

Weighty Professional Endorsements.

That the several American medicinal roots, the concentrated glyceric extracts of which make up Dr. Pierce's Golden Medical Discovery, have the strongest kind of endorsement by scores of leading medical writers...

Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of Golden Seal root: "It is a most superior remedy in catarrhs of the bladder, inflammation of the stomach, chronic constipation, general debility, in convalescence from protracted fevers, in prostrating night-sweats. It is an important remedy in disorders of the womb."

Prof. Laurence Johnson, M. D., of the Medical Department, University City of N. Y., is equally loud in his praise of Golden Seal root, especially for its tonic effects in convalescence from acute diseases and its special tonic influence upon mucous surfaces...

Doctors Barton and Tully recommended Golden Seal root as a pure tonic and as an alterative in diseased conditions of the mucous membranes. Prof. John King, M. D., late of Cincinnati, author of the American Dispensatory, gives it a prominent place among medicinal agents...

Prof. John King, M. D., late of Cincinnati, author of the American Dispensatory, gives it a prominent place among medicinal agents, believing that the foregoing writers have said about it, as does also Prof. John M. Scudder, M. D., late of Cincinnati. Dr. Scudder says: "It stimulates the digestive processes and increases the assimilation of food. By these means the blood is enriched, and the consequent improvement of the glandular and nervous systems are natural results."

Dr. Scudder further says, in relation to its general effect upon the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic, useful in all debilitated states.

Prof. H. B. Wood, M. D., of the University of Pa., says of Golden Seal root that it is "of service in chronic catarrh of the bladder and bowels, following abuse of alcohol, and as a tonic after malarial fever." He further says, it "has a distinct anti-malarial influence." Also "good in all catarrhal conditions, as chronic catarrh, leucorrhoea, etc., and as a curative agent in chronic dyspepsia."

ANOTHER LINEMAN INJURED

Telephone Wire Man Falls a Distance of Thirty Feet. REPORTED BADLY BUT NOT FATALY HURT. Improper Protection of Electric Light Wires Held as the Cause of Omer Ayers' Death at Florence.

Peter E. Olsen, lineman for the Nebraska Telephone company, was seriously injured Thursday morning at twenty-fourth and Grant streets by falling thirty feet to the curb from a "saddle," which is operated on the telephone cables on two small grooved wheels.

At the time of the accident Olsen was repairing the telephone cable on the west side of Twenty-fourth street, just across Grant street. The saddle on which Olsen was working was later seen against several electric wires which appeared to be poorly insulated. In place the insulation was worn. Olsen fell face downwards.

The jury returned a verdict that Ayers came to his death from a shock caused by the Omaha Electric Light and Power company not having proper protection on its wires at the time the accident occurred.

Harry Schatz, 8 years of age, was severely hurt about the head Thursday morning by being run over by the delivery wagon of Lieb & Adelson at Sixteenth and Dodge streets. Several scalp wounds were dressed by Police Surgeon Elmors at the police station.

The Bijou theater will be open for business July 3, with its entire structure refitted and repainted from top to bottom inside and outside. The new theater occupies the site of the old Germania hall on Harney street and has been converted into a first-class vaudeville house.

There are few people in the United States who have not used or at least heard of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Sometimes it is kept in the house for a long time without being needed, when suddenly some member of the household is stricken with diarrhoea in its worst form.

Kimman Says Let City Franchise and Offer it to the Highest Bidder. Councilman Kimman has come forward with a plan for solving the perplexities in which the council is entangled in attempting to bestow a franchise to another telephone company, with three applications from as many separate interests for the grant.

"I am in favor of a single company transacting all the telephone business in Omaha provided equitable rates and proper concessions, including the payment of a royalty, are made," says Kimman. "In the absence of justice from the corporation controlling the monopoly I would favor admitting competition on the most favorable terms to patrons and the people of the city that can be secured."

SCHOOL CENSUS OF OMAHA. Over Twenty-Seven Thousand Minors Between Five and Twenty-One. SEEMS LIKE FALLING OFF, BUT IT IS NOT. Board of Education Has Simply Enforced System of Counting that Does Away with Duplications.

Pride, income and sacred tradition have been sacrificed by the Board of Education for old-fashioned honesty and veracity in the 1906 school census. The result is a total of 27,118 persons of school age in Omaha, or a lower number than any year since 1891.

Another Step Forward. This year the board made another step toward honesty in the census. It ordered that stores, factories, offices and business institutions in all the wards be visited from inquisition, reasoning that if the homes and dwelling places were covered properly all the persons of school age would be found.

Big Drop in Fourth Ward. The Fourth ward, which has most of the department stores and a number of large office buildings, had its area only slightly reduced, decreased 1,322 in school population. On the other hand the Fifth ward, with few factories or stores and the same boundaries, jumped 94 children.

Excursions. On July 8 and 9, to Chautauque Lake, N. Y., and return at \$4. good 30 days; and daily June 1 until September 30, at \$5 via RR. Excursions to Chicago, St. Paul, St. Louis, etc. also permitted on all tickets to New York, Boston, Niagara Falls, etc.
