GRAIN AND PRODUCE MARKET

Bulls Fail to Stop Wheat in Downward Course.

SEPTEMBER CLOSES OVER CENT LOWER

Corn Unusually Firm in the Face of This Weakness and Good Weather—Actual Gain in Big Months.

OMAHA, June 29, 1906.

Wheat continued on its downward course today. Prices were off at the opening, the heavy rains all through the spring wheat country having no effect. Shortly the market turned strong, advancing about ½c only to break again. The decline reached 1½c below yesterday, with a recovery of ¾c at the close. Harvest is progressing favorable in the southwest and continued reports come of good yield.

The cash demand is not very good. This country is still out of line for export, and bears confidently expect good reports on winter yield and good prospect for spring wheat will send prices much lower.

Corn steadfastly refused to yield with the weakness in wheat, and this in spite of good weather and only a fair cash demand. It not only held its own today, but gained. The opening was unchanged on September and there was a gain of ¾c, with a subsequent loss of ¼c. July closed ⅝c above yesterday.

There was no trading in oats.

Argentina shipments of wheat were 1,336,000 bushels, against 2,896,000 bushels last week. Corn shipments were 2,167,000 bushels, against 1,023,000 bushels last year.

The Modern Miller says: "Returns from the threshing of winter wheat generally show a good yield of grain of excellent milling quality. Few reports of deficient yield are received. Crop conditions in Nebraska have improved since the recent rains and the good crop promise elsewhere is maintained. Rains have impeded harvest and delayed movement to market, but the prospects are that the movement will be free if the weather continues favorable."

Primary wheat receipts were 295,000 bushels and shipments 120,000 bushels, against receipts last year of 293,000 bushels and shipments of 167,000 bushels. Corn receipts were 717,000 bushels and shipments 481,000 bushels, against receipts last year of 530,000 bushels and shipments of 552,000 bushels. Clearances were 27,000 barrels flour, 214,000 bushels corn and 440,000 bushels oats.

Liverpool closed ¼@⅝d lower on wheat and ⅝@½d lower on corn.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Quotations on Board of Trade.

CHICAGO, June 29.—General selling by longs caused weakness today in the local wheat market. At the close September was down 1¼@1⅝c. Corn was unchanged. Oats showed a gain of ⅝c. Provisions were 5@7½c higher to 10c lower.

Sentiment in the wheat pit was inclined to be weak for the greater part of the day, but several times the market rallied slightly on covering by shorts, which was based upon the excellent weather for the harvesting of winter wheat. There was a little rally early in the day on buying by commission houses with northwestern connections. The news from the northwest was again of a bullish character, additional rains being reported in various sections of the winter wheat country. Later in the session the market was affected by reports from Missouri and southern Illinois which claimed that the yield of wheat in those sections would be very heavy. During the last hour the market was extremely weak on general selling. Shorts were the best buyers. The close was weak with prices close to the lowest point of the day. September opened unchanged to ¼c lower at 82⅝@83c, sold at 83¾c and declined to 81⅝c. The close was at 81¾@81⅝c. Clearances of wheat and flour were equal to 119,100 bushels. Exports for the week as shown by Bradstreet's were equal to 1,000,000 bushels. Primary receipts were 259,000 bushels against 292,000 bushels for the same day last year. Minneapolis, Duluth and Chicago reported receipts of 222 cars against 230 cars last week and 169 cars a year ago.

Light country acceptances and a lively shipping demand caused the corn market to be strong nearly all day. Late in the session liquidation, coupled with the break in wheat, resulted in a loss of much of the early firmness. The market closed steady. September opened a shade to ¼c higher at 52¼@52⅜c to 52⅝c, sold between 52¼@52¾c and closed at 52¾c. Local receipts were 309 cars with 197 cars of contract grade.

The oats market was firm all day. There was a good general demand, based largely upon hot weather, which was said to be detrimental to the best development of the new crop. Offerings were light. The market closed firm. September opened unchanged to ⅛c higher at 36⅛@36¼c, advanced to 37¼@37⅜c and closed at 36½c. Local receipts were 136 cars.

Trading in provisions was quiet. Early in the day the market was firm on buying by local packers, but later the market eased off a trifle in sympathy with the break in wheat. At the close September pork was down 10c at $16.70. Lard was unchanged at $8.82½. Ribs were 5@7½c lower. Estimated receipts for tomorrow: Wheat, 17 cars; corn, 300 cars; oats, 201 cars; hogs, 14,000 head.

The leading futures ranged as follows:

The market closed firm at a net advance of 6@10 points. Sales were reported of 44,000 bags, including September at 5.80c; October, 6.85c; December, 6.55c; March, 7.00c; May, 7.10@7.15c. Spot, steady; No. 7 Rio, 7½c.

NEW YORK STOCKS AND BONDS

Selling Pressure Continues to Grow Throughout the Session.

MARKET WEAK AND SEMI-DEMORALIZED

Close is Near the Lowest, with Material Net Losses in Practically the Entire List.

NEW YORK, June 29.—Stocks came upon the market freely from time to time today in continuance of the liquidation movement recently in progress. The result was a sort of nibbling at prices which made constant inroads upon values and was highly disconcerting to holders of long stock. The consequence was a growth in selling pressure until in the final hour the market took on the weak and demoralized tone which characterized Wednesday's break. In a few cases prices got back to a lower level than during the decline of the first part of yesterday's session.

The bear party showed great caution in its operations and made no such raids on prices as were in evidence earlier in the week. It was evident that a waiting demand existed at the lower levels and this was attributed to the outstanding shorts who took the opportunity in this way to realize their profits. There were no important incidents bearing on values in today's news. Money on call was active all day in consequence of calling of loans by the banks in preparation for meeting the July settlement requirements. The fact that this is the last day of preparation previous to the July 1 payments, as the money market at the Stock exchange is wholly nominal on Saturday, left room for some feeling that the worst effects of the coming requirements were being felt in today's money market. Advices from Washington during the day pointed to the possibility of a final adjournment of congress tonight. As large short selling for bear account is believed to have been based on apprehensions of further congressional action against railroad corporations, professional operators looked for some covering demand upon the adjournment of congress. The argument was heard also that the administration program against the trusts has been outlined, leaving no further measures to be feared. The seeming restraint with which the bears operated in the market was accounted for by these considerations. The supposition that money will work easier with the turn of the half year has played a part in the day's operations, although it was pointed out that on previous occasions the unsettlement in money has continued for several days after the period of the settlements. The announcement of $500,000 gold secured from the Bank of England for export has the effect of confirming confidence that next week's expected large arrivals of South African gold in London would be secured for New York. Although the banks have lost over $1,000,000 to the sub-treasury on the week's operations, there has been a sufficient gain on the express movement with the interior to indicate an increase in cash of about $2,700,000. The week's liquidation in stocks is expected to reduce the loan item and make a strong bank return.

Stocks which have been most active in the speculation continued under notable pressure, notwithstanding these restraining factors. It was concluded that the calling of loans still affected most directly stock market pools and large speculative holdings in the market. The concurrent weakness of the Hill railroad stocks and of the United States Steel stocks pointed to liquidation of speculative holdings which have been acquired in connection with the Great Northern ore lands deal report. Rumor pointed to the closing out of an important speculative account for an estate in process of settlement. Today's reports of earnings of railroads for May made a strong showing with the exception of that for Reading, which showed the final effects of the anthracite miners' strike. The lowest prices of the day were touched in the last hour and the market closed weak and near the lowest with material net losses throughout.

Bonds were heavy. Total sales, par value, $1,170,000. United States 3s, coupon, declined ¼ per cent on call.
