Resolutions Adopted.

These resolutions were adopted by the onvention:

These resolutions were adopted by the convention: That we believe the liquor business to be just as honorable, as any other busi-ness, provided that it is properly conducted. That it is, the sense of this association to conform to all the laws, and that we do absolutely condemn the practice of some engaged in the trade, in the illegal man-ner in which they conduct the same. That by a recent decision of our su-preme court we are burdened with addi-tional restrictions, whereby we must re-frain from entering our own places of business between the hours of 10 p.m. and 5 a.m., which we believe to be a usurpa-tion of personal liberty. That we hereby appeal to the legislature for relief and a modification of the exist-ing laws appertaining to the liquor traffic, in order that men legally engaged in the sale of liquor may have the same 'con-sideration and protection as the men en-gaged in there fires of business. We believe that it is the sole aim and object of the law to promote the ends of justice, and therefore all law should be founded upon sternal justice framed in the spirit of brotherly love, but that no law should be based upon prejudice, per-sonal haired of ignorance of conditions, because all such laws are enemies to so-clety and dangergus in the extreme, to the general welfare of the common people.
