DIVIDEND BOOKS SOON CLOSED

For you to huy stock in the Uncle Sam Oil Company of Kansas, and secure the first dividend, is now very limited. Furthermore, wise investors from all over the United States are purchasing the stock very rapidly, as can be proven by the books. Cash paid in for refined oil and stock for week ending Saturday night, June 2nd, 1906, was \$23.288.00, while for week ending Saturday night, June 9th, is \$29,000.00. In addition to this, over \$25.000.00 has been subscribed on gilt edge contract stock during tile two weeks above mentioned, which will be paid in during the next five months, which means a grand net total of a little over \$75,000.00 in two weeks time. Where can you find another stock as active as this at 20 per cent of par? This giant independent enterprise has a great work to complete, and that it is going to place the balance of its stock and rush this great work to immediate completion is now an absolute certainty.

The public in general despises the methods of the criminal oil trust, and from everywhere comes the demand for independent oil in fact, as well as name. Uncle Sam, with its loyal band of over eight (8,000) thousand stockholders, representing every state and territory in the Union and also Canada and Old Mexico, presents a mountain of strength and influence that even the dirty millions of the aggressive trusts and all the falsehoods, hindrances and other annoyances put up by their different hirelings does not, has not, and can not delay the Uncle Sam Oli Company of Kansas in its onward march to success. Every hour Uncle Sam is growing stronger. From the banks of the Arkansas at Tulsa, Indian Territory, where Uncle Sam Refinery No. 2 is being built, at the different oil fields, at Uncle Sam Refinery No. 1 at Cherryvale, along the main trunk pipe line clear across Kansas to the banks of navigation at Atchison, where Uncle Sam Refinery No. 2 is nearing completion. Uncle Sam's different departments are rapidly wheeling into line for successful action. The public in general despises the methods of the criminal oil trust, and from

are coming into the home office by the hundreds, while every hour telegrams are being received for stock reservation, and letters by the hundreds are arriving on every mail. A few minutes at the home office would convince you that Uncle Sam stock was in great demand, and then remember that over one quarter million dollars have been subscribed at the same price asked herein of you, while all this money has been added for new equipment and for legitimate purposes necessary to the advancement of the Uncle Sam main trunk pipe line and the Uncle Sam chain of three (3) great refineries. In time Uncle Sam will build up to a capacity of eighteen (18,000) thousand barrels daily, while stock is now rapidly selling is sure to increase to several times par value and pay increased dividends. To secure the first dividend your

Remittances Must Be in the Mails by Midnight, June 20, 1906.

the next six weeks Uncle Sam will deliver and complete sixty-six miles more of main trunk pipe line connecting the great producers on 1,100-acre lot forty-three with the refinery storage tanks at Cherryvale. The capacity of this pipe line will be from 2,700 to 3,500 barrels per day, and Uncle Sam can save & cents per barrel on each barrel by completing this pipe line and pumping the oil, over freights now being paid the railroads.

Trunk Pipe Line Completed. With the sixty-six miles pipe line com-pleted as before mentioned will give Uncle Sam 185 miles of main trunk pipe line com-

Sam 125 miles of main trunk pipe line completed. Is not this a pretty good record for this great independent company in fifteen months considering that three refineries will have also been completed during that time? Is not this the kind of an enterprise to hook up with? One success generally follows another and don't you know that the difficult barriers against this company have been 100 to one in the past as to what they will be in the future. With all the strength of a thoroughly organized company in every department backed by nearly a million dollars cash and over \$,000 stockholders comprising some of the most influential men of the nation. Three More Pipe Line Boilers Arrive.

At the town of Pique, near the heart of he Woodson county, Kansas oil fields, where Uncle Sam has land purchased and work commenced on the FIFTH main work commenced on the FIFTH main line pumping station, the last carload of their large boilers arrived last week and workmen have already unloaded one and the other two will be hustled along to Tyro. Kan., where Uncle Sam has land bought and likewise is building pumping station No. TWO and from there the last one will be rushed on to the Sand Creek pumping station, southwest of Bartles-ville, in the Indian Territory, where Uncle Sam has large sterage tanks now completed with several miles of lateral lines leading to the same, where Uncle Sam pumping station No. ONE is nearing compumping station No. ONE is nearing com-

First Independent Company to Secure Indian Territory Pipe Line Permit. The Uncle Sam Company secured a permit from the Interior department several weeks ago and commenced at once se-curing pipe to complete the line. Right-of-way was purchased and money paid the

finery will commence turning gold into the Uncle Sam treasury for Uncle Sam stockholders. This plant will start with a daily capacity of six hundred (600) barrels per day. The Cherryvale refinery—Uncle Sam No. 1—which has been in successful operation for the past eight months, has a capacity of three hundred (200) barrels daily, so by July 4 the combined capacity of the two plants will be nine hundred (900) barrels every day. This oil, when ready for the market, will bring close to \$4 per barrel. Now figure for yourself. Remember, we will have our own production, over our own pipe lines, delivered to the people of the west in our own tank cars and tank wagons—now, is this not a practical lineup for success? Don't you think you'd better secure some of the stock of this growing enterprise by sending your remittance at once before the stock is all taken?

At the Big Towns in Kansas and at St. Will Then Have 135 Miles Main At the Big Towns in Kansas and at St.

Joe, Mo., Distributing Stations Already Completed .. The Uncle Sam company has large storage tanks for refined oil, with warehouses built, and from one to three tank wagons daily delivering oil to our large and growlag trade in

Fifty More Stations Will Be Installed

During the Next Sixty Days.

Close to \$2,700 Daily.

Barring the great profit to be made in Barring the great profit to be made in the refining of crude oil, however, over the main trunk pipe line and river barges alone, when completed, there will be an actual saving over freight rates of nearly \$1.00 per barrel, or close to \$2.700 daily. Give the Uncle Sam credit for even one-half of what is in sight and you will have to admit that we offer the public a square deal of an investment, one that certain returns are right in your plain view. Better follow the example of scores of others and take 1,000 shares at \$2.00 or 6,000 shares at \$1.000 immediately.

People Have Confidence in This Great It is only a question of a few weeks until a million dollars cash and 10.000 shareholders will be back of Uncle Sam. Thousands of stockholders are securing their funds to invest in the stock, while by the hundreds they are doubling up their holdings. Uncle Sam is putting up a square conservative fight for success and is winning almost phenomenal success right in the face of the greatest criminal combine the world has ever known. Uncle Sam has the friendship of nine-tenths of the influential newspapers of the United States and Canada, while the sentiment of the Missouri valley is with us almost to a man. It was forced into existence on account well secure the first dividend by acting Company. During the Next Sixty Days.

Large base distributing stations will be installed at Omaha, Council Bluffs, Sloux City, Nebraska City, Jefferson City, St. Louis and East St. Louis, while from 40 to 45 railroad towns consisting of the best trade centers in Kansas, Okahomo and Missouri will be established. This company will do just what it started out to do—namely, secure and maintain in time the oil trade of the Missouri valley states. If you wish to do your part to broak the grip of the oil trust of the oil fields of Kansas and the Indian Territory, better join our band today and help this, the only formidable foe to oil trust oppression west of the Allegheny mountains, on to greater success.

Uncle Sam will have a daily capacity of (2,700) twenty-seven hundred barrels per day not later than September and will continue to increase and there is not one single sane reason why in two or three years Uncle Sam cannot build up to (18,-000) eighteen thousand barrels per day. Bear in mind that both refinery No. 2 at Atchison and refinery No. 3 at Tuisa are both being built, so that in sixty days time after July they can both be doubled up to (1,200) twelve hundred barrels per day, or twenty-four hundred barrels and with Cherryvale added make (2,700) twenty-seven hundred barrels and with Cherryvale added make (2,700) twenty-seven hundred barrels in all by some time in September.

With Main Pipe Line Completed the Freight Saving Alone Will Be
Close to \$2,700 Daily.

Why Increased Dividends Are Certain. With the refining capacity increased on Uncle Sam to double up the second dividend. There is a market for at least 18,000 barrels of oil per day in the west. Do you suppose this company will be satisfied until it is up to 18,000 barrels daily? Suppose we make only \$1.00 per barrel, while the trust now is making nearer \$2.00, and you will realize that increased dividends are an assured fact. Dividend Books Will Close in Less

Than Ten Days. well secure the first dividend by acting promptly.

A Million and a Half Dollar Producing Property Back of Uncle Sam.

In addition to the before named valuable eleven hundred-acre lot 43, the Uncle Sam company holds leases on oil rights on nearly twenty-eight thousand (28,000) acres in Labette, Montgomery, Eik and Chautau-qua counties, some of which is very good property and any of which may develop good producers.

Souri at Atchison July 4.

For years the railroads and the oil trust working together have tried to discourage and kill all water transportation but the business men of the Missouri valley are waking up and it will be just a question Control Nearly 4,000 Acres More, In-

cluding Seventy-four Oilers. In addition to the before mentioned oil properties Uncle Sam company controls the output of several good fields, including 74 oil wells, six pumping plants and nearly 4,000 additional oil rights. Besides owning outright six gas wells—one that is good for over five million feet daily. There are assets back of this stock on every hand, and they will continually increase and make the stock you buy more valuable.

Here the Missourt. Come to Atchison and see the great river plant which the oil trust knockers river plant which the oil trust knockers river plant which the oil trust knockers and Uncle Sam would never build. However, would advise you to secure your stock at once.

Five Thousand Domestic Fuel Burners Soon Reauy for Delivery.

For the past six months Uncle Sam men have been hard at work on a fuel oil an average of ten times during the next Rushing Shipments for Tulsa Refin- burner for cook stoves and heaters. There ery Uncle Sam No. 3.

ery Uncle Sam No. 3.

In the heart of the Indian Territory oil fields, nearly 300 miles from the big river refinery, you will find the Uncle Sam flag flying on the banks of the Arkansas, by Tulsa, where by July 1 nearly all! of the material will be on the ground or shipped for Uncle Sam refinery No. 3. From this plant Uncle Sam will reach the trade of Indian Territory and Oklahoma and western Arkansas and northern Texas. This refinery, like the big river refinery, is being bulk so it can be enlarged to TEN THOUSAND barrels per day, and in time a very large refined oil pipe line will be built down the Arkansas river to Fort Smith, Ark., where light barges will be loaded for Little Rock and other Arkansas cities and on down the river to the southern coasts. You should join the Uncle Sam company today and let your investment grow with it; 550 to \$200, although a small amount now, may grow into a good investment for you with this growing enterprise.

. It matters not whether you live in Old Mexico, Canada, on the New England coast or Florida or Oregon, you can secure stock in this Uncle Sam company and depend on a fair treatment and dividends

MICHAELSEN MAKES PROTEST

City Electrician Condemns Threatened Increase of Fire Insurance Rates.

SAYS IT IS IN NO WAY JUSTIFIABLE

Declares it Was to Be Expected, as it Was Too Much of a Golden Opportunity to Be Lost.

Threatened increase of fire insurance rates in Omaha has brought out an emphatic protest from City Electrician Michaelsen, who has been endeavoring by forcing the burial of the electric wires downtown to reduce the fire hazards locally and thereby the rates. The electrician was asked if the proposed increase is in any way justified by wire conditions in Omaha.

"No. and most emphatically no. Less than two weeks ago, the chief electrical inspector for the underwriters association was fin 'Omaha, and he expressed himself as most favorably impressed with the improvements, we have made during the past two Wears.

This raise in rates was expected, however. It is too much of a golden opportueity for the insurance people to let by unnoticed. They say the increase Francisco calamity, but we have a right to believe this or not as we see fit. In my opinion the fire loss in San Francisco, inlike the Baltimore loss, is not a legifire loss according to the true gurance policy. If such a loss be legally technically covered by the policies in force, it is purely the fault of the insurance people that they did not have their policies read correctly. You might as well claim that the insurance company should pay your coal bill, your gas bill or your cigar bill; these goods are consumed by

TOOTH TALK NO. 36

I Fill Teeth I Crown Teeth **Painlessly** IT'S UP TO YOU

DR. FICKES, Dentist. 388 Bee Bldg. 'Phone Douglas 537

fire and reduced to ashes; they might be legally covered by your policy, but hardly inder its true meaning and intent, so with the San Francisco losses.

Fire Haunrds Ought to Govern. "The insurance rate of each town or city should be established according to the fire hazards incident to that certain locality, the condition and size of its fire department, etc., and can, therefore, not be governed by conditions brought about by such unformen actions of the elements as earthquakes, and the like, unparalelled in the history of the world. If any one wants to carry insurance against destruction from earthquake in localities where they are common, they may carry it

separately as we here carry tornado in

surance, etc. That should have no con

nection with common fire insurance at all. "Another alleged illustration of the necesfrom the recent Hayden Bros. fire in this The insurance people claim that city. sack. Their motto seems to be: 'Get the we can easily enough raise the rates all over the country, and that will surely

make up for any mistake." Hayden Bros'. Loss. "Examine for a moment the Hayden propused is not occasioned by the Ban | Bros'. loss, and that course will be demonstrated beyond a shadow of a doubt. Before underwriting this risk the insurance people knew that if a sprinkler system be instelled in a building such as was in this building, without an automatic alarm of meaning and intent of a standard fire in- any kind to indicate when the water commences to flow, and without a watchman on Sundays and holidays, that if the alightest fire breaks out in the building. while it is abandoned, the water from the sprinkler system would put out the are, but would also continue to flow until the flood was discovered from the outside of the building. This could hardly happen until the entire building, below where the fire occurred, is thoroughly drenched and the water begins to run out of the front door. This was the case in this building and the fire happened to be on

> the top floor. "The insurance companies knew there was no waschman; they knew there was no automatic alarm system; they knew if a fire should ever break out while no one was in the building it would result in a flood and destruction of almost the entire stock worth over \$500,000. But, in spite of all this, the insurance was written and evidently without any exemption clause. Now, that the damage is done through own carelessness and mismanagement, they try to show us that the only way they can be reimbursed for this fatal mistake of theirs, is-to let every one of their patrons in Omaha, or, maybe, the country over, suffer a little extra assess-

> "The only two remedies that I see against this evil are municipal control of insurance rates or mutual insurance, conducted by the government or municipalities."

BREEN ASKS FOR THE WRIT

that Dear Old Mandamus.

C. J. ANDERSEN BECOMES THE CATSPAW

Hitchcock, Blackburn and Howell Said to Have Let Go in Anything-to-Beat-Rosewater Campaign.

"I am a lawyer; where's your fee?" quoth John Paul Breen last week when he was approached by his co-conspirators in the anything-to-beat-Rosewater campaign with sity of increased fire insurance is drawn the request that he file a mandamus suit to compel County Clerk Haverly to place the names of candidates for delegates to the though the damage to buildings may be state convention on the ballot in alphaslight, as in this case, the damage done betical order so as to disfranchise the mato the stock is apt to be very great. This jority of republican voters at the coming very fire is the most flagrant example of primaries and thus establish a barrier to the poor judgment insurance companies ex- the popular will for the nomination of Edercise and then let their patrons hold the ward Rosewater as United States senator. Evidently John Paul Breen has got his premium, and if the risk proves bad, so price. He filed the mandamus Monday we don't make as much as we ought to, morning. The petition asks not for the alphabetical ballot, about which so much talk was indulged and which inspired the "antis" to file half their delegation of names, beginning A. B or C, but for a rotated ballot, which would give no one the top any oftener than the bottom of the ticket and would make each voter pick out eighty-three names from a list of over 200 and make eighty-three cross marks for state delegates, and again 118 more cross

marks for congressional delegates. Andersen the Tool. Charles J. Andersen, a defeated republican nominee for the city council, who preaches harmony during political campaigns and flings the knife at the polls, lets himself be used as the tool for applying for the writ, and he is represented by Breen and W. H. Herdman, Hitchcock's ally in his fight upon Mayor Dahlman. An alternative writ was issued by Judge Kennedy of the district court and the case will be heard Tuesday at 2 p. m. by Judges Kennedy, Day and Troup, sitting en banc in case Judge Day returns from Sarpy

ounty in time. Pursuant to instructions Andersen, in his petition, says he makes application for the writ for himself and "others." He declares he has filed as a delegate to the state convention and has made a formal demand on the edunty clerk to arrange the names alphabetically, but his request has been refused. Terms of Demand.

The court is asked to compel the county clerk to place upon the ballot in alphabetical order according to surnames, names of all persons who have filed as candidates at the primary election to be held July 2, for the office of delegate to the republican state convention. The directions for printing the ballot are given minutely in accordance, it is alleged, with section 9 of the primary law. The

court is asked to direct the clerk to have

bundles of ballots as there are names on

the ballots be prepared, no two bundles

ballots so printed that as many

to have the names in the same order. SELLS at the top of the form for one impression and placing it at the bottom of the form Lawyer Receives His Fee and Then Files for the next impression and so on through the entire list. The packages of ballots to be delivered are to be made up so that every other ballot in the package shall have the names in different order. The alternative writ applies only to

candidates for delegates to the republican state convention.

Bound Over for Robbery. E. Moulton, alias Harry Shaw, was arraigned in the police court Monday morning on the charge of breaking and entering room No. 3 of the Murray hotel. The prisoner waived the preliminary examination and was bound over to the district court in the sum of \$500. He was sentenced

ten days for vagrancy by the police judge a short time ago. It is charged that Moulton entered the room of J. E. Van Camp at the Murray hotel and was caught by a porter. Moulton was suspected of opening Van Camp's door with a key found in the relevant species and the roller of the roller. prisoner's pocket by the police

PAXTON NOT AFTER THE SNAP Turns Down the Chance to Get Money

from City Without Any Work. The doubtful honor, but profitable luxury,

of serving on the Omaha Water board does not appeal to W. A. Paxton and he has resolutely and firmly declined to fill the seat made vacant by the death of James E. Boyd and to which he was elected ten days ago. Mr. Paxton is a busy man and does not feel as though he could spend the time necessary to become an expert on Omaha water works values, and this is one of the reasons why he has refused the \$50 a month post.

"I'm too busy in the first place," said Mr. Paxton, "and in the second place, this is a job where you are damned if you do and damned if you don't. Personally I know nothing about the value of a lot of pipes and things underground. Another point is that if the appraisement should become involved in litigation, the water months. board would probably spend two or three more years with very few active duties to perform. I don't care to be placed in the attitude of sapping \$3,000 or so out of the public treasury for that."

Members of the board are doing consid-

Increase.

Omaha's graip receipts and shipments for the first five months of 1996 were considerably greater than for the corresponding period of 1906, as shown by figures just omplied by the Omaha Grain exchange Total receipts this year to May 21 were 15,910,000 bushels; last year to May 31 they were 12,415,000 bushels. Shipments this year o May 31 were 16,837,900 bushels; last year, 18,773,500 bushels. An increase is shown of 152,000 bushels in wheat receipts, 1,355,600 bushels in corn receipts and 1,980,600 bushels

in oats receipts. The report of the government Department of Consnerce and Labor for April. just issued, shows Omaha fourth in point of total grain shipments for the first four months of this year, being distanced by hicago, Minneapolis and St. Louis. These together with Kansas City and Milwaukee, were ahead of Omaha in point of grain receipts for the same period. Omaha was third in corn receipts for the first four months, being about 1,000,000 bushels under St. Louis. The market was distanced only by Chicago in corn shipments for the four

Very Low Rates fucaday.
