## For and About Women Folks

Rarely have women given their suing was founded in his memory. ideas that publicity which their dominant interest in the home problem warrants. For, while man provides the wherewith and generally supervises the construction, it is the woman who makes the home and gives it its true significance.

At the convention of Woman's Clubs in St. Paul the problem of how a young married couple can live on a salary of \$100 a month in a five-room flat and save enough money to begin building a house in the suburbs the first year was solved with happy results. According to a disgram which the household economics committee has mapped out, any typical honeymoon pair can bill and coo upon this stipend without rupning into debt if they will only follow the chart faith-

All this is exemplified in a "model flat" exhibit, which, with other displays, has been installed in the old capitol building. Pamphlets which are distributed among the visitors by the women in charge, give a complete outline of life on \$100 per month. The document reads in part:

"The committee has tried to set forth in detail a practical, every-day which any man earning a salary of \$190 husband has saved \$500 and that the wife has had the training in home and school by my children. making of a home.

"The first year they rent and furnish comfortably, the cost of equipment being \$100 to apply on the purchase of a lot. Being well provided with clothing and able to save \$300 towards their new home above rent and living expenses.

"The cost of a day's ration for one man ought to be from 25 to 50 cents. The dietary standards usually calculate the amount of food needed by a woman as four-fifths as much as a man."

The members of the committee which prepared the exhibit and the report are: Mrs. Mary Moody Pugh, chairman; Mrs. Josephine Newman Smith, Mrs. Robert Miller and Mrs. Anna Barrows.

-4-Star Discoverer Honored.

Mrs. Wilhelmina Paton Fleming, who has achieved fame through her discovery of stars in connection with her work as curator of astronomical photographs At the Harvard observatory, has been elected a member of the Royal Astronomical soclety of London. She is the first Ameri- ward, as if putting down the preserves can woman and the third of her sex to tired only women who were past middle receive such honors. Previous woman age. And a certain indignation rose within of travel. and Agnes M. Clarke.

Mrs. Fleming than to any other person in the history of science. This talented woman, however, attributes her success not to herself, but to the equipment to death if necessary, but don't let her whereby she works.

Mrs. Fleming, who appears in scientific records simply as "W. Fleming," is a native of Dundes, Scotland, and has been at the Harvard observatory twenty-seven years. She discovered her first star in 1887. A partial list of her discoveries includes eight stars of the type Nova, eleven new 'variables and eighty-three stars in a cluster which formerly was supposed to contain only fifteen.

Elderly Woman's Point of View.

"Oh, mether darling," my daughter cried, "you're not going to that lecture with your cold in that drafty hall! And you always catch more cold in a crowd! You won't go, will you?"

"Well, well," I temporized. "You won't go-promise." Then the door bell rang, and I made my escape to my own room and locked my door after me, says a writer in Everybody's Magazine. I knew well enough what would happenhow Margaret would tell the others at dinner that I was going out-with my cold -and how they would protest. And I made up my mind, as often I have before, that since I am old enough to know what a month may provide for a family. We is best for me, I would go to that lecture, begin with the young married couple set- let them talk as they might; so I got tling their first home, assuming that the ready for the battle, resolving for the hundredth time that I would not be run

which will fit her to do her part in the As I sat in my room plotting-yes, plotting-how I would outwit my daughter, it that I should be contriving to get my own \$409, a five-room apartment, saving about way for all the world like a naughty, elderly child, while my youngest daughter was worrying about my headstrong ways having no extras the first year, they are as if she were my mother instead of my being hers.

How increasingly often I hear as the dren, but from other people whose mothers are already old:

"Mother will not take care of herself!" And then follow fearsome stories of mother's latest escapade-just as one tells how naughty Johnnie is getting and how Susie kicks her bedclothes off-stories of how mother made a raid on the attic and cleaned it almost single handed when all the family were away; stories of clandestine descents into the perlious depths of the cellar, hair-raising tales of how mother was found on a stepladder hanging a window curtain; how mother insisted on putting down the preserves and pickies, rows Among this great number there are, of them, herself, and how tired she was aftermembers of the society are Lady Huggins me as I remembered that I can visit my own attic and my own cellar only by More star discoveries are credited to stealth or with a devoted tyrannical child of mine standing over me to see that I don't "overdo." For the motto of all devoted sons and daughters is: "Nag mother

How He Doubted the Number. "Such a change," said Senator Tillman, apropos of a certain bill, "would be about as satisfactory as the change that a land-

ord once made. "A woman came to see this landlord. She wanted to look at a house that was to let. The man sent a clerk to show her over the house, and on her return she

" I like the house very well. There is Well, madam, any reasonable altera-

tion,' the landlord murmured sauvely, 'would, provided you took a three-year "'T'd take a three-year lease,' said the

voman, 'if only the house had more "The number of closets shall be

doubled,' said the landlord. "'Very well,' said the woman, in a then and there. "After she was gone the landlord called

in his clerk again. "'John,' he said, 'take a carpenter over to No. 37 and have him divide each of the closets in two." "

He Caters to Brides.

"A great secret of success in the retail

neat and provision business," said a prosperous butcher, 'Is the careful handling of brides. In the fifteen years I have been In the trade I've made it a point to be on the outlook for Mrs. Newlywed and to be especially nice to her. When a young woman looking a bit embarrassed comes into the shop I invariably address her as Mrs. Brides like the sound of their new dignity, and if you guess correctly, you've scored ten points; incorrectly and you've lost nothing. "Again, I am careful never to laugh

any of the many blunders made by the young housekeeper. Any assistant who giggles at a customer's blunder in my shop loses his job. For example, one day last week when I asked a bride patron if she would like the customary piece of suet which goes free with the steak she said, quite seriously: Cleanses, softens, purifies, whitens 'Buet. That's what you make soup and beautifies the skin. Soap and

with, ian't it? Yes, thank you, I'd like a water only cleanses superficially; a little

Almond Blossom Complexion Cream "Do you think I laughed? Not I. I explained gravely that the suct for soup should be applied every time the face making was not what I had in stock that and hands are washed. It removes the afternoon and that I had reference to the dust, soot, grime, smut and smudge other kind of suct. If I lose that customer from the interstices of the skin and it won't be my fault." makes the surface smooth as yelvet.

One Woman Hurries.

A daily necessity at home and abroad; It was a perfect June morning, reports a treasure when traveling by land or water, or when on an outing of any Forest and Stream. Robins, blue birds. meadow larks, wrens, seemed vying with one another. I walked back across the side or mountain resort. Protects the room and slowly pulled out my watch skin from cutting winds, burning rays and consulted it. Then I looked at Chum of the sun and every injurious effect of and we both burst out laughing. "Can you do it?" I hazarded; "it's only the elements. Prevents and cures abo'clock."

normal redness of the nose or any part "Sure, Mikel" was her somewhat inclegant though forceful reply. of the face, and that purplish hue due to exposure to cold, also chapping, chafing, "How long will it take you to get ready?"

asked. "Oh, I'll be ready," springing to her feet, before you can get the horse ready." known specific for burns; takes the fire I bolted from the door and made a rush

for the barn. So precipitous was my entrance into the stall that the horse nearly erased one of my eyebrows with his bind fest. I did not stop to thrash him; indeed, I couldn't much blame him, for I was like an Indian surcharged with firewater. T rushed. Tore my shirt between the shoulders in my haste. Ten minutes after leaving the house I drove up to the front door with a "See, the conquering hero comes" air. I had resolved to be magnanimous in my victory and not laugh at her too

Sweet to Be Remembered. ters, but the family verdit was unani-

claimed in chorus. And here it is:

ANTHONY, Kan., May 25, 1906.

Mr. Thomas B. Murdock, Eldorado Kan.,
Dear Sir: Eighteen years ago this summer a young mother was going east with her first baby. The baby, only 3 months old, was sick and very fretful, the mother very lired and anxious.

In the same car were a number of politicians, going. I think, to a convention. The young mother listened to much of their conversation, even smiling internally at one or two of their good stories; but it did not occur to her that any of them had observed her or her struggies with the baby, until the train stopped at the supper station and the gay crowd trooped out. Then one man came to her, inquired about the baby and told her to go out and get her supper, saying that he would hold the baby and she was not to hurry. Circumstances made it unnecessary for her to accept this offer, but she did not neglect to learn the name of the friendly politician. Through all these years, whenever she has seen that name in print she has said to her husband, "Some day I shall write him a note about that little incident, which he has probably forgotten entirely, and tell him that for eighteen years he has had one firm friend that he knows not of, also that more than once when traveling I have endeavored to pass the act of kindness on."

Now that the baby is finishing her high school work the mother seizes the occasion to inclose a commencement card and say "thank you" once more.

"So shines a good deed in a naughty world." Very sinceriey and cordially.

LELIA C. NOFTZGER.

(Mrs. Thomas A. Noftsger.)

Man's Soft Spot.

"I have found a new way to a man's heart," said the girl who has had three proposals this early in the season. "It is through his socks. The stomach, as a short cut to a man's affections, is a regular continental railway route compared with the came over me what a funny thing it was hosiery line of travel. The modern young man is excessively fond of his socks. He exercises his best taste in buying them, and he likes to have that taste appreciated. He gives you every chance in the world to show your appreciation. Invariably he manages to leave a hiatus between his shoe tops and his trousers, and then, if years go on, not only from my own chit- you have designs on that young man, all you have to do is to cast sidelong but admiring glances at the revealed expanses of hosiery and murmur 'What a protty pattern,' and the trick is accomplished. You don't need to go into particulars. He understands. Those socks are the pride of his heart, and the minute he finds you admire them too he is yours-for the summer season, at least."

> Tips from Foreign Tourists. It is said that there are more people going to Europe this season than ever before in the history of ocean travel

and rows and rows of shining glasses of course, many to whom it is the first trip over, and some of these have sadly mistaken ideas concerning their outfit and the various other rules and requirements One girl who has often told her father that she could go to Europe with him

for a three months' jaunt if given a few days' notice and a suit case has suddenly found, after engaging passage-with six months' notice-that she cannot be comfortable unless they can take two steamer trunks, two suit cases and two hand bags, greatly to the annoyance of her trate papa, who cannot now withdraw from the project. Every traveler tells a different story about the wardrobe requirements of travel. simply because these requirements differ

so materially with each one. Those who do not expect to participate in any social life abroad, who have no friends in foreign cities and carry few or no letters of introduction, may, indeed, go with little impediment and a light heart; but those who are to have social functions given in their honor at this place and that must needs plan their outfit with much forethought and care.

These are, however, seldom restricted to a limited time and amount, usually having enough money and leisure to make those preparations a pleasure and pastime rather than a burden.

But for the usual summer tour of mere sight-seeing the less hampering luggage the better for peace of mind and freedom of movement, as all travelers admit; for pleased voice, and she signed the lease abroad the American baggage system is unknown, and travelers must constantly look after and identify every individual piece they own.

One girl who is going persists in not taking a flannel waist for the voyage, though everyone who is familiar with the trip knows that it is quite cold on deck unless going to the Mediterranean ports. and that woolen garments are absolutely essential to comfort.

There are those who overdress for din ner and the saloon, while many go to the other extreme and imagine the cternal shirt waist and short skirt to be the only proper garb for all occasions, a mistake which makes many travelers seem very provincial.

It is best to be on board an hour or two before the ship sails, having eaten a full meal before embarking, and to be lying down with the head a little lower than the body when the steamer starts. In some cases crushed ice applied to the hollow of the throat is found effacacious in

Be slow-and sure-in making steamer

Leaves from Fashion's Notebook.

All kinds of velvet ribbons in the leading shades will also be in active demand, but black leads. It is expected to be largely used as trimmings and in millinery. Anybody who can invent a safe and sane method of fastening the feminine hat in place may consider that his fortune is made. The present pin is a deadly weapon. A shirtwaist which has become very pepular is known as the golf or tennis shirt. It is strictly plain, tailor made, with attached unstarched coilar, short of elbow sleeves with soft turned back cuffs. Many of them have a patch pocket on the left side.

The maline bon, very full, in black or white lace, is very much in demand. These and long soarfs in chiffen, crepe de chire, Japanese silk, and net both in black and cream with all sorts of decoration, such as embroidery, tucks, ruffles, etc., are the latest things. est thing.

one of the most unusual of the many unusual things in millinery is a walking hat which is nothing in the world but a small edition (an edition de luxo, at that) of a man's derby, trimmed with stiff quilts and prim rosettes made of ribbon. It's a modified form of the very extreme derby hats which Parisians are wearing, and as much pretter as they are more feminine. There has been such a revival of the fad of wearing birthstones that one store has instituted the plan of announcing each month which stone is the lucky one for that menth. On a bit of cardboard prominently placed on the lewelry counter are the words, "Ruby is the birthstone for July," or whatever the case may be. For bridestonids gifts the idea of presenting some bit of jewelry like a locket, bracelet or ring with the birthstone of the per-

among the most practical and acceptable offerings one girl may make another. Some Science church in the world, and one of sweet sachet powder, the odor best liked by the girl who is to make use of the case, is sprinkled between the outside and the lining.

Religious Notes

Rev. John T. Creagh, professor of canon law at the Washington university, has been appointed by the pope to the commission which is codifying the canon law of the Roman Catholic church. Roman Catholic church.

In July his eminence, Cardinal Gibbons, will observe the seventy-second anniversary of his birth, but he scarcely suggests an age that may even be called advanced. Rev. Dr. Benjamin Labaree, superintendent of the American mission at Urumiyah, Persia, died enroute from Persia to New York. For years he has been in charge of the great American mission of the Presbyterian Board of Foreign Missions at Urumiyah.

One of the notable figures at the Des Moines assembly of Presbyterians is its stated clerk, the Rev. William H. Roberts. Dr. Roberts was born in Wales in 1841. He has served as statistician of the United States Treasury department, assistant li-brarian of congress, librarian at Princeton Theological seminary and as a theological professor.

The Rev. John Aldis, once the most prominent minister of the Baptist denomination in England, has reached the age of 36. He began life in a shoemaker's shop. Afterward he was sent to Horton college, hear Bradford, now known as Rawdon's college. Later he became pastor of Maze Pond chapel, London, and in 1866 he was sected chairman of the Baptist union.

Early in September the Jesuits will send to Rome representatives from nearly every country in the world to ait in the general congregation which will elect a general to succeed the late Father Martin. The election of a head for the great Jesuit body is one of the most serious acts in the Jesuit life. Among them it is as serious a matter as the election of a pope to the church at large.

Christian Scientists from all over the world will flock to Boston this week for the annual gathering and meeting of the "Mother church," or "First Church of Christ, Scientist," as it is officially known. The occasion will be notable by reason of the fact that on today will take place the dedication of the new \$2,000,000 cathedral, which has just been completed. This is

A. C. Porter of Cambridge, Wis., has been on a visit to Milwaukee, which place he had not seen since he landed there in 1845 on his way from Maine to settle in Jefferson county, where he has lived ever since. Mr. Porter is a vigorous man of 83 who does not know the taste of tobacco and has never used liquor except medicinally.

An ingenious man in Chicago took a blank check of the Wilmington State bank, filled it out to make it payable for \$15, and then with a lead pencil obliterated the word "state" and wrote in the word "sand," so that the check read Wilmington Sand bank. Then he passed the check on a justice of the peace. Now the justice is studying the law, trying to prove the act illegal.

on one of his expeditions into Central Africa Prof. Drummond found himself among cannibals, who cast longing eyes on his person. It became necessary to make an impression, so Drummond produced a powerful magnifying glass and after an eloquent exordium called down "fire from heaven" by setting fire to some long grass by concentrating the rays of the sun through the glass. After this the natives had no appetite for a white magician and Drummond went on his way rejoicing, laden with native offerings.

Mr. and Mrs. Dayld Elkins of Jermyn. Mr. and Mrs. David Elkins of Jermyn, Pa., had just put their children to bed and had themselves retired when their home was struck by lightning, the bolt crashing into the bedroom. The legs of the bed were torn away and splintered, pletures torn from the walls, the carpet-ripped from the floor, the furniture tossed about and the windows broken. The half of one of the children was burned from her head and the house was set on fire, but the flames were soon extinguished.

but the flames were soon extinguished.

Albert Rosth of Worccster, Mass, is the oldest railroad conductor in the country, having turned his 78th year. He has been with the New York, New Haven & Hartford road for fifty-eight years, over half a century, as conductor. His run every week day is from Worccster to New London and back. Erect and clear-eyed, though with white hair, he has no idea of stopping work. He has traveled over 1,500,000 miles, or over 100 times around the world.

The majority of the new gowns are princess in fact or effect and the most exquisite wedding gowns are built after this manner. The princess gown shown is designed especially for the home sewer and allows of several variations to suit the wearer. The fuliness is fitted to the figure by means of inverted box pleats, but shirrings may be used instead if preferred. The deep yoke may be of some dainty lace, or if the design be used for an evening gown, it may be omitted altogether. The sleeves are in a short puff, ending at the cibow in tiny pleats and finished with a
