Just suppose the Egyptian task-masters, when they made the required daily tale of bricks tax the uttermost of human strength, had said to the toiling slaves, "Don't hurry, take a rest every now and then—only don't forget that your tale of bricks must be all right at night or else there'll be

There's the fact. There are day's duties to be got through, and the women who can rest may not. The woman, who, when she married, said, Now, I'll be my own mistress," finds herself a slave to household cares and

And on! how much that woman needs rest sometimes. She brushes and scrubs, and rolls pastry, her temples throbbing, her back aching, her nerves quivering under the stress of pain. What she would give if she could just creep upstairs and throw herself on the bed in a darkened room and rest.

Rest would temporarily relieve the strain, doubtless, but it would be the same story over again to-morrow. The real need of weak, pervons women is strength, and what need is fully met and satisfied by Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. It removes the causes of women's weakness, tranquilizes and invigorates the nerves, encourages the appetite and induces restful sleep. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruction, unnatural suppressions and irregularities, prolapsus or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration f the womb, inflammation, pain and tenderness of the ovaries, accompanied with "internal heat,"

"I am pleased to add my testimony in behalf of Dr. Pierce's Favorite Pre-scription," writes Miss Earline Agard, Chaplin, Patriotic Daughters of America, of 413% Michigan Avenue, Lansing, Mich. "I cannot find language to exmy gratitude and joy over the fact that I am well once more. Wearing my corsets too tight seemed to have brought on an extra abdominal pressure, weakening the ligaments and pushing the internal organs down. What to do I knew not, as no medicines I took seemed to help me.
"I had heard of Dr. Pierce's Favorite

Prescription and determined to try , as a last resort. Before the first bottle was used I began to feel better, but could hardly believe that this was permanent, but my improvement went steadily on, and within four months I was like a new woman. Doctor Pierce is perfectly willing to let every one know that his "FAVORITE PRE-SCRIPTION" contains Blue Cohosh root, Lady's Slipper root, Unicorn root, Black ohosh root and Golden Seal root, Every doctor knows that such a prescription is beneficial in the diseases of women and when properly com-pounded is certain to effect a cure in nearly all cases when given a fair trial. Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers of all the several schools of practice as cures for the diseases for which these medicines are recom-
