CHICAGO. June 19.—Additional rain throughout the central west caused renewed weakness in the local grain market today. At the close wheat for the July delivery was off 14 6 14 c. Corn was down ic. Oats showed a loss of 14 flc, and provisions were 14 flic lower.

Trading in the wheat pit was quiet for the greater part of the day. In the early part of the session there was a fair demand for wheat by shorts and this, meeting with only light offerings caused a firm feeling in the market. The reports of general rains in lows, Missouri and the Ohio river valley, which caused a break in oats and corn, weakened the wheat market in sympathy. Some reports of damage were received, but they did not have the effect which they might have exerted prior to the rains of the last two days. The market closed easy, July opened a shade lower to 14 ff 14 higher at \$2 14 c to \$3 14 c. sold at \$3 14 c and declined to \$2 14 c. The close was at \$2 54 c. The world's visible supply decreased 2,300,000 bushels. Primary receipts were 261,000 bushels. Primary receipts were 261,000 bushels. Primary receipts were 261,000 bushels. Duluth and Chicago reported receipts of 241 cars against 225 cars last week and 180 cars a year ago.

Sentiment in the corn pit was extremely be vish all day and local longs sold freely. The causes of the weakness were many, being wet weather in the chief corn producing states, lower cables, increasel local receipts, large primary receipts, liberal acceptances from the country and an increase in the world's visible supply. The market closed weak with prices near the lowest point of the day. July opened 4 6 lyc lower at 51 kc to 52 kc, sold off to 51 kc and closed at 51 kc. Local receipts were 55 cars, with 323 cars of contract grade.

were 55 cars, with 325 cars of contract grade.

There was much realizing in the oats pit because of improved weather conditions and the result was a very weak market. The principal buying was by shorts. The market closed weak. July opened % grade in the color of the close was at 39%. Local receipts were 240 cars.

Provisions were weak on selling by local holders, which was induced chiefly by the weak market for live hogs and also by the decline in corn and oats. At the close for tember pork was off 10c at \$16.65. Lard was down 25c at \$5.95. Ribs were also down 25c at \$2.74.

Downward Course of Market is Arrested and Prices Make Substantial Recovery.

SHARP ADVANCE IN PENNSYLVANIA Announcement of Completion of Paris Loan Causes Rush to Buy-Closing Tone in

Firm.

NEW YORK, June 19.—There was a substantial recovery in the prices of stock today from the downward course which was pursued through the week and which was carried over into yesterday's market. The tendency towards recovery was perceptible already in yesterday's trading until it was overcome by the outbreak of selling in Pennsylvania. The decline was thus forced beyond its limits in a manner and the rebound today was correspondingly sharp. This was particularly so in Pennsylvania itself the fact of the sharp break yesterday in this stock while the final steps in closing the contract for the placing of the \$50,000,000 loan in Paris were being actually taken, offers something or a mystery. The rush to buy the stock this morning on the official announcement of the terms of the loan indicated a decided misapprehension on the part of many of the seliers yesterday. It was the eager rush to buy part of this class the eager rush to buy part of this class the eager rush to buy part of this class that caused the widespread interest in opening quotations of the stock which tarried it up to as high as 123. This price was only momentarily held and was not touched again during the day. The Pennsylvania loan operation, however, was a strong influence in the whole market, not witisfinding the fact that the negotiations and its probable successful lasue have been known and discussed for several works. The importance of this new opening for securing capital for American enterprises makes a special appeal to sentiment at this time owing to the large requirements of that character to be met to many of the great railroad systems of the country.

The operation has an important bearing also on the immediate money situation owing to the large borrowings in foreign money markets made for works.

Other buyers Totals 4,379 16,467 1,004 CATTLE—The receipts of cattle this CATTLE—The receipts of cattle this morning were considerably larger than yesterday, 171 cars being reported in the morning when the market opened. Still the receipts were small for a Tuesday, the run one week ago having been 251 cars and two weeks ago 185 cars. The market as a whole did not snow very much change.

There was a fair demand for desirable kinds of beef steers slines this morning and although the trade opened rather late it was evident that packers had use for quite a good many desirable killers. The market on cattle answering to that description was just about steady with yesterday, there being very little change in any direction. The less desirable grades were a little slow and the tendency was to bear down on them to some extent. Still they were not very much different from yesterday.

Desirable cows and heifers, that is, dry lot stuff was in very light supply and for that reason sold readily at fully steady of strong prices. The fact is that so little dry lot butcher stock is coming that shything desirable along that line commands good prices every day. On the other hand grass cows and heifers continue slow and vesk, it being very hard some days to not the demand being comparatively wanted, the demand being comparatively. Wool Market.

Weel Market.

BOSTON, June 19.—WOOL—Any hope of activity in the market seems to have little foundation, to judge from present indications. For days the trading has been extremely quiet owing to an apparent inclination on the part of both dealers and manufacturers to hold back. Local buyers feel that the reported lack of stock in the west is largely a fiction, while the dealers maintain that the effort of the buyers to cheapen goods by refusing to trade has been carried to the extreme. Territory wools are dull. New medium half bloods are priced at 25c, three-eights at 30c and scoured at 8570c. Pulled wools are featureless and foreign grades are quiet. PRIME MERCANTILE PAPER—58615 HOGS DO NOT SHOW MUCH CHANGE

of hoge, the supply on sale fell short of this excessive receipts of last Tuesday, when 255 cars were reported in. The market opened a little stronger then yestrievy, the first sales being largely at \$8.40, with a \$8.45 top. Before very many had an opportunity to take advantage of these prices advices were received indicating a leve favorable outlook at other market points and packers promptly lowered their bids. They began offering \$6.376 for the guneral run of the hogs and the trade, for a time, came to a standstill. Later in it recovered again and the bulk of hogs imally (hanged hands at \$8.214 \$8.40, or not much different than yesterday's general run of the hogs and the trade, for a time, came to a standstill. oral market closed very slow and wesk, it being hard work to get over \$6.37% 26.25 even for the best hogs.

LONDON, June 19.—Money today was obtainable at easy rates, owing to the large supplies. Discounts were weak. The competition for bills increased and an early reduction of the Bank of England's rate of discount was freely discussed. Trading on the stock exchange was dull, but stragging investment orders and the cheapness of money served to keep up the gilt-edged section. Americans were a fraction below parity at the opening, but improved towards noon. Baltimore & Ohio especially rising smartly. Pennsylvania was heavy on the coming bond issue in Paris. In the afternoon New York sent buying orders and prices bardened and closed steady. Foreigners were featureless. Russians were easier. Japanese imperial 5s of 1904 closed at 101%. BERLIN, June 19.—Trading on the Bourse today was quiet.

PARIS, June 19.—The tone of the Bourse today was calm and prices at the opening PARIS. June 19.—The tone of the Bourse today was calm and prices at the opening had a tendency to intprove. Later, however, there was a reaction and stocks closed weak. Russian imperial is closed at 77 and Russian bonds of 1904 at 466.

ST. PETERSBURG. June 19.—Prices on the Bourse today were somewhat steadier. While imperial is gained half a point, is fell is, closing at 80%.
