.50. Send 21 cents, in one-cent stamps, to pay for cost of mailing only for paper-covered copy, addressing Dr. R. V. Pierce, Buffalo, N. Y.; or 31 cents for an elegantly cloth-bound copy. It gives over 200 prescriptions for the treatment of acute and chronic ailments.

# A SACRED HERITAGE.

HEALTH is a heritage so sacred and precious that no one can afford to experiment with it by making use of cheap, give away, "trial bottles" of medicine of unknown composition. When an invalid, weak, nervous woman takes Dr. Pierce's Favorite Prescription she knows exactly what she is using. By reading the list of its ingredients, as printed on its bottle-wrapper, and attested under sacred oath as being full and correct, she will see that it contains no alcohol, no narcotics or other harmful or habit-forming drugs, and that only pure glyceric extracts of native, American, medicinal roots, which have received the highest praise from the most eminent medical men of this country as remedies for woman's ailments, enter into its composition.

Dr. John Fyfe in ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Divica*), which is one of the chief ingredients of Dr. Pierce's Favorite Prescription:

"A remedy which invariably acts as a uterine invigorator \* \* \* makes for normal activity of the entire reproductive system. In Helonias we have a medication which more fully answers the above purpose than any other drug with which I am acquainted." He continues, "In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe goes on to point out some of the symptoms and morbid conditions in the cure of which Unicorn root is especially efficacious; among these he mentions pain or aching in the back, with pelvic catarrh, weak conditions of the womanly organs, despondency and irritability of temper arising from chronic disease of the organs distinctly feminine, amenorrhoea, suppressed or absent monthly periods, derangements of digestive organs, dragging sensations in extreme lower part of abdomen and kindred symptoms.

This Helonias, or Unicorn root is most faithfully represented by Dr. Pierce's Favorite Prescription which is rich in its medicinal principles. Not less important, in Dr. Pierce's estimation for the cure of woman's peculiar weaknesses and diseases, are Golden Seal root, Blue Cohosh root, Black Cohosh root and Lady's Slipper root, all of which enter into the "Favorite Prescription."

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of Golden Seal root: "It is an important remedy in disorders of the womb. In all catarrhal conditions and general enfeeblement, it is useful." Prof. John M. Scudder, M. D., says of Golden Seal: "It is universally regarded as the tonic in all debilitated states." Professor Bartholow, of Jefferson Med. College, says of Golden Seal: "Valuable in uterine hemorrhage (bleeding), menorrhagia (flooding) and congestive dysmenorrhoea (painful monthly periods)." Of Black Cohosh Prof. John King, M. D., Author of "Woman and Her Diseases," says: "In dysmenorrhoea (painful periods), it is surpassed by no other drug."

After reading the above who can doubt that Dr. Pierce has compounded his "Prescription" from the most valuable agents known to medical science for the cure of those chronic diseases peculiar to women for which he recommends it?

You can't afford to accept any secret nostrum of unknown composition and of questionable merit as a substitute for this professionally endorsed and time-tested remedy of KNOWN COMPOSITION, simply that some unprincipled dealer may make a little larger profit. Don't expect it to perform miracles but give it a fair, persevering trial and it is not likely to disappoint you. It won't "dissolve tumors"—no medicine will. It will cure a larger percentage of all curable ailments which especially afflict womankind than any other medicine sold by druggists for that purpose.

## Woman's Watchword

Is modesty. Whatever threatens her delicate sense of modesty, frightens her. For this reason many a woman permits disease of the delicate womanly organs to become aggravated because she cannot bring herself to submit to the ordeal of unpleasant questionings, offensive examinations, and obnoxious local treatments, which most physicians think necessary. Doubtless thousands of women who have taken advantage of Dr. Pierce's offer of free consultation by letter, have been led to do so by the escape thus offered from a treatment repugnant to modesty.

Any sick woman may write to Dr. R. V. Pierce, Buffalo, N. Y., in perfect confidence; all letters being treated as strictly private and sacredly confidential, and all answers being sent in plain envelopes with no advertising or other printing upon them. Dr. Pierce's Favorite Prescription has been long hailed as a "God-send to women." It makes weak women strong and sick women well. It enables women suffering from "female weakness," prolapsus uteri, retroversion, anteversion, and other displacements of the organs distinctly feminine, to cure themselves right in the privacy of their homes. Pelvic catarrhal drains, painful or irregular periods, backache, frequent headaches, weak nerves, dragging-down pain or distress in the lower abdominal, or pelvic region, gnawing sensation in stomach, dizziness, or faint spells, and kindred conditions and symptoms are cured by Dr. Pierce's Favorite Prescription. It's not a secret or patent medicine, against the use of which most people of intelligence naturally object, but is, in fact, the "Favorite Prescription" of a regularly educated and experienced physician in the treatment of woman's peculiar ailments and who is not afraid to publish all its ingredients, as he does, on its bottle-wrapper, attesting the correctness of the same under oath. It contains neither alcohol nor harmful habit-forming drugs, being a pure glyceric extract of curative principles found in our most valuable native, medicinal roots, as attested by many of the most eminent medical writers and teachers of all the several schools of practice.

A little booklet of numerous, professional endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. V. Pierce, No. 663 Main Street, Buffalo, N. Y.

### IVES DEAL STILL PUZZLE

Competing Lines Know Wabash Did it, but Want to Know How.

### MILWAUKEE ROAD FALLS INTO LINE

Local Dry Goods Jobbers Announce Their Intention to Patronize Goods Made for While on Personal Grounds.

Local railroad officials are all at sea over the cornering of the dry goods business by D. O. Ives, traffic manager of the Wabash. None has been able to figure out just how it was done. It is a fact the Wabash is getting the business and the others are holding the sack. The Milwaukee has followed the lead of the Great Western and the Wabash and filed a notice with the Interstate Commerce Commission that after May 25 it will assume the marine insurance. In the original tariff as published it is specifically stated that the marine insurance is not included in the published rates. The assumption of this charge on business from the east to Missouri river points makes quite a reduction in the cost of transportation. Thinking that Ives was in the wind

the representative of one of the Chicago-Omaha lines went to the two largest dry goods jobbing houses in Omaha to solicit some of the business and from each received the same reply:

"We are going to give this business for a time to Mr. Ives on personal grounds." If Mr. Ives has succeeded in cornering this business for a year or a longer length of time he has accomplished a good work for his road, while certainly playing golf in Omaha at the Country Club. What was done to get this business will be a puzzle in railroad circles until further developments reveal the true situation. One prominent railroad man said:

"Whether Mr. Ives has promised to publish a reduction in this class of goods in consideration of his getting the business is a matter which time will have to develop." Lack of Material for Shops. Work on the new shops in the Union Pacific yards has not been progressing as fast as the officers of the road would wish because of scarcity of material. The building which looks to be the most complete in the office building, which looks up so it can be seen with its tile roof from many parts of the city. This building will require an immense amount of work on the inside, as it is to be one of the most complete railroad office buildings ever built. Superintendent McKean has arranged for every comfort for the men employed and the interior finish will be beautiful and substantial. The other buildings are being pushed as fast as material can be secured. Hannaford on Pleasure Trip. J. M. Hannaford, second vice president

of the Northern Pacific, was in the city a short time Friday morning, coming with his family over the Northwestern from St. Paul and leaving shortly afterward on the Union Pacific for Los Angeles. He said his trip was purely personal, as he was going to Los Angeles to attend the wedding of a relative.

"Four lines in your paper will do for me," said Mr. Hannaford, "for I have decided business for this trip." When asked concerning the fish in the waters of Minnesota Mr. Hannaford said: "The lakes of Minnesota are surprising everyone. We have had lots of rain this spring and lakes which were about given up as fishing places have filled to their normal level and we still have the best state for fish in the union."

Two Infernal Elements. Wyoming has two industries which bid fair soon to be turning out an immense daily tonnage for the railroads to move out of the state. One is a salt well at Cambria, which will be in operation in thirty days. This is pumped around a big hill to a point near the railroad station. The other is sulphur from the Big Horn country. Machinery has all been installed and it is thought that a daily output of 100 tons will soon be moving. Railway Notes and Personal. C. E. Spens, general freight agent of the Burlington, is in Denver. A special train left Denver Thursday, carrying the different excursionists to Boston. Several meetings will be held in the city hall to pay his city taxes. The Matrangas brothers were the most severely injured of those who escaped being killed. Lotta's body could not be extricated until two hours after the accident, when the wrecking crew removed the upturned car. Railroad attaches were unable to account for the accident more than to say it was one of those unfortunate affairs which happen and which cannot be explained.

### ONE KILLED AND FIVE HURT

Italian Workmen Caught by Upsetting of Car of Rails.

Accident Occurs in South Omaha and is Caused by One Car Jumping Track at Crossing.

The upsetting of a car of rails on the Union Pacific tracks at Twenty-fifth and D streets, South Omaha, at 8:50 Friday morning brought death to one and injuries to five persons, all being Italian railroad laborers who live in a work camp near the tracks at Sheelytown. Deceased: COLO LOTTA, head and arms crushed. Injured: Sam Matranga, legs crushed. Joseph Matranga, back and legs injured. Tony Parino, back crushed. Dominico Gnatarasi, feet crushed and ribs broken. Vito Matranga, back, arms and ribs broken. Locomotive No. 64, with two cars of rails, was making the cross-over from the main to the sidetrack, when one of the work cars jumped a rail and toppled over, as the rails had been loaded on one side of the car for convenience in unloading at the point where a new track is being laid. The dead and injured workmen were on the rails and were precipitated with such suddenness they were unable to escape, being caught beneath the heavy mass Lotta was instantly killed. The other men were extricated quickly by their companions. The injured men groaned piteously until relieved by the company surgeons. The Union Pacific ambulance and wrecking crew were soon on the scene. The injured were removed to St. Joseph's hospital, while Lotta's body was taken to Brewer's undertaking establishment in South Omaha. Coroner Brasley will hold an inquest Saturday. The Matranga brothers were the most severely injured of those who escaped being killed. Lotta's body could not be extricated until two hours after the accident, when the wrecking crew removed the upturned car. Railroad attaches were unable to account for the accident more than to say it was one of those unfortunate affairs which happen and which cannot be explained.

### WILLIAMS GIRL STILL LOST

Young Woman is Searched for by Her Father and Detective in Vain.

W. Williams of 3461 Miami street continued the search for his missing daughter all day Friday. He called at the police station several times during the day and has Detective Moler working on various clues. An inquiry at Grace Williams' boarding place, 1723 Capitol avenue, brought the information from Mrs. B. O. Sweazy, proprietress, that the girl left the house a week ago last Thursday, saying she would return in a week. Mrs. Sweazy also said the girl had had several meetings in her room with a young man who always came to the house between 10 and 12 o'clock at night. Miss Williams appeared much agitated the last day she was at the Sweazy place. Mrs. Williams' personal effects are still at the boarding place. The authorities at Des Moines have been requested to make a search there for the girl, who is thought to have gone or was taken to the Iowa capital. Mrs. Rawtiter declined to discuss the case Friday morning. A servant at the Rawtiter home said Earl Rawtiter left his home last Tuesday. On Tuesday evening a detective called at the Rawtiter home in his search for the missing girl. The county attorney said he would have to locate the girl before taking any action in the case. Meanwhile no one knows or will tell where Grace Williams or Earl Rawtiter are.

### INSPECTION TO BE RIGID

Examination of Meat and Foods to be Tightened, Says Council.

TALK OF CREATING A NEW OFFICE. Some Councilmen Are of the Opinion that an Inspector Should Do Some Inspecting. Measures to make local inspection of foods and meats rigid and thorough probably will be taken by the new council. The excitement stirred up over the alleged lax methods obtaining in packing plants accounts for some of the agitation, together with the discovery by several councilmen that the position of meat inspector in Omaha is almost purely honorary, so far as any actual work is concerned. The job pays \$100 a month and Councilman Bedford and others are insisting on at least a few dollars' worth of service a month. There has been talk either of creating

the new office of food inspector or increasing the scope of the meat inspector's duties in the hope of results if he is kept busy during ordinary working hours.

Two Offices in One. At present the office of meat inspector is combined with that of veterinary surgeon and no one other than a skilled practitioner is eligible. The inspection of food is confined to animals intended for slaughter, carcasses and meats. Besides authority in cases of infectious or contagious diseases among live stock the officer is required to treat all disabled and sick horses in the fire and police departments. The provision requiring the officer to devote all his time to duties as veterinarian and meat inspector has been disregarded. Whether or not a separate office will be created or the duties of the veterinarian and meat inspector enlarged is a mooted point. Although the powers of the health department extend outside the city limits, the ordinance limits the jurisdiction of this officer to the boundaries. He, therefore, pays little or no attention to the packing plants and abattoirs in South Omaha. No trouble to find lost articles if you advertise for them in the "Lost" column on The Bee want ad page.

### Great Waist Selling

Just one week ago we announced a Special Waist Sale and the hundreds of customers who visited the store were more than pleased with our large display of fine styles and the special value. The sale is now at its best.

Scores of fresh new styles will be shown for the first time Saturday.

THE SPECIAL SALE PRICES ARE **95c, 1.75 and 2.50**

### CONSOLIDATION UP TO DATE

Failure to Unite Treasury Headquarters Irritates Public and Weary on R. O. Pink.

Treasurer Pink has called the attention of the council to the fact that he needs enlarged quarters in the city hall to complete the consolidation of the city and county treasuries with convenience to the public and economy. The council has promised to make the arrangements at once and will take up the matter at the general committee meeting Monday afternoon.

Mr. Pink has been overwhelmed of late with complaints and protests from the public because the law of consolidation has not been carried out. While he is entirely unable to help matters that does not satisfy the taxpayer who must have himself hoisted into the court house to pay his county taxes and go over to the city hall to pay his city taxes.

"I thought these offices were consolidated," retorted a weary taxpayer the other day who had gone to the court house to pay both county and city taxes.

"They are," replied Mr. Pink, "but the headquarters have not been united yet."

"And that explanation is made many times a day," said Mr. Pink. "It is not a personal matter with me. I wish that could be understood."

### SCARCITY OF BRICKLAYERS

Not Enough Skilled Workmen to Supply Demand of Contractors, Who Search Everywhere.

A great scarcity of bricklayers is now confronting the builders of Omaha and the contractors have men in other cities looking for men to assist in the numerous buildings which are going up in Omaha. Bricklayers are paid 62c cents an hour and there is an immediate need of at least fifty. As soon as some of the larger buildings are under way many more will be needed.

### It Heals Without A Scar.

The great magnesian, soothing and healing treatment—KING CACTUS OIL never leaves a scar.

Prof. Dean's King Cactus Oil

Speedily cures cuts, sprains, bruises, old sores, swellings, frost bites, chapped hands, barbed wire cuts on animals, burns and scalds, stings, snake, dog, and all burrs of man or beast.

For sale by Sherman & McConnell Drug Co. Omaha, Neb.

### JUDGE AMIDON COMES HERE

North Dakota Jurist Will Sit in the Cases Against the Cattle-men in Omaha.

United States District Judge John F. Amidon of the district of North Dakota has been assigned to assist in the trial of the cases pending before the United States courts in the Nebraska district from May 31 to November 30.

Judge Amidon is expected to reach Omaha Monday next in time for the opening of the courts after Decoration day week recess. He probably will have charge of the equity docket in the north court room.

The new panel of fifty petit jurors will be here Monday for duty and it is now expected the present term of court will continue without recess until after the middle of July in any event. It is expected by that time to have cleared up the old circuit and district court dockets. It is hardly expected the cattlemen cases now under investigation by the grand jury and from which indictments have already and may yet be returned, will be ready for trial before September. The government, however, will be ready for the trials immediately upon the completion of the indictments, but the defense will require some time to prepare their lines.

### BUCKLEY MUST PAY COSTS

Man Who Gets Fifteen Years Shall Put Up Expenses of His Prosecution.

James J. Buckley, who was convicted of holding up an Alhambra saloon and was sentenced to fifteen years in the penitentiary by Judge Sutton, will have to pay the cost of the prosecution, Judge Kennedy having found for the state in the garnishment proceedings against Buckley.

Immediately after the trial County Attorney Shughart garnished \$200 which had been placed in the hands of ex-Sheriff Power for Buckley. Later Harry P. Spencer, who gave the money to Power, intervened and claimed the title to the money did not pass to Buckley until Buckley had made a formal demand on Mr. Power for it. The court decided against him. The cost of the prosecution amounted to about \$100.

## Special Train to Boston

For those who wish to attend the Christian Scientists' meeting at Boston, Mass., and any others who may wish to take advantage of the low rates, a special train of standard Pullman sleeping cars will be run through to Boston, leaving Union Depot, Omaha,

At 8:00 p. m. Wednesday, June 6th  
Arriving Boston 5:20 p. m. June 8th  
VIA THE

## Chicago, Milwaukee & St. Paul Railway

Route of train will be via Chicago, Milwaukee & St. Paul Railway to Chicago, Wabash, West Shore and Boston & Maine R. R., Chicago to Boston.

ROUND TRIP RATE . . . . . \$29.75  
Via New York City . . . . . \$33.75  
Sleeper, one way, double berth \$8.00

Stop-overs allowed at Detroit, Buffalo and Niagara Falls going and returning, and at New York City returning. Tickets honored via boat between Detroit and Buffalo and between Albany and New York City, no extra expense except meals and berths.
