### COUNTY ON A CASH BASIS

Gets Twenty-Five Thousand by Compromise with Water Company.

### LATTER DROPS SUIT TO KEEP DOWN RAISE

Agrees to Dismiss Appeal on 1904 Assessment Case if Board Will Make No Increase.

Under a promise of the Omaha Water company that it would dismiss the appeal now in the supreme court affecting the \$2,500 taxes assessed against it in 1904 the County Board of Equalization yesterday afternoon voted to leave the valuation of the water company at \$3,500,000, as fixed by the assessor.

The proposition to leave the assessment at this figure if the appeal was dismissed instead of raising it was made to J. F. Stout, who appeared for the company at the morning session. Mr. Stout said he would give an answer at 2 o'clock. At that time he appeared before the board with the announcement the company would accept the proposition and would take steps to dismiss the appeal at once.

This will give the county almost \$2,000,000 in interest which has been tied up by the appeal. It will practically put the county on a cash basis.

### Packers Enter Protests.

Three of the South Omaha packing companies entered protests against their assessment Tuesday. W. L. Selby, representing Swift and Company, objected to increase of the personal valuation of the company from \$27,000, on which it was assessed last year, to \$40,000, returned by Assessor Reed. The real valuation, he says, is \$41,000, making a total of \$1,028,500. Mr. Selby pleads that by the building of the Q street viaduct the surface crossing on that street is closed and Railroad avenue, on which the buildings are located, is twenty-five feet below the viaduct. These conditions, he says, have resulted in great damage to the property. Therefore, he argues, the personal assessment should not be raised.

Mr. Selby makes the same argument in behalf of the Omaha Packing company. The company is assessed at \$125,000 on its

personal property and \$20,000 on real estate, a total of \$74,000. Mr. Selby says the personal assessment is at least \$40,000 too high and should be \$28,000.

### MUSICAL AT MINNE-LUSA

Rain Drives Party Indoors, but the Program is Fully Carried Out There.

Minne-Lusa station at Florence was the scene of a splendid musical entertainment Tuesday night when a fine program was rendered for sweet charity. The affair was scheduled as an outdoor musical, but the rain in the early evening caused a change, so the numbers were rendered in the large north room, which contains the smaller engines. Although the larger engines were working away in the front room, it did not interfere in the least with the music.

The entertainment was given under the auspices of Mr. and Mrs. A. B. Hunt for the benefit of the Creche, the Old People's Home and the Young Women's Christian association. A good sized audience was present.

The guests were received by Mrs. Hunt, assisted by Miss Reynolds, and after an inspection of the new engines, dancing was enjoyed for a short time. Dinnick's full orchestra furnishing the music. After a short period of dancing, the musical part of the program was given by Miss Margaret Damm, mezzo soprano; Mr. Alexander Stewart, tenor; Mr. Harry Bates, basso; Mr. Stanislaus Scherel, violin; Miss Allen, soprano; and Miss Paulson pianist and accompanist.

Assisting Mrs. Hunt with the refreshments were Miss Edith Foley, Miss Blanche Stovenson, Miss Georgia Richards, Miss Vera Allen, Miss Rose McLean and Miss Paulson.

### Concert at Trinity Methodist.

Trinity Methodist Episcopal church at Twenty-first and Binney streets was crowded with an interested audience last night to enjoy the concert given under the auspices of the choir of the church. The program began with a violin solo by Miss Emily Cleve, with Miss Ella May Patton an organ accompanist. W. B. Graham sang a burlesque solo and was followed by Miss Beatrice Rose of Chicago with a reading. "The Pink Carnation." Mrs. Walter J. Hammond gave the "Waltz Song" by Hatten, with Mrs. Anna B. Andrews as piano accompanist. This was followed with

a contralto solo by Mrs. Anna L. Welty, after which came the chorus, "Hark, Hark, My Soul," from Schubert, by the choir, with Mrs. Arthur B. Stokes as soloist. Frederick H. Pates sang a couple of tenor numbers, when Miss Rose followed with another reading, "The Crucifix," from Faure, by Messrs. Pates and Graham was one of the charming numbers of the evening. The program closed with the chorus, "Good Night, My Beloved," by the choir. All of the numbers were encored.

### JUST TWELVE MONTHS TOO OLD

Engineer from East Refused Employment Because He is Forty-Six Years of Age.

A graduated civil engineer of Cornell university, and a man who has had years of experience in engineering work in various parts of the United States, arrived in Omaha Monday, looking for employment. He applied first at the office of the city engineer and was told no vacancies existed which he might fill. Assistant City Engineer Craig suggested trying the Union Pacific.

"The engineering department of that road is hiring all the skilled engineers and draughtsmen it can find," said Mr. Craig. "They are on the lookout for good men. Your credentials should get you a place at once."

The engineer returned to the city hall in the afternoon. He was still looking for work.

"I just missed a job," said he. "I applied at headquarters, was told engineers were needed, had my papers examined and everything was pronounced satisfactory. I was then handed a formal application blank to fill out. One of the questions asked my age. I wrote, '46.' This was observed and I was told to write no further."

"Why not?" I asked.

"Forty-five is the age limit," was the reply. "We cannot hire men older than that."

"If I had known the requirement I could have shaved off my whiskers and told something of a falsehood, and got the job. As it is, I am still open to engagements."

Assistant City Engineer Craig referred him to several other places where engineers are employed.

### STATE REPUBLICAN LEAGUE

Convention Called for Lincoln to Meet Night Before State Convention.

Gurdon W. Watters, president of the Nebraska State Republican league, has issued the following call for the league convention: A state convention of the republican club of Nebraska is hereby called at the Auditorium in Lincoln, Neb., at 8 o'clock p. m. on August 21, 1906, for the election of officers of the State League of Republican Clubs and for the transaction of such other business as may come before the convention. Each republican club in the state of Nebraska will be entitled to one delegate for every ten members of its club. You are urgently requested to send a full delegation to this convention. After the business of the convention has been transacted, prominent speakers will address the meeting, to which a general invitation to all republicans in the state is extended.

The railroad has made a rate for the state convention of one fare for the round trip, plus 50 cents, sale to begin on the morning of August 21, and tickets good to return, leaving Lincoln not later than August 24.

G. W. WATTLES, President. DAN J. RILEY, Secretary. **Furnished with Pear** are many who develop lung trouble. Dr. King's New Discovery will cure them. Guaranteed. 50c and \$1.00. For sale by Sherman & McConnell Drug Co.

### CONFLICT OF STATEMENTS

Local Grain Men Insist Central Granaries Elevators Are Sold.

### LINCOLN DEALERS SAY THEY ARE NOT

State Capital Crowd's Denial is Likened to His Attitude When Epitaphs Bought Out the Ferguson Company.

Although the officers of the Central Granaries company at Lincoln flatly deny that the concern has been sold to the Nye-Schneider-Fowler company, Omaha grain men most interested in following the doings of the Fremont house say they have knowledge that the sale has been made. They say the Lincoln company's holdings have been bought outright, although a man from Lincoln brought the report Tuesday from that city to the grain men here that some of the largest stockholders had sold their shares to the Nye-Schneider-Fowler company, giving it control.

In connection with the rumor of sale it was hinted that Nye-Schneider-Fowler had stopped construction on their 1,500,000-bushel elevator in Omaha. This is not so, as work is progressing rapidly on the foundation of that structure, and a large amount of material for the superstructure is on the ground.

Grain men say the Nye people have no need of the big terminal of the Central Granaries at Lincoln, just as Updike had no use for the terminal of the Ferguson Grain company at Lincoln when he bought that company's line. They bought the line on account of the necessity for more feeders for the two large terminal elevators at Chicago of Nye & Jenks. The interests of which are interwoven with those of the Nye-Schneider-Fowler company.

Much of the concentration of business at this city by the large concerns has been brought about since the establishment of the Omaha Grain exchange. The exchange also attracts the grain of the smaller line elevators and the single houses. In the state are 1,500 elevators, owned by about 80 companies, forty of which are line houses operating upwards of five stations. Of these elevators 500 ship to their own Omaha terminals.

### METHODIST UNION ELECTS

Organization Selects Officers and Reports Work to Be in Good Condition.

The bi-monthly meeting of the board of members of the Methodist union was held Monday evening at the Seward Street church under the presidency of T. F. Sturgess. The reports from the departments of work and especially that of the superintendent of missions, Dr. William Gorst, were encouraging. Steps were taken to complete action regarding the establishing of a new church, formerly known as the North Twenty-fourth Street, but since changed to the Pearl Memorial. This new church was established last November under the care of the union and every department has made rapid progress and it is expected that contracts for a new \$3,000 church will be let about the middle of July. The union has a fund of nearly \$2,000, which it uses in aiding churches in the way of loans. The bulk of this fund is a legacy left by the late H. W. Williams.

The officers elected for the ensuing year are as follows: President, T. F. Sturgess; vice president, Bishop Luther B. Wilson, D. D.; recording

secretary, Clyde Clay Cissell, D. D.; corresponding secretary, C. W. Delamatre; membership secretary, Dr. I. S. Lovvitt; treasurer, John H. Bexton; superintendent city missions, William Gorst, D. D.; heads of departments and vice presidents, Mr. Priest, H. G. Chapman, city evangelist, Rev. William Eppold, C. W. Miller; social work, S. W. Lindsay, Rev. F. M. Sison.

### NEW CHIEF GRAIN INSPECTOR

George Powell of Chicago Accepts the Position with the Omaha Exchange.

George Powell of Chicago was chosen chief grain inspector of the Omaha Grain exchange at a meeting of the board of directors held Monday. Tuesday morning Secretary E. J. McVann received a telegram from Mr. Powell accepting the position.

Since the resignation of W. F. Heyl, several weeks ago, the board has been casting about for a competent successor. During that time T. E. Flood has been acting chief inspector. His acceptance of the position here carries with it the promise to begin his new duties July 1.

The importance of the selection to the Omaha Grain exchange and to the grain trade of the state cannot be overestimated, said Secretary McVann. "He is a man of wide experience and one of the best to be found. For six years he has been training under one of the strictest supervisors in the country, whose inspection and weight certificates have been good everywhere. He will thoroughly reorganize the inspection and weighing department and put it on a basis which will make our inspection and weight certificates above suspicion in any market of the world. It is one of the really important steps since the organization of the exchange."

Though the officers of the exchange are unwilling to admit it, there has been considerable complaint in other markets of Omaha weights and inspections.

### Mortality Statistics.

The following births and deaths have been reported to the Board of Health during the twenty-four hours ending at noon Tuesday: Births—E. G. Wilmoth, 264 Bristol, boy; Nellie Jorgensen, 2313 South Twenty-fourth, girl; Fred J. Elliott, Jr., 203 Ohio, girl; F. W. Caruchel, 416 Davenport, girl; Vasily Blaka, 179 South Fourteenth, boy.

### FRATERNAL UNION MEETS

Order Holds Convention to Elect Delegates to the Supreme Session in Denver.

The quadrennial state convention of the Fraternal Union of America is in session at Baright's hall, Nineteenth and Farnam streets. The convention is held for the purpose of electing delegates to the supreme convention, which will meet in Denver in September. The state of Nebraska is entitled to thirty delegates, representing the 3,400 members in this state.

The session began at 2 o'clock, being of an executive nature. After the close of the business session a banquet will be given at the Millard hotel in honor of the visiting delegates by the lodges of Omaha, South Omaha and vicinity.

Upon the conclusion of the banquet the visiting delegates and members of the local lodges will hold a special meeting at Robbough building, where a large class will be initiated, with the special view to exemplifying the work by the degree teams of Banner lodge No. 11 and Mondamin lodge No. 111 of Omaha. Following the initiatory ceremonies the teams will give an exhibition drill.

### ELSASSER BLOCKS BUSINESS

Chronicle System of Buying Everything in Committee Delays Import-ant Paving Work.

Operation of the Pete Elsassser plan of referring everything before the council to a committee for prolonged introspection, no matter what department has sifted the matter down or how investigated, has resulted in serious delays to new paving work. Last year's contracts for paving are being rapidly completed, but none of the new work is in condition for execution. May 23 bids were received for three streets, Eighteenth from Harney to St. Mary's avenue, Howard from Twenty-seventh to Twenty-eighth and Davenport from Twenty-fifth to Twenty-sixth. The bids were tabulated and returned by the engineering department and are still the subjects of cerebral pondering by Pete Elsassser and his conferees on the paving

committee. When they get through deliberating the council may order the city clerk to advertise the bids and give the property owners thirty days to designate material to be used. In any event the thirty days must be given, and several more weeks are needed to complete the technicalities. In other words, there is no possibility of getting this paving started before the end of August.

### TAXES ARE COMING IN FAST

Thirty-Five Thousand Dollars Paid Into City Treasury Monday, Fink Reports.

City taxes are coming into the municipal strong boxes at a rate pleasing to Treasurer Fink. The total amount turned in Monday was \$35,000, and this is expected to increase daily to the end of the week. On Monday the current personal and real estate taxes became delinquent and are subject to a penalty of 1 per cent a month until paid.

### HYMENEAL.

Koutceky-Adam. Vaclav Koutceky and Miss Anna Adam were married Monday evening by Justice William Altstadt at the home of Mrs. Jennings, 1421 South Fourteenth street. The nuptials were according to Bohemian custom, with a sumptuous spread and music and dancing.

### DIAMONDS—Frenzer, 15th and Dodge at

### LOCAL BREVITIES.

Florence M. Ernst has begun suit against the Omaha & Council Bluffs Street railway for injuries she received April 17, when she stepped off a car into a deep hole in the ground. She wants \$5,000.

Charles Anderson, who says he was run over twice by the same engine, has begun suit in district court against the Omaha Pacific railway for \$15,000 damages. Anderson was a section hand working in the yards at South Omaha. He says during a blinding snowstorm, January 15, he was sent by his foreman, Bernhard Anderson, to sweep a switch. While engaged in this work, he says a switch engine struck him, threw him between the rails and ran over him crushing his left leg. The engine ran about twenty feet and then backed up, running over him again and this time mangled his right leg. He declares his injuries are permanent. Foreman Anderson and the engineer, designated as John Doe, are also named as defendants.
