MURPHY MAKES A GOOD CATCH Puts in His Time Off Duty to Good Advantage and Lands Pickpocket.

A policeman without a home is a most interesting person. When Patrolman Murphy lost his home through the ravages of the vacation germ, which robbed him of his wife and family, the other day he suddenly realized how few places there are where a full grown man can find amusement.

Tuesday evening he started out for a walk in the neighborhood of Eleventh and Farnam streets and spotted two men, one intoxicated, standing together on the sidewalk.

Young Women's Christian Association OMAHA, July 3.—To the Editor of The Bee: Permit me, through the columns of your valuable paper, to call attention to some features of our local Young Women's Christian association in comparison with the work in other cities.

OUR LETTER BOX. Young Women's Christian Association OMAHA, July 3.—To the Editor of The Bee: Permit me, through the columns of your valuable paper, to call attention to some features of our local Young Women's Christian association in comparison with the work in other cities.

It will be seen by these comparisons that the Omaha Young Women's Christian association is really one of the largest in the country, but that it is not a symmetrical work. It has some very decided weaknesses. One of the greatest needs of our city is a school of domestic science, where our young women may study all the essentials of good housekeeping—cooking, buying, sewing, laundry work and household economy in all of its phases.

The need of a five-story building for our work has been questioned by some of our citizens who are not informed of the scope of the work. Statistics show our weaknesses are on account of not having room and equipment for all departments. One of our national secretaries said she had never seen space so well utilized, and yet we have a fourth of the room needed in order to have the well-rounded organization for women, such as they have in Detroit and Harlem and Minneapolis and other cities where they have their own buildings and everything suited to the needs of so great a work.

The Dynamo of the American People. We are a race of workers. Work requires brain, nerve, energy. We glory in achievement. To work and work with might and main, good food is absolutely essential. Although nearly every one eats soda crackers sometime, yet there are a few people who do not consider their true value as an article of daily food. But it is now a recognized and established fact that the soda cracker contains the most tissue, fat and muscle forming elements of any article of food made from flour. Great as is the value of the common soda cracker, yet it is small in comparison with Uneda Biscuit—the most wonderful soda cracker ever baked, and of which nearly 400,000,000 packages have been sold. Uneda Biscuit, the food of power, transmitting as they do the elements so vital to our well-being, may in very truth be called "The Dynamo of the American People." NATIONAL BISCUIT COMPANY
