(From a Staff Correspondent.)

DES MOINES, June 10 .- (Special.) -- The new petition of consent law affecting saloons and brewerles has put a stop to the erection of several projected breweries in Iowa cities. It was not discovered till after the enactment of the law last winter that the law affected breweries. Agents

of the Liquor Dealers' association were present at the sessions, but failed to discover the connection. One \$250,000 concern was projected in this city and the petition of consent circulated and secured at great expense. Now it will not be built. It was discovered that the law requiring petitions of consent to be circulated every five years affected breweries as well as saloons and prospective investors in breweries now refuse to place their money in expensive
