## ATTORNEYS READY TO QUIT

Harl & Tinley Object to Remarks Made by Members of City Council.

WALLACE SMOOTHES THE MATTER OVER Special Counsel of City Advises

Against Hasty or Radical Action at Present on the Water Works Question.

As a result of the discussion on the waterworks question Thursday night by the committee of the whole of the city council, when some disparaging remarks were made by some of the councilmen while referring to the contract recently drawn up by Hari & Tinley, special counsel engaged by the city, nearly resulted in the latter declining to act further in the matter on the part of the city. After reading the newspaper reports of

man Wallace, chairman of the special waterworks committee, stating that if there was any such feeling among the ouncilmen regarding the legal services of his firm as appeared to exist that the resignation of himself and Mr. Tipley would be forthcoming on the slightest intimation, regardless of any contract by which the city might be held.

At once on receiving the letter Councilman Wallace had an interview with Mr. For Sale—Will sacrifice on my fine piano.

Payments if desired. Can be seen at Schmoller & Muellers, 502 Broadway.

Altie Wilson, 12 Glen street, and Walter Shegard, 1827 Fifth avenue, were reported to the Board of Health yesterday as suffering from measies. Harl, in which he succeeded in explain-

o Chairman Wallace of the special committee that it would be extremely unwise for the city council at this time to abandon the negotiations with the waterwarks company or to take extreme measures Such a course, Mr. Harl pointed out, would probably lead to years of litigation, and the city was finally successful in compelling the waterworks company to take up its pipes from the streets every bit of paving in the city would have to be torn up in order that the company could get its pipes out of the ground.

Plans Must Be Changed by Straight-

ening Boyer River. The hearing before the Boards of Supervisors of Pottawattamie and Harrison counties of the protests against the assessnent for benefits from the construction of the Willow creek, Allen creek and Boyer river cut-off joint ditches has practically decided the supervisors that some provision nust be made for draining that portion of the country not immediately abutting on the ditches, but which is assessed for the cost of the proposed improvement. This will have to be done by lateral ditches, but nothing definite was decided upon at yesterday's session.

It has been suggested to change the original plans somewhat by straightening out four miles of the Boyer river. This, it is asserted, would permit of greater capacity for carrying off the water from above. Engineer Seth Dean, in charge of the construction of the ditches, was instructed to make a survey and furnish an estimate o the probable cost of the change.

The joint session was adjourned until Monday, June 11, as the Pottawattamie county board is to meet this week for its regular June session
