# **Help Your Stomach**

The chief cause of Indigestion and Stomach Trouble is the failure of the glands to properly secrete the normal digestive fluids. This suppression of the secretions is usually due to the circulation in the glands bed clogged with the jelly-like form of uric acid. With the circulation thus clogged and the secretions suppressed, artificial digestives can at best give but temporary relief. Stimulants at first give relief, but afterwards the re-action is so depressing that they make the case chronic, and the user a slave to the stimulant.
