CLOSING FIGURE AT HALF CENT ADVANCE

Corn Strong Through Seasion, Unaffected by Temporary Weakness in Wheat-Close is Cent Up-Outs Market Rules Higher.

OMAHA, June 26, 1906.

Wheat was firm at the opening under the influence of heavy rains in the northwest. After the more urgent buying orders were filled the market turned weak and prices yielded almost a cent. After this shorts were inclined to cover, because of the pronounced strength in corn, and prices turned strong again. The close on Beptember was above the opening and better than the cash demand is poor and flour sales small. OMAHA, June 26, 1904.

See above yesterday. Receipts were small, but cash demand is poor and flour sales small.

No trading was done in oats. That grain was up %c at Chicago.

Corn was strong all through the session, unaffected by the early weakness in wheat. Prices at the close were a cent above yesterday. Talk was heard of cool weather causing the corn to be backward. Primary wheat receipts were 174,000 bush-els and shipments 38,000 bushels, against receipts last rear of 282,000 bushels and shipments of 282,000 bushels. Corn receipts were 1,118,000 bushels and shipments of 282,000 bushels. Corn receipts were 1,118,000 bushels and shipments of 785,000 bushels of the country of the corn and 300 bushels of oats.

Liverpool closed 1,500 bushels of wheat, 17,845 barrels of flour, 5,000 bushels of corn and 300 bushels of oats.

Liverpool closed 1,500,000 bushels in two weeks. Recent rains have improved crop conditions over the greater part of the corn belt sections. Traders who were out in the country over Sunday returned will he avorable reports. The fact that the country and the public have ceased to send buying orders where two weeks ago there were free buyers is taken as indicating that there is nothing bullish in the situation at pressnt."

CHICAGO GRAIN AND PROVISIONS

Pentures of the Trading and Closing Prices on Board of Trade.

CHICAGO, June 3.—The wheat market today was irregular and nervous, prices euling from %c under to %c over the close of resterday for the September option. The close was firm, with September 143%c higher. Corn was up 14c. Osts were 4 to 174c. higher. Corn was up ac. Osis were a proceed higher and provisions advanced life to 1740.

There was nothing sensational on either side of the market in the news of the day, but reports of too much rain in the northwest and the appearance of red rust in that section, affected the market as much as anything. Early in the day the market was inclined to be firm because of continued rains in the southwest and northwest, small receipts at Minneapolis and the comparatively firm tone at Liverpool. Shorts covered freely and there was considerable buying by local bulls. Toward the comparatively firm tone at Liverpool. Shorts covered freely and there was considerable buying by local bulls. Toward the middle of the day the market broke sharply, the September option declining to \$3\footnote{\text{c}}_0\$, although the world's visible supply showed a considerable decrease. There was also some profit-taking, which weakened the market. Offerings were scarce however, and the strength of corn and on reports of additional rain in the north-west prices advanced strongly. The close was firm. September opened \(\text{c}_0\$ higher at \$3\footnote{\text{c}}_0\$, ranged between \$2\footnote{\text{c}}_0\$ and \$3\footnote{\text{c}}_0\$. July sold between \$2\footnote{\text{c}}_0\$ and \$3\footnote{\text{c}}_0\$ and \$3\footnote{\text{c}}_0\$ and \$3\footnote{\text{c}}_0\$ and \$3\footnote{\text{c}}_0\$ ob bu. last year. Clearances of wheat and flour were equal to \$8\tangle 30 bu. Primary receipts were \$14.000 bu. against \$2\footnote{\text{c}}_0\$ ob bu. last year. Minneapolis, Duluth and Chicago reported receipts of \$1\footnote{\text{c}}_0\$ cash houses reported a general reduction in country acceptances. The price of cash corn was \(\footnote{\text{c}}_0\$ businer and the demand was good. The best buying was by shorts and commission houses. September opened unchanged at \$1\footnote{\text{c}}_0\$ sold between that figure \$1\footnote{\text{c}}_0\$ sold between that figure \$1\footnote{\text{c}}_0\$ sold between that figure \$1\footnote{\text{c}}_0\$ and \$1\footnote{\text{c}}_0\$ cand \$1\footnote{\text{c}}_0\$ cand between that figure \$1\footnote{\text{c}}_0\$ cand between that figure \$1\footnote{\text{c}}_0\$ and \$1\footnote{\text{c}}_0\$ cand between that figure \$1\footnote{\text{c}}_0\$ cand \$1\footnote{\text{c}}_0\$ cand \$1\footnote{\text{c}}_0\$ cand \$1\footnote{\text{c}}_0\$ cand \$1\footnote{\text{c}}_0\$ cand bet

grade.

The oats market was strong all day, partly in sypmpathy with corn and partly on a good demand for shorts and commission houses. The buying was of an influential character and continued throughout the session. The close was strong with prices at the highest point. September opened at 34%c, which was a shade higher than the close of yesterday, ranged between 34%c and 35%c, which was the final quiptation. July sold between 37%c and 35%c, closing at 38%c. Local receipts were

The provisions market was firm on a incidence amount of trade and closed with gains throughout the list. The strength has hased upon higher prices for live hogs, covering by shorts and active buying by local packers. At the close September pork was up 134c at \$16.77%, Lard was ic higher at \$8.974. Hibs were up 150 like at \$2.200.27%.

NEW YORK STOCKS AND BONDS

Part of Bession. BUYING BY SHORTS CAUSES A RALLY Decrease in Activity Follows Rise

in Values, but Close is

Firm and Highest

of Day.

NEW YORK, June 26.—The fall in the prices of stocks, which was in progressing the early trade considerably dury ductations on New York bonds today were as follows:

In the early trade considerably dury did not be a progressive operations on the short side by professional bear operators. With the course, the trading, however, this class of operations during the group of the stock of the reading however, this class of operations during the group of the stock of the reading however, this class of operations during the group of the stock of the reading however, this class of operations on the short side by professional bear operators. With the course, the trading however, this class of operations on the short side by professional the kind of company they found themselves in. The resumption of sensation, the stocks on the parts of induces selling of stocks on the parts of the stocks of the stocks on the parts of the stocks of the s Such heavy disbursements as are to occur with the turn of the month are expected usually to cause some preliminary investment demand for securities. One of the discouraging features of the present market is the entire absence of any such a mand. The bond market continues rather to reflect the pressure of occasional liquidation, some times due to the expiration of syndicates and the distribution to members of unsold holdings. The market is affected by demands by life insurance companies, owing to the new regulations for investment for the aurplus of those institutions. Selling by fire insurance companies has been evident also ever since the San Francisco losses. This kind of selling was a marked influence in the London market today and selling for Paris account was also in evidence there. of syndicates and the distribution to members of unsold holdings. The market is affected by demands by life insurance companies, owing to the new regulations for investment for the aurplus of those institutions. Selling by fire insurance companies has been evident also ever since the San Francisco losses. This kind of selling was a marked influence in the London market today and selling for Paris account was also in evidence there. London is also apprehensive of money trouble in connection with the mining settlement now imminent. The weekly report of the imperial bank of Germany serves as an iplanation of the hardening of money rates there.

Foreign Financial.

LONDON, June 20.—Supplies of money continued pientiful today and the demand was good. Discounts were steady. Trading on the stock exchange opened cheerfully, but a beaviness developed later on general liquidation. Consols fell sharply on reported seiling by insurance companies. This affected the market in other directions, while the depression was accentuated in foreigners by Paris figuidating, Russians particularly sensitive, dropping sharply, kaffirs declined on a Paris seiling. Americans opened dull and were neglected early in the day, disappointing Wall street and checking operations. About noon a slight hardening occurred, but the market ensed later on poor New York advices and closed at the lowest quotations of the day. Japanese 6s of 1998 closed at 102.

HERLIN, June 26.—Trading on the Bourse today was stagnant. Baltimore & Ohio opened weak, but improved later upon active buying. Canadian Pacific was dull. PARIS, June 2.—Prices on the Bourse today were heavy. Russian imperial 4s closed at 77.45 and Russian bonds of 1994 at 429.

Wool Market.

BOSTON, June 26.—WOOL—Market is generally quiet but firm, old wools are in small stock, such lots as are offered are neglected by buyers, as the prices are too high and the interest is transferred to the new wools. Pulled wools continue slow with some trade in B supers. The interest in territories seems centered in the new clip. Foreign wools are quiet. Leading quotations follow: Ohio and Pennsylvania, AX and above, 35/54c; No. 1. I. & P., west ... 1 The disposition of the day's receipts was

of those on sale consisted of cornfed steers and there were a good many loads of really good cattle among the receipts.

Under the influence of the light receipts and a good demand the market opened early and fairly active, with the desirable kinds of fat steers generally 10c higher. The most of the good cattle sold in good season. Common and inferior grades, that is cattle that were unfinished or that showed grass, were not sought after.

Dry lot cows and helfers were in small supply, with the market anywhere from strong to 10c higher on the better kinds. As was the case with beef steers, the trade was active and the offerings for the most part were cleaned up early in the forenoun. Everyone who had any grass cows complained that that kind was neglected, but that is the case every day. Good buils continue to sell well, but there are very few coming that are good enough to bring \$5\$ or better. Veal calves have suffered a decided reverse this week and it is hard work to get over \$5.75 for anything however good.

The stocker and feeder market was without noteworthy change.

HEIFERS.

CALVES

HOGS—Hogs sold l'Agisc higher, mostly los higher, than yesterday. Sellers seemed to feel that they were entitled to a little more advance than that and they made a hard struggle to force prices still higher, but without avail. At first the trade was a little slow, but when once under way it was quite active, so that the big bulk of the hogs sold in good season at the advance noted. After the more urgent orders were filled the trade slowed up, closing a little seaser. As will be noted from the sales, the big bulk of the hogs brought \$3.1\suc.40, with a top at \$5.5. It will be remembered at the hogs sold yesterday very largely at \$5.55\suc.27\suc.40, with \$5.35\suc.40, with \$5.55\suc.40 the highest point touched since Tuesday of last week; in fact the hogs sold on an average in about the same notch today as one week ago.

stated every day for some time back, there | ring

stated every day for some time back, there is a steady demand at this point for desirable killers, both sheep and lambs, and there is no danger but what anything of that description sent to this point would sell to good advantage.
