# GRAIN AND PRODUCE MARKET

Previous Day.

BULLISH KANSAS STATE CROP REPORT

Condition of Grain Given Way Below Last Year-Corn Off at Start on Rains, but Quickly Gains Strength.

OMAHA, June 2, 1908.

Wheat reacted rather heavily early in the session, many holders selling on the theory that crop advices had been discounted. Just when they were short and feeling the most bearish, the Kansas state report was leaved, showing a condition of 70, as compared with 89 in April and 78 last year. An attempt to cover found little for sale until prices had fully recovered and some additional swrength gained. Frading was lively the last three-quarters of an hour with some realizing in the last two states. OMAHA, June 9, 1908.

of an hour with some realizing in the last cow minutes.

There was less rain on the morning's map in the northwest, and the dry sections of Illinois and Indiana had ample precipitation. Cables say the situation is also improved in Russia.

Corn sold off at the start on realizing and on good rains through Illinois and Indiana, but turned on the Kansas state report, giving a condition of 79 as compared with 86 at the same time last year. Considerable activity followed on covering and renewed buying by early profit-takers. The close was little different from the preward day.

Oats went through the same experience as did wheat and corn. The Kansas report sives the condition as 53.

Estimary wheat receipts were E3,000 bushels and shipments of 28,000 bushels, against receipts last year of 44,000 bushels, against receipts last year of 44,000 bushels and shipments of 35,000 bushels and shipments and shipments of 65,000 bushels. Clearances were 13,000 bushels wheat 15,000 bushels outs.

Liverpool closed unchanged to 4d higher on wheat and 4d higher on corn.

Instels outs.

Liverpool closed unchanged to id higher on wheat and id higher on corn.

Auktralian wheat shipments were 168,000 bushels, against 704,000 bushels last year. Indian wheat shipments were 608,000 bushels against 180,000 bushels last year, Local range of options:

CHICAGO GRAIN AND	PROVISIONS	

Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, June 9.—Additional evidence of damage to wheat by drouth was furnished today by the Kansas state crop report, which gave the condition of wheat as 79 agalust an estimate of \$1 on May 1. A sharp fally followed the publication of this report, but most of the gain was later on profit taking. The close steady with the July option 4c higher. Corn was up 1/4c. Oats were unchanged. Provisions were a shade higher to \$67\forall clower.

Prior to the occurrence of the Kansas report, sentiment in the wheat pit was bearish, there being considerable realizing by local tongs because of improved weather conditions. Not only did the weather map show ideal conditions for harvesting in the southwest, but a cessation of rain was reported from the northwest. During the first half of the session trading was dull, but it became active after the publication of the Kansas report. The demand was general. This caused an advance of almost for the first half of the session trading. The market closed steady. July opened 1/c64/c clear, \$2.56 2.50.

cars against 12 cars last week and 192 cars a year ago.

The corn market was weat carly in the day because of realising sales, holders seeming unwilling to hold their lines oversunday. Cash houses and elevator interests were free sellers. Reported rains in Illinois and the Ohio valley had a tendency to weaken prices. Toward the middle of the day the market railled sharply on active covering by shorts which was based upon the Kansas report, which showed a condition of 19 compared with 86 for the corresponding time last year. The close of the market was steady, but during the last few minutes a large part of the advance was lost on profit-taking. July opened unchanged to \( \frac{1}{2} \) color of 13\( \frac{1}{2} \) cand then advanced to \( \frac{1}{2} \) color of the market was lost on profit-taking. July opened unchanged to \( \frac{1}{2} \) color local receipts were \( \frac{1}{2} \) cand then advanced to \( \frac{1}{2} \) called cars with \( \frac{2}{2} \) of contract grade.

grade. Early in the day the oats market was weak in sympathy with other grain, but like wheat and corn it stiffened on the Kansas report which showed the condition of the crop to be 58 against a general average of 90 for the fast ten years. The close was steady. July opened 4,0% lower at \$750.57%, sold up to \$750 and closed at \$750. Local receipts were 157 cars.

Provisions were quiet and steady. The feature of trading was buying of pork by a local packet. At the close July pork was off 5c at \$16.80, Lard was a shade higher at \$8.8003.82½. Ribs were 507%c lower at \$9.57\cdot{10.00}. Estimated receipts for Monday: Wheat, 8 cars; corp. 418 cars; oats, 171 cars; hogs, 48.800 bend. 800 head.  The official number of cars of stock brought in today by each road was: Cattle, Hogs, Sheep, H'see,

. M. & St. P. ... Total receipts. 9 154

The disposition of the day's receipts was as follows, each buyer purchasing the number of head indicated: 513 .... 300 200

CATTLE—There was no market today, as usual, on a Saturday, the tresh receipts not being sufficient to attract any attention. The receipts this week flave been as usual, on a Saturday, the fresh receipts not being sufficient to attract any attention. The receipts this week linve been fairly liberal, considering the very unfavorable reports regarding the market that have been sent out from day to day, which have been of a character to discourage shippers from sending in their cattle. The total falls short of the pravious week by a few over 1,000 head, but as compared with a year ago there is a decrease of about 2,000 head.

The week started oul with the beef steer market in a very much depressed condition. On Monday and Tuesday buyers did not appear to care whether they got any cattle or not and the trade was a drug from start to finish. On Wednesday the market took on a decidedly better tone, the demand being more urgent, with prices showing a tendency toward firmness. This condition prevailed during the last three market days of the week, so that at the close of the week prices are a little stronger on all destrable kinds of beef steers than they were one week ago. Common and inferior grades, however, continued slow sale, with buyers rejuctant to take them. The feeling among operators on the market is that such improvement as has taken place has been due to a considerable extent to the moderate receipts, which have given packers an opportunity to clean up their surplus products. So long as the violent agitation regarding the wholesomeness of packing house products continues no one anticipates any very great or permanent improvement in the market and no one interested on the selling side would like to see any very big runs of cattle for some little time to come.

Cows and heifers have been in about the same condition as beef steers. On Monday and Tuesday the trade was extremely dull, but during the latter part of the week the better grades strengthened up somewhat, closing the week a little better. Common and grassy kinds of cows, however, did not participate in the improvement, but have been a drug all the week, and unless all signs fall they are likely to sell still

provement, but have been a drug all the week, and unless all signs fall they are likely to sell still lower in the near future.

Stockers and feeders, fortunately, have been in light receipt all the week and yet not light enough to prevent a break in the market. It will be understood that prices on both stockers and feeders have been very high for sometime back and that the season of the year has arrived when it is only natural to expect a very material decrease in the demand, together with a much lower range of prices. So few cattle have been coming that no great change was noted on any one day during the week, still prices kept dropping off until now they are at least 25-lower than a week ago.

HOGS—There was no material change in the hog market today. In fact, for three days in succession hogs have sold in just about the same notches. The trade this morning was active and steady with yesterday, the great big bulk of all the hogs selling at \$5.35 \$6.37%, the same as yesterday, with a aprinkling at \$6.42%. Everything was sold and weighed up in very good season in the morning.

The receipts of hogs this week have shown a very heavy falling off as compared with last week and with the corresponding week of a year ago. At the same time the local demand has been in a very strong position all the week. During the first, half of the week prices tended upward rapidly and the satunce made was maintained during the balance of the week. At the close today prices are on an average a strong 15c higher than at the close of last week and only 15c lower than the extreme high point of the year.

on the open market to make a test of values.

As noted from day to day, the sheep and lamb market this week has been in very satisfactory condition. Values have been steady to strong every day, so that prices have gradually tended upward. Light receipts and better reports from eastern points have contributed to the strength of the market. At the close of the week it is safe to quote an advance on the strength of the market. At the close of the week it is safe to quote an advance on the strength of the market. At the close of the week it is safe to quote an advance on the strength of the market of the strength of the streng

THE TWENTIETH CENTURY FARMER REVIEW OF REVIEWS COSMOPOLITAN WOMAN'S HOME COMPANION

THE TWENTIETH CENTURY FARMER REVIEW OF REVIEWS COSMOPOLITAN.
WOMAN'S HOME COMPANION COUNTRY CALENDAR

Regular Price 86, our of-\$3.25 All to One Address.

Regular Price \$9.00. Our Offer Only \$5.1 All to One Address.

We are very fortunate in being able to arrange with the publishers of these well known magazines to offer their publications at this sansational price. It is an opportunity not often presented. Never before has a publisher been able to make so liberal an offer on exclusive high grade and high priced magazines.

You ask how is this offer possible if the three magazines have a fixed value and are not like the commodities usually offered at bargain THE EXPLANATION

It is well known to everyone in business that in fixing a selling price there must be added to the manufacturing cost the cost of marketing. The cost of marketing a magazine is a big item, and these three publishing houses decided to unify their efforts to get new readers, making one organization do the work, and divide the cost of marketing by three. That is why you can buy these magazines, that at the needs of every home, for nearly half price.

# THE TWENTIETH CENTURY FARMER

This is a magazine designed for every member of the farm home, Special articles on subjects of the greatest interest are printed each week. These are written by men of national reputation and cover a field so diversified as to embrace during the year all branches of farm activity and life. Frank G. Carpenter's "Letters of Travel" and William Jennings Bryan's "Around the World Letters" appear in no ether agricultural paper. Either one of these features are worth the price of a year's subscription. No other farm paper maintains so many regular departments, such as Feeding, Live Stock, Veterinary, Dairy, Poultry, Crops, Farm Devices, Orchard and Garden, with four pages devoted to the women, young folks and children. Each of these departments is edited by a practical editor and not by a theorist.

# REVIEW OF REVIEWS.

This magazine is almost necessary for the up-to-date man or woman who pretends to keep abreast with the times. Its illustrations will coasist of 1,200 pictures a year. Its departments give the best that is in all of the other important magazines all over the world: Timely and informing articles, almost as fresh and as full of news taterest as the daily papers.

# THE COSMOPOLITAN.

This has been a leading magazine for eighteen years. With the recent change in ownership it has been improved and is far better in every respect. Its gain in newsstand sales and in subscriptions have been remarkable, and these are due to the new life and real merit. The Cosmopolitan is printing what the people want. It contains regularly the best fiction, the best special articles on timely topics and the best illustrations money can buy.

# WOMAN'S HOME COMPANION.

This magazine is for every member of the family. It is an ideal entertainer and helper in a thousand congenial ways. The issues for the forthcoming year will be unique in conception and execution, rich and varied in contents and brilliant with the finest and most elaborate and most artistic illustrations obtainable.

# COUNTRY CALENDAR.

This is a beautiful magazine of country life, published by the Review of Reviews Company. It is the most sumptuous, best illustrated and most costly magazine made in the world. It deplets rural or country life in America, both intelligently and instructively. It illustrates and tolls of the life and home surroundings of the farmer and ranchman, as well as the multi-millionaire and his country estate.
