Equalizers Advance the Valuations on Private and Public Corporations.

HALF MILLION FOR STREET RAILWAY

Gas Company, Packers, Wholesale and Retail Merchants, Grain Dealers and Manufacturers Raised Over Last Year,

Valuation of personal property scooted skyward at a dizzy rate of speed Wednesday morning when the County Board of Equalization waded into the returns of the larger corporations ? and business Increases of from 15 per cent over last year were made in practically every case brought before the board.

The valuation of the Omeha & Council Bluffs Street Rallway company was raised from \$5,500,000 last year to an even \$6,000,000 on motion of Mr. Ure, Bruning, Kennard and Trainor voting no. Representatives of the company who were before the board several days ago intimated they would accept a raise of \$125,000 over last year. Assessor Reed declared the company had put in about two miles of track and a John Dougherty, Who Came to Omaha majority of the board decided a boost of \$509,000 would not be to much. The protest of the company against the assessment of the west half of the Missouri river bridge at \$150,000 was dismissed. This is the figure it was valued at last year. Mr. Kennard also voted no on the dismissal

Gas Company Goes up. On motion of Mr. Solomon the Omaha Gas company was raised from \$3,175,000 to \$3,-500,000 on the basis of a 12 per cent increase in earnings. The percentage of increase was taken from a letter by the president of the Consolidated Gas Improvers association which owns an interest in the company. The letter stated the average increase in earnings was 12 per cent. Mr Kennard also voted no c Mr. Bolomon's motion.

The only fight among the members of the board was on the assessment of Allen Rural Citizen Threatens Omaha Post-Bros. The board had increased the valuations of Paxton & Gallagher from \$275,000 to \$350,000 and the McCord-Brady company from \$237,500 to \$325,000. Mr. Kennard then moved that Allen Bros. he placed at \$250,000. Afterward, when Mr. Solomon moved as a substitute to make it \$300,000, Mr. Kennard amended his own motion to make it \$275,000. He made a somewhat heated speech, in which he declared this firm was being assessed at a higher rate than any other mercantile house in the city. Mr. Reed said he had been unable to get at the books of the firm to see whether the figures were too high or not, and Mr. Kennard responded by accusing the assessor of "fixing" a number of firms by high assessments. When Mr. Solomon's motion was put, Bruning and Kennard voted no, the other members of the board favoring it.

After this incident Mr. Kennard voted no on every motion put before the board, including the motions fixing the assessments of the street railway and gas companies.

Packers Get Boosts. The board doled out substantial increases

to will of the larger South Omaha packing house, the figures being as follows: Armour & Co., last year, \$675,000; this year, Swift and Company, last year, \$550,000; this year, \$500,000. Cudahy Packing company, last year, \$625,000; this year, \$700,-000. Omaha Packing company, last year, \$265,000; this year, \$300,000.

The following are the increases in personal valuations over last year of some of the larger Omaha firms acted on Wednesday by the board:

M. E. Smith & Co. from \$25,00 to \$400,000: Haydes Bros. from \$275,000 to \$400,000; J. L. Brandels & Sons, from \$250,000 to \$350,000. F. P. Kirkendall & Co., from \$134,000 to \$175,-000; Updike Grain company, from \$1,178 to \$50,000; International Rubber company from \$90,000 to \$115,000; Omaha Rubber Shoe company, from \$90,000 to \$115,000; J. H. Hainey & Co., from \$30,000 to \$35,000; Vollmer Clothing company, from \$25,000 to \$30,-000; United States Supply company, from \$60,000 to \$77,500.

The Willow Springs Distillery company was placed at \$47,500 and Her & Co., the distributing department, at \$42,500, which are approximately last year's figures.

A little forethought may save you no end of trouble. Anyone who makes it a rule to keep Chamberlain's Coltc. Cholera and Diarrhoea Remedy at hand knows this to be a fact.

M'ARDLE PIONEER IS DEAD Fifty Years Ago, Dies at Eighty.

John Dougherty, one of the early settlers of McArdle precinct, Douglas county, died at his residence, 1612 Oak street, Wednesday morning at the age of 80 years. Mr. Dougherty was a native of County Donegal. Ireland, and emigrated to Pittsburg, Pa., in 1851. He came to Omaha in 1856, where he engaged in farming, retiring in 1884. He owned at the time of his death considerable valuable property in Omaha and a fine farm in McArdle precinct. He is survived by his wife and one son, Charles Dougherty, an employe of the Omaha & Council Bluffs Street Railway company.

STORM FATAL AROUND OMAHA

Electrical Elements Leave Death and Heavy Property Loss in Waks.

LITTLE ITALY IS BADLY DEVASTATED

Bundreds of Families Flee for Lives, While Homes Are Flooded-Elkhorn Has Six-Thousand-

Dollar Fire.

An electrical storm leaving death, heavy estruction of property and 1.59 inches of ruin in its wake, swept down upon Omaha and vicinity Tuesday night and to some extent, at least, a repetition is predicted for onight. Omer Ayers, a young man, was killed by a live wire at Florence, hundreds of Italian families in Little Italy lost parts of their homes and furniture, a general merchandise store was completely de troyed by fire from lightning at Eikhorn. formers in that vicinity lost many heads of Mogs, roads were flooded and in Omaha other miner damages were wrought to ouses and streets.

The storm set in about 9:30 and was the verest of the season for its duration. The body of Avers will be sent to Dayton

O., Wednesday night for burial. General Manager Holdrege of the Electrie light company was not in a position Wer lesday morning to give any statement concerning the manner in which the lineman met death. Mr. Holdrege had a man investigating the case.

Flee to Hills for Refuge.

The Italian settlement on South Nineeenth street between the Great Western and Union Pacific tracks, both embanked was severely affected by the heavy fall of rain. The colony consists of nearly 500 persons, old and young, many of whom had o run to the hills to escape being drowned. The humble dwellings of the people in that locality are mere play houses compared with other homes of the city, and when the flood gates of the beavens were turned on them it was but a short time before furniture was floating in every direction. In one instance a small structure floated several hundred feet. The water completely covered the lower Union Pacific track and had not entirely receded at 11 o'clock Wednesday morning.

There was no loss of life in Little Italy, lthough the loss sustained meant much to the habitues of that section.

S. Colabri and family had a thrilling experience. The water rushed into their little ome in torrents. With an improvised raft Colabri and wife took their children to a if the letter is not returned something is place of safety. Rose Scalzo, widow, was rescued, while here household effects were soaked. Philip Mankos, who lives the life of a recluse, lost several of his pet cats vecy it is questioned at the postoffice if and dogs. Peter Defazo, Frank Dokulil and Jim Demato were routed from their homes and spent the night outdoors drenched to the skin, with their families. The morning sun disclosed a distressing sight in Little Italy. Most of the residents there are peddlers and laborers.

Pyrotechnics on West Farnam. On Farnam street from Fortleth west the electrical display was particularly severe. Great flashes of fire swept from the electric light wire in the middle of Farnam until they caught trees on each and especially the south side of the street. threatening to spread to the houses. Had they found more dry leaves in the trees the flames doubtless would have caught sufficient to keep all the residents on the anxious seat until late in the night. One noticeable feature of the storm was that while lightning flashes came in quick succession there was almost no thunder. The rain was terrific and great streams ran down the Farnam hill west to the Belt

Among the electrical demonstrations was daily June I until September 30, at \$30, via one at Twenty-fifth avenue and Jones which one man will remember for a time. Two telephone wires run along this street York, Boston, Niagara Falls, etc. Apply to and the lightning hitting on these a half block away followed down the street until over a pedestrian with an umbrella, when the ball exploded, knocking the unknown man to the pavement. He was stunned for a time, but was soon able to rise and go his way.

Patrons of the Harney street line had a fine time getting home. A car off the track kept many waiting on Fourteenth and Harney streets for over half an hour. and when a car finally came along it proceeded with the load of people who had got soaked in wading to get the car. At California street and the boulevard the car jumped the track and all hands had to get off in water and mud and brick and paving blocks up to their knees to replace the car on the track. After half an hour's work. in which all were soaked, the journey proceded, when, at Thirty-second and Harney, the car jumped the track again. The replacement was easier the second time, be cause the water was not so deep. Some of the patrons got home about 1:30 a. m. Floating debris had caused the cars to jump.

Bad Fire at Elkhorn.

The storm was felt throughout the county. At Elkhorn lightning struck the general merchandise store of John W. Housley and fire completely destroyed it. The loss on the goods is estimated at \$5,000 and on the building, a one-story frame, at | New York and New England points via their spread to adjacent buildings. A large Traffic Manager, Chicago. barn tweive feet away, filled with feed and other valuables, was entirely saved. The nly fire apparatus save the buckets of the bucket brigade was the nose and fourman pump. But these were put to the best use. The lightning evidently came from a tall tree, for the fire entered the building from a point in the roof immediately under the boughs of this tree.

swollen and country roads flooded. Seyeral farmers were reported to have lost their hogs. P. H. Kellogg, a farmer living three miles west, was among these losers. The beating rain removed the foundation of his large hog house.

Other Incidents of Storm. The residence of a Mr. Emminger at Fif-tieth and Underwood streets was struck by lightning and considerable damaged. Some of the weather boarding was knocked off, a chimney demolished and a quantity of paper on the first floor of the house was set on fire, but the flames were extinguished before any great damage was done. The water meter in the house was

ruined by the lightning. The macadam on the Dodge street road, in the vicinity of Dundee, was badly washed out and the curbing undermined. The total amount of rainfall for this vicinity for the twenty-four hours ending at 7 s. m. Wednesday morning was 1.59 inches. Over at Clarinda, In., 1.71 inches fell, while the next highest was at Grand Island, 1.52, with 1.45 at Ashland and 1.11 at Auburn. The precipitation was general throughout the eastern part of the state and south of the Platte, where the averages were from 1/2 to 1/2 inches. The outook for Wednesday afternoon and night is

for showery weather. Thomas L. Sloan, who is just from the vicinity of Pender, states that one of the heaviest hail storms that ever visited that locality prevailed between Bancroft and Pender about 5 o'clock Tuesday evening. The hall strip was about a mile wide and extension the se sin setter. Means thing in

its path in the line of crops was ruined and the hall was piled up at great depths, looking like a snow storm

Repairs of Damages. Many reports of small damage to streets and terraces and by the flooding of basements from back water from sewers have reached the city engineering and street departments, but no advices were received of exceptionally bad cases. Several councilsen from the outlying wards were busying themselves during the morning to have small washouts and slides fixed up as soon

as possible. The rain leaked through the roof of the Board of Trade building and caused a section of plaster to fall from the Commerial club kitchen and the office of the Grain

tchange directly beneath. The home of William Ellsworth, 4647 Captol avenue, assistant night foreman of the World-Herald, was struck by lightning.

The plaster was damaged and members of the household frightened. The large chimney at the home of W. B. Taylor, 2021 Howard street, was struck and shattered. No one in the house was in-

The basement of the home of Detective Sam Drummy, 4236 Harney street, was flooded. A defective sewer caused the trouble. Mr. Drummy's cellar caved in and caused a damage of several hundred dollars.

CORN CROP TO BREAK THE RECORD

Vield in Nebraska Never Had Better Prospects.

"Never were the prospects better at this season of the year for a bumper corn crop in the state of Nebraska," said G. W. Loomis of the Burlington, who keeps a close tab on all the crops in this state and Wyoming. "The farmers had plenty of chance to cultivate in June which made the corn most free from weeds and the rains have come opportunely to make the corn crop just right. It never had a better appearance at this season of the year and with warm nights and sun and a little rain in August should be the record breaker.

The reports at the Union Pacific show rained Tuesday night as far west as Gottenburg and on all the branch lines. The Burlington report shows heavy rains on the east end of both the Wymore and Lincoln divisions and scattering showers all over the McCook division.

At Nebraska City the rain fall was reported at 1.75 inches and at Syracuse heavy. The crop reports showed nothing was in especial need of rain except oats and that rop is such a small proportion of the Ne braska grain output that It cuts little figure. All sections of Nebraska have new had the desired rain and the whole state is happy.

TRAINS FILLED WITH SEEKERS All Roads Leading to Land Openings Loaded with People Wanting Homes,

The Northwestern road had an extra sleeper to the northwest Tuesday night. The travel is heavy because of the large number going to the Shoshone opening. Although the time is distant many already are going to be on the ground early at the new towns where the drawings will be held and where the entries are to be made, Travel is heavy on the Burlington and all the roads just now and every train is loaded to the guard. The Union Pacific Overland to the east came in Monday with every berth in the three sleepers filled and some of the houses. The excitement was Omaha patrons of the Northwestern had to hustle for berths to Chicago.

In Divorce Court.

Edward E. Anderson declares in a petition for divorce from Anna Anderson that his wife was looking for him with a gun on June 19 for the purpose of shooting him. They were married March 14, 1906, and since then, he says, she has been in the habit of abusing him.

Dalsy E. Boisen wants a divorce from Martin H. Boisen on the grounds of drunkenness and nonsupport. She also asks the custody of their three children.

Nellie Gardiner charges Frank Gardiner with extreme cruelty and refusal to provide proper medical care for her during an illness she says has made her an invalid for life. She asks the court to grant her alimony during the pendency of the suit.

BECOMING

is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought

of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robe confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Priend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other dis-

comforts of this period. Sold by all druggists at \$1.00 per bottle. Book containing valuable information free, The Bradfie'd Regulator Co., Atlanta, Ga.

LETTERS FROM THE DEAD MAN

U. S. G. Kuhn, Friend of George Griswold, Thinks Him Still Alive.

OTHERS HAVE RECEIVED MAIL FROM HIM

Steve Essex of Des Moines, Omaha Man Says, Has Communicated with Insurance Agent Since Report of Alleged Murder.

"I never did believe the body found in the Des Moines river was that of Georga Griswold and I do not believe it now," said U. S. G. Kuhn of 2809 Ohio street, traveling salesman for the Regent Shoe Manufacturing company, and a personal friend of Griswold. "George was always good friend of mine, but I see no res son to shield him now, for if he is alive they will get him sooner or later.

"While I never saw letters he has writen, Steve Essex of Des Moines, a perenal friend of both Griswold and myself, has told me several times of receiving letters from George since the time of his slieged death and I have every reason to believe he was telling the truth, as he had no reason to be deceiving me.

"When the report was first out two months ago that Griswold was alive and well, mutual friends of ours told me it was so and that he had gone to the morgue in Chicago where he had bought a stiff which he fixed up and threw in the river. He picked up a body which would easily be taken for him and after throwing it in the river, disappeared.

"He had often told me his family af-There are few people in the United States | fairs were not as pleasant us most peowho have not used by at least heard of pie thought and told me he expected to Chamberlain's Colfe, Cholera and Diarget out of Des Moines as soon as posrhoea Remedy. He was badly in debt and had the house for a long time without being forged several papers which were liable to needed, when suddenly some member of make him trouble and had a woman the house is stricken with diarrhoea in its scrape besides, so it behooved him to get Thinks Him Still Alive.

"I have no doubt this is just what he did and that he is now alive. People in Omaha identified the body when it was brought here for burial, but I don't see how they could be certain in the identification, as the body had been in the river for so long a time that it was badly decomposed, and was surely beyond recognition.

"The Des Moines people have been after ne several times to find out what I knew, but I have remained quiet until this time, The facts are so clear to me that there is no doubt in my mind that he is now alive. He was recognized lately at Oklahoma City and also at Marshalltown." It is reported that insurance companies still hold \$20,000 in policies on Griswold's life to the credit of his wife. At the time

of his alleged death the theory put in circulation was that Griswold was murdered over his woman scrape and thrown in the river. Panie Averted. In case of constipation, peritonitis, etc., panic is averted by curing yourself with
