THE OMAHA SUNDAY BEE: JULY 1, 1906.

Woodmen Circle

FRATERNAL LIFE INSURANCE ORD

Seven years ago the present corps of officers assumed the management of this order and found a membership of 5,000 carrying an indebtedness of over \$30,000.00. Since that time the debt has been entirely paid and the

Membership Has Increased to 38,000

while in the treasury to secure the payment of death claims and prevent the possibility of an increase in rates there is a

Surplus of Over **Five Hundred Thousand Dollars.**

The experimental stage has been passed. A constantly increasing surplus is being laid up against a constantly increasing membership, making our insurance as safe as a government bond.

Our benefits are from \$500 to \$2,000 and in addition to these amounts, we erect at the grave of each member a monument costing not less than \$100.

LIGHTNING STAIK 3 FARNAM SCHOOL

Display of Electricity.

Reports from Outside Points, While Menger, Indicate Storm is Sovere-Telegraph and Telephone Lines Knocked Out.

After collecting forces for hours over into the northwest, the clouds at last poured forth their contents upon Omaha and vicinity at about 8 o'clock Saturday evening, and, aided by a wind of high velocity, compelled people to close the windows and doors and seek whatever shelter was near. if they were on the streets. But it wasn't so much after all. Omaha has seen worse storms. Every little while there would be a lull in the furious battle of the elements and although followed very shortly by as much noise, motion and falling water as ever, and sometimes more, the little rest gave the more timid ones an opportunity to recover their equanimity and gather sufficient courage to withstand the next onslaught.

Umbrellas of No Service.

On the streets in the downtown district luckless men and women who did not immediately run for shelter when the sky turned suddenly black and/ creepy little gusts of wind swirled around here and there ominously were dreached almost as quickly as if they had been thrown into the river. Umbrellas were of no value, or at least not for very long. Persons of both sexes were frequently seen walking boldly through the rain, wholly indifferent to the water, their umbrelias having been destroyed and they themselves drenched in a twinkling. Each street soon became a river.

The extreme sultriness of the day drew large numbers to the parks and open air pleasure resorts and many of these were drenched before they could find shelter.

Bellef from Heat.

The wind and rain ceased together after continuing a little more than an hour and after the sultriness of the day. As soon as it was sufe people went out to see what in the city was reported. Lightning had is reported. struck an electric light pole at Thirty-fifth and Leavenworth street and the wires were broken. They fell on the street, but were soon repaired. Lightning also damaged the Farnam Street school building, tearing a bols in the brick wall and shattering the ohimney. The storm started almost simul-taneously with the sounding of an alarm of and Leavenworth street and the wires were

teenth and Jackson streets called out the department, but no damage resulted in any instance.

ias streets and a scare at Thir-

suddenly, and while the wind and rain were at their height the firemen were given two

hour. Crossed electric wires at Twentieth

The sky remained black and threatening until late Sunday morning. Telegraph Wires Dows.

Omaha and vicinity was not the only sec tion to be visited by the heavy rain and high wind last evening. The telephone company reported its long distance wires to the north down and the two telegraph com-

panies reported their inability to reach Sloux City by the direct route. The Omaha road reported its wires down to the north of Herman. So far as known the wind had no indication of a tornado, but simply a high, straight blow, as in Omaha, but the force was sufficient to disarrange the telephone and telegraph service. The Northwestern reported its wires to Sloux City ing and started to step off the track, but from Council Bluffs as working, but not satisfactorily. So far as the railroad offices one of the rails. Before he could roll off were aware of there had been no storm of the rail the first car passed over his legs. a tornado nature in that section, but the The left leg was severed at the knee joint a tornado nature in this wind strong. As soon as seemed to fall from every quarter of the established grade is unsatisfactory to the second to fail from every quarter of the heavens. Strange to say, however, no deaths nor destruction by fire or lightning is reported. a way recently at the west side of the street. City Engineer Labey were fined is and costs each in damage had been done, but not a great deal deaths nor destruction by fire or lightning grade is from six to fifteen feet lower than

Bishop Grant Will Preach.

The forests and fields are abundantly supplied with vegetation of vari-kinds, not alone to beautify the land, but to furnish the ingredients for making a remedy for every ill and ailment of mankind. Medicines made from the roots, herbs and barks, which nature has placed at the disposal of man, act better in every way than do strong mineral mixtures and concoc-tions-the products of the chemist's shop. Mineral medicines work dangerously on the delicate parts of the system, especially the stomach and bowels, by eating out the lining membrane, producing chronic dyspepsia and often entirely rulning the health. S. S. S. enjoys the distinction of being the only purely vegetable remedy on the market. It is made entirely of gentle-acting, healing, purifying roots, herbs and barks, possessing properties that build up and invigorate all parts of the system, in addition to removing all impurities and poisons from the blood. S. S. S. cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and all rders of the blood, by cleansing the circulation of the cause, and it cures safely as well as permanently. It is as safe for children and old people as for those in the prime of life, and is the one blood medicine that may be used without fear of had alter-effects. Book on the blood sent free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Officer Has a Lively Chase and Has

Hand Severely Injured in Encounter with Prisoner Who Tries to Escape.

Steve Oreskvic, a native of one of the provinces of southern Bohemia, was probably fatally hurt early yesterday morning near Dooly & Moody's grading camp. This camp is about nine miles west of the city on the Union Pacific cutoff. The young man was standing in the middle of the tracks when a load of dump cars was backed down on him. He saw them comstubbed his toe on a tie and feil across

ing run around by way of the Northwest- him he managed to roll off the track and son's lodging house at Twenty-sixth and P

streets two feet. This met with considerstreets two feet. This met with consider-able favor as it will diminish the fill at I street and the city engineer was requested to prepare a profile so a petition could be circulated for such change. A greater change in grade it is feared will interfere with the thirty-inch, water main. Mayor Hoctor was present and suggested some action-as the city has been at a large expense filling in at I street, which is useless as long as the other parts of Twenty-seventh are not remedied.

City Attorney Busy.

The city attorney is busy at present with the case of Mrs. Wolfe against the City of South Omaha, a damage suit as the result of a runaway accident at Twentyfourth and U streets. Mrs. Wolfe asserts that her herse took fright at the steam roller which was stationed at Twenty-fourth and S streets. It ran to U, where the street car company had removed its paving between the tracks for the par-pose of regentre. The wheel of the rig is said to have been broken there and the occupants of the vehicle thrown cut, m which fall Mrs. Wolfs received injuries

UNTRED STATES DISPENSATORY, a stand-ard authority, "to impart tone and im-creased power to the heart's action." Numerons other leading authorities rep-resent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly com-posed of muscular tissue, it naturally follows that it must be greatly strength-ened by this superh general tonic. But

probably the must be greatly strangtinened by this superb, general tonis. But probably the most important ingredient of "Golden Medical Discovery," so far as its marvelous cures of valvular and other affections of the heart are concerned, is Stona root, or Collinsonia Can., Prof. Wm. Paine, author of Paine's Epitomy at Medicine, says of it.
"In one long time, author of Paine's Epitomy at Medical the able of the heart are contended by the heart that his transfer who was no much oppressed with valvular discase of the heart that his transfer who was not be able to the heart that his transfer obliged to carry him up-stairs. He howser, gradually recovered under the influence of Collinsonia principle extracted from Stone pot, and is now attending to his braceses. Heretofore physicians knew of no remedy for the removal of so d viresting and a day strong to his braceses, and it foartaily warned the finitude that death was near at hand. Colinsonin unquestionably affords relies in much cases, and is most instances effects a unch cases, and is most instances effects a unch cases, and is not instances of both the strong to his braces." Bone poot is also recommended by Dra.

Stone root is also recommended by Dra. Hale and Ellingwood, of Chicago, for valvular and other diseases of the heart. The latter mys: "It is a heart tonic of

The latter mys: "It is a heart tonic of direct and permanent influence." "Golden Medical Discovery," not only enres serious heart affections, but is a most afficiant general tonic and invigo-ator, strengthening the stomach, invig-erating the liver, requisiting the bowels and ouring catarrhal affections in all parts of the system.

Individuality. From his ranks leaders will yet come forth. My time is limited and I would not tire you, else I might recite to you examples of herolo martyrdom. I might recall to your memory things you already know. As it is, I must, even as you, promise nothing and prophesy nothing. 'Hope springs eternal in the human breast.' and it is that hope which tonight burns within our breast and wears a sliver thread of optimism in the darker fabric of the present out-look.

Janus-faced we stand at the present Janus-faced we stand at the present mo-ment. With regret we look upon the dark page of Russiz's past history, and with rising hope we gaze into the future now illumined with the light of promise. From the "ashes of empire" may there arise a newor, grander republic, a "government of the people," and in that government may free-dom and liberty be accorded to all. In the name of the higher civilization, in the name of all humanitarian principles, we send this prayer to Him, who, enthroned in the heavens high, guards and guides the des-tines of men and nations. Among those at the banquet were: Dr

C. W. Pollard, Watson B. Smith, H. W. Plerpont, Rabbi Louis Bernstein, A. K. Dame of Fremont, Dr. S. R. Towne, E. D. Burbank of Chicago, Rev. C. R. Adams. Kenneth Phillips, Harry Kelly, Sherman Smith, W. H. Pollard of Nehawka, Nathan Bernstein and Dr. Riley.

Victim of Drug Habit.

Miss Pearl Bryan was taken off a Rock Island train pusterday afternoon and cared for by the matron of Union station. The

young woman evidently was suffering from the excessive use of drugs. She said she had used morphine seven years and chloro-form nearly as long. The Omaha police were advised that the authorities at Atlan-tic. Ia., placed the woman on the train and sent her to Omaha for medical attendance. The local authorities gave the unfortunals woman temporary relief and sent her back to the Iowa town for care. During the last year several persons from small Iowa towns have been unleaded on Omaha for care and shelter.
