We rejoice in the good providence of God again permitting us to come together a state Sabbath school association. We as a state Sabbath school association. We rejoice in the larger vision of the work, the deeper realization of the need, the better understanding of methods of work, the increased and deepened love of the Master and His word and the firmer resolve for more effectual work with which we have been inspired.

We extend our sincere thanks to the citizens of Council Bluffs, who have so generously opened their homes for our entertainment, and to others who have contributed so largely to the pleasure and profit

citizens of Council Bluffs, who have so generously opened their homes for our entertainment, and to others who have contributed so largely to the pleasure and profit of our stay in their beautiful city. We also express our appreciation of the most efficient services of those from other states who have contributed so largely to the success of our convention.

Resolved, That we disapprove of the course of the legislature in falling to enact a law preventing ball games and other sports on the Sabbath day. We deplore the running of Sunday excursions and making the holy Sabbath a holiday instead of a holy day, and we urge upon professing Christians to discourage all forms of Sabbath desceration.

Resolved, That we rejoice in the rapidly rising tide of determined hostility to the legalized law-breaking liquor traffic as evidenced by the attitude of great commercial and industrial organizations, the more effectual awakening of the Christian church and the enactivent of healthful legislation, stats and national, and by increased activity upon all county and townelly associations to secure in the Sabbath school amore general and more effective temperance lessons and the moir general signing of the temperance piedge. We look upon the present as an exceedingly opportune time for an advanced movement against the liquor traffic and hereby call upon ministers, Sabbath school superintendents and teachers and all lead-rers in Christian work to move forward in a more vigorous and determined effort for the enforcement of law and the prevention of the eatablishing of mulct saloons.

We recommend that the influence of the Sabbath school be everywhere thrown against the use of tobacco and cigarette and that the signing of temperance and anti-tobacco and significant and that the signing of temperanc

encouraged.

We recommend the system of Bible reading adopted by the International Bible Reading association be followed by those connected with our Sabbath schools and that this be pushed by county, township and state associations.

We heartily commend the faithfulness of our state workers during the last year and recommend the employment of additional field workers as funds may be available.

DES MOINES, June 22 - (Special.)-The

executive council today fixed the dates for the hearing on the railroad assessments for July 9, 10 and 11, those for the express and car companies July 12 and those for the telegraph and telephone companies July 13 and 14. Because of the prominence the matter of railroad assessments has taken in the present gubernatorial campaign it is confidently expected there will In all the Council Bluffs boys captured be great interest in these hearings. Repre sentatives of the railroads annually appear before the executive council before the assessments are fixed, and last year representatives of the Corn Belt Meat Producers' association and prominent farmers from various sections of the state appeared and then ran. An effort, which bids fair before the council and argued for higher railroad assessments. Agitation of the subject during the campaign now drawing to a close it is expected will bring the farmers and private citizens to the hearings in increased numbers this year. The hearings will open at 10 o'clock the morning of from slander. She asserts that her social July 8.

Poison in Hens' Eggs. C. A. Chambers of Fortieth and Forest

streets today took to chemists several eggs gathered in his hen house, in which it was discovered a powder had been injected through a small hole in one end. Chambers fears that the powder is poison. None of the members of the bousehold had eaten any of the eggs, it is believed, before the discovery was made. The powder was injected by making a small hele in the shell of the egg at the end where there is usually a small chamber of air between the shell and the egg. The family knows of no one who would attempt to peison them, but if the substance is discovered to be polson detectives will be put to work on the case.

Has Baby Giel on Hands. Mrs. Ira Williams of 300 West Fifteenth street has notified the police that a strange woman left a baby girl with her that she does not want.
