

AFFAIRS AT SOUTH OMAHA

Levy for Coming Year Bothers City Officials Just Now.

EXPENSES OVER TWO HUNDRED THOUSAND

Floyd Maures, Riding the Bumpers in from Elkhorn, Pined and Taken to County Hospital in Dangerous Condition.

The topic which is coming to the front just at present at the city hall is the estimated expenses of the city government which will be included in the levy for next year. All parties agree that the budget will be considerably in excess of \$200,000. Some put the figure as high as \$225,000. This much will not have to be raised by the tax levy for the reason that there will be some money which will be left over from the present year's levy. There are also a few special funds included to reduce the figure. The amount of last year's levy was \$147,367.80, and this was swelled by a balance from the former year of \$2,048.40, making \$149,416.20 available for the expenses of the city. Besides this amount, however, several thousand dollars have been spent from the scavenger tax collections, so that the actual expense of the year has reached considerably above the \$200,000 mark. From this it will be seen that the actual levy will be perhaps as high as \$210,000, with a balance from all sources of about \$20,000, possibly less. There is a balance at present of \$40,000.36, with all the July expenses to be paid. These in all probability will reach \$10,000. The amount collected from the scavenger tax this year is expected to amount to nearly \$12,000.

The estimates of expenses will be prepared by the finance committee of the council and its report will be formulated before July 16. The first move in this direction will be taken Monday evening at the session of the council. The police department has a good patrol wagon should by all means be included among the items by the Fire and Police Board; so that there may be no possibility of another year's passing without a new patrol wagon to the efficiency of the force. One thousand dollars would be enough to insure a first-class outfit with a team.

The city treasurer is preparing his annual report and is making every effort to have it ready by Monday. On this is based to a large degree the estimates for the coming year. Now that satisfactory arrangements have been reached concerning the funds in the city's possession for use in the general sewer system work in that direction will occupy the council to a considerable extent. It is likely that the clerk will be instructed to advertise for bids for the construction, which will be opened July 20. The specifications have already been handed in to the proper committee of the council. Estimates will be in readiness as soon as needed at the office of the city engineer.

Caught Between Bumpers.

Floyd Maures, a young man of 22 years, was seriously injured at Elkhorn yesterday morning at 8 a. m. He was trying to get a free ride into Omaha. He had boarded the train at Elkhorn and was riding on the bumpers between two freight cars. It appears that there was a defect in the bumpers on which he sat, and when the brakes were applied for South Omaha his car struck together, pinching him between them. He was caught at the groin and it is believed he has internal injuries, which may make recovery doubtful. He was taken from between the cars at the Q street viaduct and carried to the new freight depot at O street. Here an ambulance was called and he was taken to the county hospital, since he had no money. He was given first aid by Dr. Kelly. It was learned that he had relatives in Cincinnati.

Miss McCann No Better.

Mrs. W. J. McCann returned last night from South Dakota with her daughter, Miss May McCann. The health of the daughter was not improved, as had been hoped. It was necessary to have the ambulance sent to the Union depot in Omaha to bring the young woman home. Miss May McCann is the oldest daughter in a family of fourteen children, all of whom are living.

Plenty of City Boarders.

According to the statements of J. Rotholz, the contractor for feeding the city prisoners, last month was the month of greatest receipts since his contract was made. He received \$108.72, at the rate of 8 cents per meal. Many days he fed as high as thirty a day. He makes the assertion that there is very little profit derived from feeding the prisoners at that rate and he has really convinced himself that he works for the glory of it. He says he has become accustomed to the habitual kicks of the prisoners and declares that they would kick if they were fed on chicken.

Plenty of Work for Attorney.

The city attorney declares that he has work enough ahead to keep him busy during the entire term of court, which will probably close next September. New cases are coming up all the time. In fact, the judge claims against the city annually amount to \$200,000. The largest so far this year is that of Coatsworth against the city for \$80,000. He has already disposed of two

PETERMAN'S ROACH FOOD

A BOOY TO HOUSEKEEPERS.

The most improved method to free a house of large or small roaches is to use the contents of a box of Peterman's Roach Food at one time. Shake it on the joints so some of it will penetrate and remain to keep the premises continuously free. Roaches eat it as food; it is the most destructive remedy on the earth; it kills them and it will not harm them to other places to live and multiply.

BEDBUGS—Peterman's Discovery

(quickly) Bedbugs take it up in the circulation when going over their bodies on a lighted surface. It is invaluable if brushed on beds, on the back of picture frames, moldings, and on the sides of chairs, sofas, and other furniture or bedding. Odorless and nonpoisonous.

"Peterman's Discovery" (liquid)—In flexible, handy cans, for cracks, walls, mattresses, etc. Odorless nonpoisonous.

"Peterman's Ant Food"—A strong powder to kill and drive away ants, also water beetles or black beetles, in one night.

"Peterman's Rat-mouse Food" makes rats or mice wild; they will leave and not return.

Take no other, as time may be even more important than money.

BURLINGTON MAKES THE CUT

Adopts Cent and Quarter Reduction on Grain to Missouri River.

RATE WAR NOW SAID TO BE INEVITABLE

Union Pacific Expected to Carry Out Its Declaration of Following Suit Made Some Days Ago.

The Burlington has made good on its announcement of the cut in grain rates from Nebraska points to Omaha of 1 1/2 cents and has announced that, effective July 10, these rates will be reduced from central Nebraska stations to all Missouri river points. Nothing in railroad circles has happened for sometime which so stirred up the managers of the various roads, and a rate war now seems inevitable. The Union Pacific officials said yesterday that if the Burlington made this cut, as per announcement, there would be nothing left for that road to do except to follow suit.

The Burlington makes this reduction because of the payment of elevation charges by the Union Pacific at Omaha to all elevators performing the service of elevation. It claims that it is at a disadvantage of 1 1/2 cents at all competing stations and the cut was necessary to get any of the business.

The move is looked upon in some quarters as an effort to force the Union Pacific to remove the payment of elevation charges, and a merry war is expected. C. E. Spens, general freight agent of the Burlington, went to Chicago Thursday night and this move was expected as soon as he could be reached at the Freight Traffic Manager Crosby. The expected happened and late Friday evening the grain men received notice of the cut.

Nearly All Against Elevation. All the roads except the Union Pacific now stand pledged to the policy of not paying elevation at any points, as they claim they fear it is in the nature of a rebate and not lawful. The Union Pacific, however, stands on the same ground it did before, when the Interstate Commerce commission decided it might pay elevation charges to the Omaha Elevator company and the Transmississippi Grain company in order to secure an immediate return of its cars at the end of the line. The Union Pacific, since that time, has strengthened its position by publishing the tariff, which carries with it the payment of elevation charges to all elevators which perform the service at Omaha, South Omaha, Council Bluffs and Kansas City. This removes the weak part of the question by making the payment open to all instead of simply to the Omaha and Transmississippi companies.

All roads have, during the last week, announced the reduction of rates to the Missouri river from Omaha and the stoppage of the practice of paying elevation charges. Some roads have announced the reduction of the rates to the south.

Could Road Come In.

The Missouri Pacific announced that effective July 8, it would reduce all local and proportional rates on grain from all stations on that line in Kansas and Nebraska to St. Louis, Memphis, Mississippi valley points, New Orleans and Galveston, when for export. The rates will be reduced 1 1/2 cents and the road will cease paying elevation charges.

CIRCUS MARVEL.

No circus enterprise of today is comparable with Ringling Brothers' famous shows, either in size or fascinating features of interest. The newest and most sensational in modern circus invention is always to be found in the program of Ringling Brothers, and the skill and judgment displayed each season in the organization and conduct of their enormous shows have earned for them a world-wide reputation. The general public knows that the highest expression of the circus idea is to be found only in the Ringling Brothers' wonderful shows. No one can fail to notice the atmosphere of refinement about this particular circus, in the appearance and manner of the hundreds of employees, the exclusive and wonderful nature of the acts, the marvelous animal annex, and the wonderful shows.
