Aside from his connection with the Mormon church, so far as his private character is concerned, it is, according to all the witnesses, irreproachable, for all who testify on the subject agree or concede that he has led and is leading an upright life, entirely free from immoral practices of every kind. He is not a polygamist, has never had but one wife, and has been noted from early manhood for his opposition to plural marriages and probably did as much as any other member of the Mormon church to bring about the prohibition of further plurat marriages. to bring about the prohibition of further piural marriages.

Reed Smoot is within his rights and privileges under the guaranty of religious freedom given by the constitution of the line of states, for there is no statutory provision, and could not be, prohibiting either such belief or such membership.

The other three witnesses were so indefinite as to their statements that their testimony amounted, at most, to nothing more than an attempt to state an imperfect and confessedly uncertain recollection.

All that it is attempted to show as to the character of this oath is positively contradicted by Reed Smoot and a great number of witnesses, whose standing and character and whose reputation for truth and veracity are inquestioned, except only insofar as they credibly may be affected by the fact that they are or have been members of the Mormon church.

With this disposition prevailing everywhere in the state of Utah, among all lation as well as among Mormons, we are of the opinion that there is no just ground for expelling Senator Smoot of for finding him disqualified to hold the seat he occupies, because of the fact that he, in common with all the people of his state, has not made war upon, but has acquiesced in, a condition for which he had no original responsibility. In doing so he has only conformed to what non-Mormons, hostile to his church, as well as Mormons, have concluded is, under all the circumstances, not only the wisest course to pursue, but probably the only course that promises effective and satisfactory results.

WASHINGTON, June : 11 .- The railroad rate bill will be sent to conference by the ouse as its first business tomorrow. The committee on rules has been called to meet in the morning and a special rule returning the rate bill to conference without discussion in the house will be brought in. Under the rules there will be forty minutes' debate on the rule, but none is to be had on the conference report.

After nearly four hours spent in the consideration of legislation affecting the interests of the District of Columbia, the house today resumed consideration of the sundry civil appropriation bill, and after an hour and a half ment in its considers. tion, adjourned at 5:40 until noon tomorrow. An amendment was adopted permitting the appointment of retired officers of the

BILL IN THE SENATE

Charges of Corruption in Handling Affairs of Five Civilized Tribes. WASHINGTON, June 11 .- In the senate today Senator LaFollette made the statement that he had been informed that an assistant to the commissioner to the five civilized tribes had assisted a legal firm in preparing the Indian roll and had then passed upon the roll in his official capacity. He also said that a brother-in-law of the senator who had reported the legislation preparing a court system for Indian Territory, had been appointed a member of the court thus created. These statements were made by the Wisconsin senator in a speech in opposition to the conference report on

the Indian appropriation bill. The conference report was accepted, however, regardless of this opposition and that of any other senators, the expression of which consumed the greater part of the day's session. The particular conference provisions to which objection was made were those relating to the enrollment of the Choctaw Indians, the settlement of the claim of former Senator Butler of North Carolina and other attorneys in connection with the Colville reservation in Washington and the adjustment of the business of A. J. Brown as administrator of certain minor Seminole Indian children.

Early in the day the senate passed the diplomatic appropriation bill carrying 33,-154,594, and the oath of office was administered to William Pinckney Whyte as successor of the late Senator Gorman of Mary-

COMPROMISE ON STATEHOOD BILL Republican Leaders of Both Houses

Come to an Agreement. WASHINGTON, June 11.-The Carter ompromise on the statehood bill was agreed to today by republican leaders of the senate and house. Nothing now stands in the way of the admission of Oklahoma and Indian territory as a state and the choice by Arizona and New Mexico as to whether they desire to come in as another state. It is expected the pending conference report will be withdrawn or recommitted when it comes up tomorrow and an amended report returned to both houses embodying the compromise. In this way the discussion of a question that has been before congress almost continuously for

six years will be ended. Business propositions advertised in The Bee go into the homes of the best people.

More than one noted speaker and thinker have of late shown a leaning to a practical rather than a theoretical effort to aid in the cause of temperance. One of the noted women of our day and age is Miss Phoebe Cousins, for a quarter of a century the leader in the woman's suffrage movement in the west. She recently said "There never will be a law to compel prohibition and the sensible thing for the Women's Christian Temperance Union to do is to aid in the substitution of mild. nourishing drinks like beer which seldom produces drunkenness."

This broad assertion may bring a storm of criticism from the fanatical upon this devoted woman's head, but in the end the living truth of her words will prevail. She try there has been a corresponding decrease in intemperance.

Recently a prominent army officer in the west operated canteens at three different army posts at which only beer was sold-a no alcoholic liquors whatever were at He made the canteens so acceptable to the soldiers, who found beet satisfying their demands, that he actually ran all the low dives of the surrounding neighborhood out of business. Yet it was through the efforts of the W. C. T. U. that the army canteens were driven out. Let us hope the many noble women comprising the W. C. T. U. will be broad-minded enough to recognize their mistake and join Miss Cousins and others who are sincerely striving to stem the tide of intemperance by the substitution of mild, harmless beer for strong drink. In this connection it might be well to mention that chemical analysis shows Pabst Blue Ribbon Beer, which is perhaps the best known of all bottled beers, to contain only a fraction over three per cent alcohol-as one eminent physician puts it. "just enough for a good tonic effect to the stomach, while in food value it is far superior on account of the Pabet exclusive eight-day process of making malt."
