NO RAIN WEST OF MISSISSIPPI RIVER

Corn Ip Cent and Wheat Three-Quarters-Onta More Active Than for Years, Going Over Two Cents Higher.

OMAHA, June 18, 1906. An explanation of the cause of the ad vance in one grain serves as an explanation for the others. The whole strength tomay was based on crop reports, the market
recoming very much excited at one time.
So rains were shown on the morning's
map west of the Minsissippi river and but
fices throughout the Ohio valley. Reports
coming in tell of hot, dry weather, with
man winds through Nebrasks and parts
in lowa. The reports respecting the winleft wheat in the two states are much more
serious tash at any time beretofore.
Loru is said to be late, and the dry
weather keeps it so. There were compaints today regarding outs from lows,
which hed as much to do with the advance as anything else, as lowa is one of
the largest producing states. The whole
situation hinges, to a great extent, on the
weather conglitions prevailing from day to
day agrough the grain belt. Quite general
realizing toward the close caused a rair remetion in all pits.

culor in all pits.

Weather conditions in the west are having an effect upon country acceptances, which were generally reported light. The situation in the west is generally considered critical.

Oats were by far the strongest cereal on the list, advancing 26725c a bushel before the reaction. In addition to the bad reports respecting the crop, the pessimistic actives regarding hay added additional impetus to the buying. The trade in this market is as large as at any time for four or five years back, and outside speculation is taking a more active interest in it than in either wheat or corn.

Clearances were 133,000 bushels wheat,

is taking a more active interest in it than in either wheat or corn.
Clearances were 125,000 bushels wheat, 20,300 bushels down 108,000 bushels corn and 2,000 bushels down 108,000 bushels corn and 2,000 bushels and shipments 185,000 bushels and shipments of 185,000 bushels and shipments of 185,000 bushels and shipments 605,000 bushels, against receipts last year of 575,000 bushels and shipments 605,000 bushels, against receipts last year of 575,000 bushels and shipments 605,000 bushels and shipments of 652,000 bushels.

Liverpool closed in higher on wheat and lid higher on corn.

Broomhall estimates world's wheat shipments Monday at 5,200,000 bushels.

RIOAGO GRAIN AND PROVISION entures of the Trading and Closing Prices on Board of Trade.

CHICAGO, June 16.—Absence of rain through the southwest and middle west treated extremely builtsh sentiment in the wheat and coarse grain markets here today. At the close wheat for July delivery was up 16 %c. Corn was up 5 0 2. Oats showed a gain of 1 %c. Frowsions were 5 0 12 %c higher.

The wheat market was strong the en-27. Oats showed a gain of 1½c. Provisions were 5@12½c higher.

The wheat market was strong the entire session. With the exception of a few hearish reperts from the northwest news of the day was favorable to the hills. The weather bureau reported clear weather in Kansas and Nebraska during the past twenty-four hours and its prediction was for continued absence of rain. Heporas from many sections of the southwest told of great damage to the crop by thouth. A forecast that the weekly statistics on Monday would show a liberal topy as in world's shipments also helped to stimulate demand for wheat. Strength of corn and oats was another influence that tended to create bullish sentiment in wheat. Throughout the day commission discusses were active bidders for wheat, and shipments were active bidders for wheat, and shipment were closed strong. July opened % @ ½c to ½ % c higher at \$1½ \$83 % c, and ortween \$2½ce and \$3 % c and close! at \$3 % c. Clearances of wheat and four were chard to 223,000 bushels. Frimary perceipts were \$78,000 bushels. Primary perceipts were \$78,000 bushels. Compared with \$22,000 bushels. Primary perceipts were \$78,000 bushels.

Phicago reported receipts of 223 cars signing 211 cars last week and 159 cars a year ago.

Trading in the corn pit was active and the market was strong all day. Demand was general and the selling was chiefly by longs. Continued dry weather was the main reason for the activity and strength. The market closed strong. July opened to 540 gb44c and closed at 200 cm. There was an enormous volume of trade in the cats pit and the market was exceedingly strong. Owing to the congested condition of the July option the bulk of smallne was in the more distant deliveres. At one time the price of the July delivery touched 424c, a gain of ic over the previous high record of the season. Dry weather was the sole reason for the sharp advance in prices. The market closed strong. July opened %c higher at 41%c, and in \$42kc and closed at 42kc. Local receipts were 178 cars.

Provisions were quiet but firm. The market, was affected by the strength of grain and by an advance in the price of live hogs. At the close September pork was up 12kc, at \$15.80. Lard was up 16c at \$9.07kc. at \$158.80. Lard was up 16c at \$9.07kc. at \$158.80. Lard was up 16c at \$9.07kc. At Sins were 5c higher at 49.37kc.

Trading is Desultory and Speculation is Despondent in Tone.

CLOSING IS WEAK AND LOWER in Final Dealings Prices Melt Away Rapidly, with Beading the Central Point of

Attnek.

NEW TORK, June 18.—Trading in stocks was desultory during the most of the snort session today, but the despondent tone of the speculation was obvious and in the final dealings prices melted away easily under a considerable increase of selling pressure. The closing was decidedly weak, with no evidence of resiliency.

Nothing new developed to explain the weakness, but prices were offered down aggressively and the vulnerable speculative position of some of the stocks in the market was manifest. Reading continued to show the effect of its poor technical position and was the central target for attack by the bear party. The stock offered some resistance about 130, but broke through that point before the closing. There was a violent slump in Anaconda and the industrials, the high priced northwestern grangers and other speculative favorites all succumbing easily to the pressure against them. Continued drought in the winter wheat region and a forecast of dry, weather for Sunday made crop damage reports an influence in the market. The disorganization of affairs in Russia received more attention, although the direct pressure produced here by the Russian news was not important. The large reliance placed on the reserves of French capital for resource to supply the large needs of the New York money market makes the situation sensitive to a threst that would involve that money center in embarrassment, as would necessarily be the result of an overturn of affairs in Russia in view of the very heavy French commitment in that country.

The changes in the Items of the bank statement were so small as to make that document of little influence in the stock market. There was nothing in it, however, to relieve the mood of depression of the speculation and the active yielding of the day developed after its appearance.

Total sales of bonds, par value, \$88,000.

Poreign Financial. LONDON, June 16.—Supplies of money were abundant today and the demand was quiet. Discounts were easy. Trading on the stock exchange was dull and prices sagged, the situation in Russia creating nervousness here as well as in Paris, where the bourse was responsible for the decline in consols today and a further drop in new Russians to 2% discount. Home rails were inclined to be easy. Kaffirs were depressed. Americans opened weak at about parity, but hardened during the session and closed firm. Japenese imperial is of 1904 closed at 101%.

firm. Japenese imperial as of 18% chosen 1915.
PARIS, June 18.—frading on the bourse today was heavy, owing to the continued depression of Russians, which later improved, closing with an upward tendency. Russian imperial is closed at 77.00 and Russian bonds of 1904 485.00.
BERLIN, June 18.—Trading on the bourse was dull, prices being unfavorably affected by the weakness of Russians.

BEEF STEERS. COWS.

HEIFERS. 1 1206 1 15 CALVES.

1 240 1 15 1 50 STAG. HOGS Hogs opened a little slow the morning with packers generally bidding only steady prices. It was very apparent however, that they wanted the hogs and when sellers did not cut loose at the prices offered they raised their bids and market became active at an advance of 14c over yesterday. The hogs sold largely at \$6.35 \tau6.5 do as against \$6.32 \tau6.5 \tau6.5

to be the case when the market is higher, it slowed up a little on the close. It will be noted from the table of recipits at head of column that arrivals this week have been very much larger than last week as well as showing a heavy gain over a year ago. Through the advantage given them by the large receipts packers were able to bear the market during the first half of the week 'although prices were a little stronger on Monday. The low point was touched on Wednesday when the hogs sold almost 10 lower on an average than at the close of the previous week. During the last two days of the week the market recovered all the loss, closing a shade higher than one week ago.

Californians Would Have International Arrangement for Report of Yields of Grain. WASHINGTON, June 16. Senators Perkins and Flint and David Lubin of Call-

fornia called on the president to urgo ate for ratification a treaty providing for the participation of the United States government in an international arrangement for the estimation of the world's crop of grain each year. Mr. Lubin, who is identified with commercial and agricultural pursuits on the Pacific count, projected the international

agricultural congress which was recently held in Rome under the auspices of the king of Italy. The conference resulted in a recommendation that the nations of the world join in organizing a grain crop estimating commission which should present accurate estimates of the world's supply can of grain from year to year, A protocol has been drafted carrying the

idea into effect, but approval of the senate is necessary to make effective this country's participation in the work. The president promised to take the matter up with Secretary Root and reach a determination as soon as possible.

GIRL WRECKS FAST TRAIN Pennsylvania Flyer Sent Into Ditch by Farmer's Twelve-Year-

MARIETTA, O., June 16.-Little Alice Kyle, the 12-year-old daughter of a farmer residing between Macksburg and Elba, has confessed to having caused the wreck of the Pennsylvania fiver near the latter town on Thursday night, in which two pas-senger coaches were overturned and the engine, tender and mail car hurled down

Old Daughter.

an embankment. The girl says that she wedged a bolt between the ends of two rails, just to see the train smash-it, as it had smashed nails and pennies at other times. The girl will not be arrested, as the railroad officials

It proposes simply to unite all particans of an auxiliary in an expression of opinion to represent them and to arrive, by an international agreement and a kind of arbitration, at a definite and universally accepted solution. For this purpose it invited all learned bodies, all associations of business men or tourists, to express an agreement with the declaration and to elect delegates. in any case it does not specially advoca

Kansas Miners Resume. PITTSBURG, Kan., June 16.—For the first time since April 15 the whistles at all of the Cherokee and Pittsburg Coal and Mining company's shafts in this vicinity blew for work last evening. Shots will be put in the mines today and the hoisting of coal will begin here Monday. Fractically the same conditions obtain at all the union mines in Missouri, other parts of Kansas, Indian Territory and Arkansas.

Western Pacific Wants Land. Western Pacific Wants Land.

STOCKTON, Cal., June 16.—The Western Pacific yesterday commenced fifteen suits to condemn a right-of-way through Stockton along Union street, the street next east of the line of the Southern Pacific running north and south through the city. Fifty suits will be brought to tie up the property while the company settles with the owners, the object being to prevent sharpers from getting options on the property.

Professor Lounsbury to Retire. Professor Lounsbury to Reffre.

NEW HAVEN, Conn., June 16.—At the end of the present college year Prof. Thomas B. Lounsbury of Yale will terminate his connection with the university after a service of thirty-seven years. Prof. Lounsbury is one of the best known of the Shemeld Scientific school faculty and has been at the head of the department of English since 1871. He was graduated from Tale in 1859.

California Fruit High.
FRESNO. Cai., June 16.—Within the last few days dried fruit prices have taken a big jump. Buyers are offering 10 cents a pound for dried peaches and 15 cents for apricots. Both crops are light. These are the highest prices offered for many years.
