KANSAS CITY, Mo., June 7.-Arguments in the cases of the Armour, Swift, Cudahy and Nelson Morris Packing companies on harges of accepting rebates from the Burlington railway on export shipments had not been corcluded when court adjourned tols afternoon.

The Burlington had signed a contract with the packers giving them a rate of 23 ents per 06 pounds, Mississippi river to New York. During the life of the contract the rallway raised its tariff to 25 cents. Counsel for the defendants in their reguments today took the ground that when their contract with the railway was signed at the 23-cent rate it was legal and it was necessary to protect their business, was contended, by making contracts of this nature and the packers were not responsible for the fact that the railway, the consequent weaking of the Dreibund, by Joseph P. Boyer before the commission after agreeing to ship its products at one rate, which at the time was legitimate, had later raised its tariff.

A. S. Van Valkenburgh will tomorrow morning begin his argument for the government. The case probably will be given to the jury by noon tomorrow.

During the day the case against the Chicago & Alton and J. N. Faithorn and F. A. Cases Are Consolidated. On Tuesday last District Attorney Van Valkenburgh and the counsel representing the defendants agreed to consolidate the four cases for trial purposes, the issues in each case being practically the same. Judge McPherson gave both sides until this morning to prepare an agreed statement of facts. Both the govern-

The statement recites that the Burlington railway had at the time that the alleged offense was committed entered into a trafhe arrangement with the Kansas City Belt Railway company, the Toledo, St. Louis & Western, the Grand Trunk Western rail-
