

GRAIN AND PRODUCE MARKET

Wheat Reacts Then Goes Higher Than Previous Day.

BULLISH KANSAS STATE CROP REPORT
Condition of Grain Given Below Last Year—Corn Off at Start on Hates, but Quickly Gains Strength.

OMAHA, June 9, 1906.
Wheat reacted as buyers are in the session, many holders selling on the theory that crop yields had been discounted. Just when they were about to be feeling the most bullish, the Kansas state report was issued, showing a condition of 76.64, as compared with 75.60 for the corresponding time last year. An attempt to cover found that until prices had fully recovered and some additional strength gained. Trading was lively the last three-quarters of an hour with some realising in the last few minutes.

CHICAGO, June 9.—Additional evidence of damage to wheat by drought was furnished today by a Kansas state report, which gave the condition of wheat as 76.64, as compared with 75.60 for the corresponding time last year. This report, but most of the May 1 report, which showed a condition of 75.60, was later on profit-taking. The close steady, with 1/4¢ higher. Corn was 1/2¢ higher. Local receipts of wheat were 20,000 bushels, against 25,000 bushels for the corresponding day last year. Minneapolis receipts at Chicago reported at 25,000 bushels against 28,000 bushels for the corresponding day last year.
