SEVEN LARGE ARMY POSTS

President and Secretary Taft Arrange to Consolidate Garrisons.

AIM TO DRILL TROOPS TO ACT IN MASS

Will Be Located at Forts Riley, Leavenworth, Robinson, Sill, Sam Houston, Russell and Oglethorpe.

OYSTER BAY, N. Y., July 7.-Important steps calculated to materially develop the efficiency of the army were taken today by President Roosevelt and Secretary Taft at Sagamore Hill. In his last annual message to congress the president said the number of posts in which the army is kept in time of peace should be materially diminished and the posts that are left made orrespondingly larger.

This recommendation is to be carried out at once. Seven brigade posts, to be commanded by brigadier generals, are to b established. Two others are desired, but the funds at the disposal of the secretary may not be sufficient to allow of their equipment during the present fiscal year. The posts which the president and secretary tentatively decided today to enlarge in brigade posts are those at Fort Riley Kan : Fort Leavenworth, Kan : Fort Sam Houston, Tex.; Fort Robinson, Neb.; Fort D. A. Russell, Wyo.; Fort Sill. Okl., and Fort Oglethorne, Go. It is desired to have one in Pennsylvania and one on the Pacific coast, but these will have to be taken care of later. Final action regarding these posts will be taken a week from next Monday, when Secretary Taft will make a second visit to Oyster Bay.

Necessity for Prompt Action. The necessity for the formulation of a complete plan at this time for the development of the new scheme is occasioned by the requirement in the urgency deficience appropriation act of the last session, which is that all appropriations shall be apportioned so as to last throughout the year for the purposes for which they were made without causing a deficiency. The army appropriation act carries \$800,000 for the creation of army posts. It also carries \$3,000,000 for barracks and quarters and Before this money can be expended a complete plan as to what it shall be used for must be made and the lump sum appropriations so apportioned so that no defleiency will be created. In attempting to carry out his plan, the president is simply following the line he indicated to congress in his message. It is his firm belief that the army should be trained above all else to act in a mass. To this end he suggested that provision be made for maneuvers of a practical kind. In this plan he says the generals and colonels would have op portunity to handle regiments, brigades and divisions, and the commissary and medical lepartments would be tested in the field. What he added regarding the establishment of larger army posts was that no local infield armies, in stations of such size as will permit the best training to be given to the personnel of all grades, including

"To accomplish this end," he said, "we must have not company and regimental garrisons, but brigade and division gar-

the high officers and staff officers.

Weeding Out Process. The president follows this with comment on the weeding out process the West Point Military academy does on prospective army officers and says there should be some process in the army that would achieve the

same end, 'After a certain age has been reached," he says, "the average officer is unfit to

do good work below a certain grade." Provision, he maintains, should be made for the promotion of exceptionally meritorous men over the heads of their comrades, and for retirement of all men who ave reached a given age, without going seyond a given rank. The plan now be ing worked out by the president and the secretary of war, it is intended, will accomplish much that the president has expressed a desire for in the foregoing recmmendations to congress. The locations selected are all places where the government has large reservations and where troops may be mobilized to advantage for

thorpe, Ga., the post is adjacent to the Chickamauga National park. Secretary Taft spent but two hours with the president today. He arrived from Washington at 10:15 o'clock this morning and left on the noon train. This was Secretary Taft's first visit to Oyster ing office been more efficient, expeditious Bay. Besides going over the army post matter the secretary discussed the speech said, the office had not ben responsible he is to deliver to the republican state for the delays under investigation convention of North Carolina (Greensboro) Monday night.

maneuvers or other purposes. At Ogla-

The secretary has one more speaking engagement, an address before the Ohio present. Bar association at Put-in-Bay, after which he is to take a two months' rest at Murray bay, eighty miles below Queec, on the St. Lawrence river, Canada. The secretary will accompany the presiient to Panama, and said the start for the isthmus would be made immediately after the November elections, that the president might be in Washington before the opening of congress.

Autos for War Department. WASHINGTON, July 7 .- The four autonobiles which have been purchased by the War department for use during the nobilization maneuvers will be sent from Washington to Mount Gretna. Experiments will be made with them there at the headquarters of General Grant in order to test heir value to the military establishment.

STAGNATION IN GUATEMALA Revolutionary Struggle Causes Suspension of Business and Neglect

of Crops.

MEXICO CITY, July 7 .- News from Guatemala says that President Cabrera has imprisoned Edward Drummond, an American citizen.

Late arrivals from Guatemala confirms the reports of stagnation of business and lack of men to gather the coffee crop, while corn is not being planted. The government has concentrated an

army of some \$0,000 men, many of them unarmed and badly clothed, near the Salvadorean frontier. General Toledo's camp of revolutionists

s near at hand and he is drilling his men and receiving recruits from all parts of the country. Attempts to have the government of the nited States adjust matters between Sal-

rador and Guatemala are said by well informed to be due to President Cabrera's realization that without the moral support of the United States he will be unable to much longer prolong the struggle. Report spart from revolutionary sources

show his position to be a most difficult one and without the loyal support of his people, among whom scores of the most minent are in prison.

The revolutionists charge that United States Minister Combs has not fairly represented the true condition of affairs to his government nor kept it informed as to the methods employed by Cabrers, who, it

Pennsylvania Employes Instructed to Dispose of Investments Along Rallroad.

lows:

Under the conditions of today, after they have been stated, it is essential that all officers and employee should be absolutely free to discharge their duties impartially. Applying this principle to the coal trade as an illustration, the keen competition of today requires every afficer and employe of the Penneyivania Raitroad company to part with any investments which he has in the shares of any coal producing company, and also to part with any interest which he has in or with any firm or individual mining coal, or any of the lines of the Penneyivania raitroad system, and every officer and simploye should be required to refrain from any investments whatseever which may possibly prejudice or affect the interests of the company or interfere with the company's full discharge of its duty to the public.
