Nevada Standard Gold Mine Offers Opportunities of Great Walth to Local People.

ing, Omaha, has a bright future, as it H. H. Churchill, G. A., 1512 Farnam St. owns a valuable gold mining property in the Bullfrog district in Nevada and adjoining the Montgomery - Shoshone which property is not quite two years old and has, by a conservative estimate, over \$39,000,000 worth of ore in sight, which Charles M. Schwab, former steel trust magnate, paid \$5,000,000 for less than four months ago.

The property of the Nevada Standard is surrounded by mines. The officers of this company are Omaha men and have had years of experience in mining and know a good thing when they see it.

The company is making an exceptional offer to the investing public-one that is seldom made. It is offering its treasury stock, for the development of its property, at 10 cents per share, fully paid and nonassessable. It is doubtful if any one will ever have an opportunity like this one

The company has no salaried officers and there is no personal liability to the stock-

Two rallroads are rushing construction

to this district. The Salt Lake & San Pedro raffroad, owned by Senator Clark of Montana, is building from Las Vegas, Nevatia, and will be running trains into Rhyolite, which is about one and one-half miles from our property, about August 1. Do you want to make money? If you do,

buy Nevada Standard. Do not wait too long, as this offer will be for a short time only. This is a quick proposition and the stock is being subscribed for rapidly by the best people of this vicinity and elsewhere.

Investigate and then invest. For further particulars, call or address The Nevada Standard Gold Mining and Milling company, 909 New York Life Bldg.,

DIAMONUS-Edholm, 16th and Harney
