Violent Break in Prices Fellows Heavy Realising Sales.

MARKET LEADERS DROP 3 TO 4 POINTS

General Net Losses Average One to Two Points-Close is Active and Lowest of the Day.

NEW TORK, June Z.—There were few special new developments in conditions to-day to account for the rather violent break in prices. The influences which are responsible for the unloading of stocks have been gathering for some time. Today's break was due as much as anything to the discouragement over the failure of the market to respond to anything in the nature of favorable developments. This had the effect of fixing opinion that favorable opportunities were being taken to sell stocks. This resulted in reassuring the uncovered bear interest which had begun to manifest some misgiving over its position owing to the extent to which the decline has already extended and the proportions to which the short interest is reputed to have grown. With the demand from the bears to cover shorts reduced, there was no effective buying from any quarter to absorb the heavy liquidation which came upon the market again today.

with the demand from the bears to cover shorts reduced, there was no effective buying from any quarter to absorb the heavy liquidation which came upon the market again today.

Some persistent efforts were made during the morning to support prices and to drive the shorts to cover. This had the effect for a while of intimidating the bears, and on any considerable decline they showed a disposition to take their profits and to buy. With the progress of the day the pressure of long stock on any advantageous opportunity became clearly manifest and efforts at support were almost wholly abandoned. An example of the action of the market, in face of good news, was furnished in the case of Anaconda, which broke violently on realizing on yesterday's selling before the general market began to weaken. Its depression was communicated to Amalgamated Copper. Various reports circulated during the day of intended dividend increases and the actual raising of the rate of disbursement on Ontario & Western, therefore, was without effect in inducing any buying of stocks. The earlier example of the weakness of Pennsylvania, in face of the rise in the Baltimore & Ohlo dividend, was also kept in mind and helped to convince sentiment that Important liquidation was still in progress when favorable opportunity offered.

The money market today offered no evidence of any urgent demand for funds on call, although the tone was somewhat firmer. But the influence of lenders of money in Inducing the liquidation of stock was believed, nevertheless, to be a preponderant influence. A large reduction of commitments on the part of the stock market of the stocks referred to in the reports indicated a condition of disfavor of these securities at their pressure to sell. Sterling exchange continued to decline, with reports of gold being secured for import. It is now believed that the \$10,000,000 of government deporits will be withdrawn from the national banks on July 10, in acc Increased the weakness of the stock market, which was most active in the last hour, with closing prices near the lowest. General net losses run from 1 to over 2 points and the leading speculative favorites lost from 3 to 4 points and upwards on the day's dealings. Bonds were irregular. Total sales, par value, \$1,95,000. United States bonds were, all unchanged on call.

LONDON, June 21.—Money was in good demand in the market today and rates were a shade harder; discounts, were steady. American and continental axchanges were closely watched owing to fear of probable goid exports. Trading on the Stock exchange developed a firmer tendency. Although there was an increase in volume, quotations in most directions hardened owing to there being less fear of difficulties during the settlement. Consols advanced sharply during the afternoon on repurchases. Home rails benefited by purchases. Kafirs closed steadier. Americans were quiet and firm. Opening at above parity they further hardened on moderate professional support. Atchison, Topeka & Santa Fe received attention owing to its good earnings and dividend rumors. Later the market reacted and prices became easier on the receipt of New York's opening advances. The market closed dull. Copper shares hardened in sympathy with the metal. Japances imperial 6s, of 1994 closed at 102.

BERLIN, June 27.—The tone on the Bourse today improved on the easy monthly settlement. American rails were firm.

PARIS, June 27.—Thes had a tendency Foreign Financial.

MOVE ON STREET MERCHANTS Zimman Prepares Ordinance Contemplating Prohibition of This

The downtown streets are to be cleared of fakirs, peddlers and hawkers of all kinds, if an ordinance which Councilman Zimman is having prepared becomes a law. The representative from the Third ward has noted an ever-increasing number of pavement merchants, selling everything from an astrologic glance into the future

"The thing has got to be an arrant nuis Zimman. "Many a quarter is wheedled out of a thread-bare pocket by the siren voice of the spieler. None of these fakirs sell anything of particular usefulness or beauty and most of them are grafters of the worst kind-swindlers who pretend to give a whole lot for a small price. The result is that nondescript mountebanks come in here and depart in a few days with their pockets bulging with money taken from the poorer classes who cannot well afford to spend it

on such trash. "The ordinance will prohibit doing any kind of business on the street except by merchants in front of their established places of business and peddlers of fruit, popcorn, peanuts, lunches, etc."
