During the heavy rain last night Broadway in the vicinity of the Northwestern tracks was flooded from curb to curb, although Indian creek did not overfice. The flooding was due solely to surface water, which poured in torrents down the street, Many of the hill streets were badly washed, and Main street in the vicinity of the Burlington tracks was badly flooded. The explosion of a kerosene lamp at the old John Clausen home on East Broadway gave the fire department a run shortly after 1 o'clock Sunday morning. Miss Josephine Clausen in attempting to extinguish the flames, which communicated to the curtains and the bed furnishings, was painfully burned about the hands, face and neck. The damage, except to the furnishing of the room in which the lamp exploded was small.

> THE RELIABLE SPECIALISTS A PHYSICIAN'S NOBLEST EFFORTS

To restore a man to health, strength and vigor and give him his rightful place among his fellow men is worthy of the noblest efforts of a physician's life, and every good physician works earnestly to this end. We offer you this aid, this help, this assurance of restoration, and if you will come to us we will spare you the penalties associated with private diseases and weaknesses of men. We will help you to escape from the slavery that is holding you captive and impeding your progress, both commercially and socially. Do not be deluded with the idea that diseases and weaknesses of men will correct themselves—they never do.

It is useless to worry about the past cause after the disease or weakness becomes once established. The fact that the trouble now exists makes it necessary that there should be no apathy, no delay, no deferring matters until later on. Sexual diseases, or affections resulting therefrom, should not be tampered with, owing to the natural tendency of every disease to insidiously progress and tenaciously fasten itself upon the system if proper treatment is not secured to bring about a prompt cure.
