WATER ENGINEER SELECTED

Special Council Committee Agree on W. Kierstedt of Kansas City.

NAME SENT TO NEXT COUNCIL MEETING

Is to Give City Estimate of Value of Present Water Works System and Also Cost of Constructing a New One.

The special water works committee of the city council decided to engage, subject to the approval of the council, W. Kierstedt, a hydraulic engineer of Kansas City, to compute the value of the present water works plant and furnish an estimate of the cost of construction of a new water system for the city. The tentative arrangement with Kierstedt is that he is to receive \$5,000 for his services.

The decision to recommend the employment of Mr. Kierstedt is said to have been reached by the special water works committee at a meeting held Thursday night at the office of Chairman Wallace. The special committee is composed of Councilmen Wallace, chairman; Olson, Hendrix and Knudsen. Wallace, Knudsen and Olson favored the appointment of Mr. Kierstedt, while Hendrix opposed it or the employment of any hydraulic engineer at this stage of the negotiations between the city council and the water works company.

The recommendation of the special committee will come up for ratification or rejection at the meeting of the city council next Monday night and present indications are that the committee will have sufficient votes to carry it through.

If the agreement between the special committee and Mr. Kierstedt is concurred in by the city council Mr. Kierstedt has promised to begin work here June 23 and to remain here three months if necessary to secure the needed information from which to make an intelligent report on all phases of the water works problem to the city council.

Mr. Kierstedt is at present engaged as a consulting engineer of a water works plant being installed at Muscatine. He has also been connected with similar projects at Dubuque, Ia., and in other states. He has been highly recommended, it is said, to the special committee at whose meeting he was present Thursday evening, but left for Kansas City on a late train.

Telescope Mystery Cleared Up. The mystery surrounding the large telescope grip containing woman's clothing, which has been at police headquarters for several days, has been partly cleared away. From papers found in the grip it was supposed to be the property of a Miss Myrtle Clark whose home was apparently at Indian, Ia. Notice of the finding of the grip was sent to the authorities at that town and yesterday Chief Richmond received a letter from Mrs. Matthew Clark, mother of the owner of the grip, asking that it be sent there.

About a week ago a young woman was seen to deposit the grip on the sidewalk on South Main street and walk hurriedly away. Parties who witnessed the action of the young woman notified the police and the grip was taken to headquarters.

The city marshal, who is in charge of the police force, replied that Myrtle Clark had been employed in the city hotel there but had left two weeks before and inquiry showed that her parents, who live near Irwin, were unaware of her present whereabouts. The letter from the girl's mother, however, failed to say anything about the young woman being missing and this led the police to believe she may have returned home since being in Council Bluffs, and has notified her parents as to her present location.

Paris says white linen parlors. We're showing these washable sunshades in many new exclusive styles at prices that create unusual selling. Better select your's while the assortment is at its best. The John Bono Company.

High grade pianos sold on easy payments, \$10 down and \$5 per month. Swanson Music Co., 407 Broadway.
