FIRST ASCENSION IS FATAI

Inexperienced Young Man Goes Up in Balloon at Manawa and Drowns.

SWIMS LITTLE WAY AFTER DROPPING

Professional Who Has Contract for the Ascensions Allows Him to Go Up After Being Repeatedly Importuned.

The desire to experience the excitement of a balloon ascension cost Ollie Jensen, a youth of Council Biuffs, his life last evening in the waters of Lake Manawa. Permitted by Thomas Andrews, who has the Clay, sewer pipe, fittings and garden hose.

Lost-Black chatelaine bag, between 164
Park Ave, and 3d and Story Sts. Leave at 164 Park Ave, and receive reward.

Protection against getting soaked. Our rubber roofing is just the thing for flat roofs. C. Hafer, both phones 202.

For Sale—Five-room cottage; one and from the balloon, but sank just as a boat combail blocks from postomes. Owner, with two of his companions in it was

> Jensen roomed and boarded at 1019 South Main street with his chum, John Bottomley. He was employed as driver of a delivery wagon for a local grocery firm. His parents reside in Underwood, Ia.

> The young man, according to Mr. Andrews, had been a frequent attendant at the balloon ascensions at the lake and had repeatedly expressed the wish to make an ascension. He had frequently asked to be permitted to do so and during the last three weeks Mr. Andrews said had been insistent in his requests. Yesterday Jensen approached Andrews again with a request that he be allowed to make the ascension and offered the latter \$2 if he would allow him. Jensen assured Mr. Andrews that he was a good swimmer and that he would be able to swim across the lake if

building.

Mrs. Nellie Nelson, wife of Swan Nelson, died yesterday afternoon at her home, 212 Harmony street, aged 65 years. Besides her husband, she is survived by six sons and two daughters. Funeral services will be held this afternoon at 2 o'clock at the home, conducted by Rev. F. A. Case, pastor of the First Baptist church, following which the remains will be taken to Long Island, Kan., for interment. Mr. and Mrs. Nelson moved to this city last February from Long Island.

Here we are at the end of the season was seen to get loose from the floating balloon and swim around for a few minutes.

Here we are at the end of the season and for the next thirty days 1 will make fine clothes regardless of cost. I have a very fine line of Scotch suitings, both light and heavy weights, from \$30 to \$45, that will go at \$25. Your choice of all in the store, black thibsts, undress worsteds, black and blue serges, gray worsteds, will go in July regardless of cost. \$25 overcost at \$25. If you want to save \$10 on a swim around for a few minutes.

Jensen's roommate, John Bottomley, who, with another companion, was in a row-boat to pick up the young man in the event of his dropping in the water, followed the course of the balloon across the lake and were within speaking distance of Jensen when he sank. Bottomley and his companion had to row around the balloon with was drifting on top of the water, in order to reach Jensen, Jensen appeared in order to reach Jensen. Jensen appeared We have now on sale 300 pairs children's he called to his friends to row to him and misses low shoes, \$1.50, \$1.75 and \$2.00 saying. "Come and get me." Just as they to have retained his presence of mind, as were within a short distance of hira, however, he sank and did not appear above the water again.

C. H. Woodward, in charge of one of the company have so improved their machine company's electric launches, had also put that it now is two machines in one, as out after the balloon and he was almost

Consumer

Competition among brewers is keen. Perhaps you've noticed it.

A Talk with the

You may not know what's back of it. You have a right to know the facts, We have decided to print them.

Some of the large brewers to reduce the cost of brewing use cheap materials, In place of Barley, the very soul and essence of perfect beer, they use Corn, because it is cheap.

They further reduce the cost of production by not having ample storage facilities to properly age their beer.

The result is beer that has little else but "Purity" and "Sterilization" to recommend it. As a matter of fact, nearly all beer is pure and properly sterilized.

Budweiser

-The King of all Bottled Beers-

Budweiser is brewed from choicest Barley-Malt, the finest Hops, imported from the province of Saaz, in Bohemia, Yeast of special culture, and a small percentage of Rice.

It is fermented in glass-enameled vats. It is lagered (aged) from four to five months in glass-lined steel tanks.

In fact, is in glass from "Kettle to the Lip."

Our enormous storage capacity-600,000 barrels-enables us to age our beer to full maturity, which accounts for its healthfulness and delicious flavor. We produce beer of such unquestioned superiority that discriminating consumers demand it.

It is for these reasons that Budweiser, although the highest in price, has a larger sale than all other bottled beers.

Largest Brewers in the World

TAINTED CREAM NO LONGER SALEABLE

lows Going Into the Raising of Fine Horses on Much Larger Scale Than in Former

(From a Staff Correspondent.) DES MOINES, July 15 .- (Special.)- "Tow butter will be worth \$1,000,000 more annually because of the new law prohibiting the use of impure cream in its manufacture," This statement was made by E. M. Wentworth, agent in Iowa for the Pennsylvania railroad, who next to State Dairy and Food Commissioner H. R. Wright is the best posted man in the state of Iowa on the butter business. The Pennsylvania ships more Iowa butter than any other railroad, Mr. Wentworth is regularly in demand as speaker at dairy conventions and is considered by everyone familiar with the business an authority. "Because of the new law which makes it a punishable offense to either sell or buy impure cream for purposes of manufacturing into human food, Iowa butter will score three points higher on the New York market, which means that it will be worth 2 cents a pound more. Second class butter, which includes that scoring 88 or below, will, by scoring three points higher, come into the first cless, which includes that scoring 91 and over The butter that has been scoring as first class will be raised three points, bringing it above 98 points and causing it to score as "western extra." This will make a

difference of 2 cents a pound on the price of the butter." Iowa annually ships about \$0,000,000 pounds of butter to the eastern markets. An increase of 2 cents a pound means \$1,606.600 more for the butter produced in the state, and most of this will go to the farmers who is spoiled. Dairymen assert that on every milk train a number of cans will be found where the cream is fermented and boiling out of the tops of the cans. This quality of cream makes very inferior butter and the elimination of this from the market by fixes a penalty for either buying or selling democratic convention, which will convene this kind of cream, it is said, will raise at the court house in Logan on Monday, the standard of quality of butter of the July 30, at 16 a. m.

Increase in Horse Breeding. According to John C. Simpson, secretary of the state department of agriculture, Iowa is destined soon to become as famous a horse state as it is now a cattle state. The indications of this future, not only for this but for other western states, is shown by the change in hig horsemen dropping the importing business and becoming breeders themselves. Western states, Iowa especially, in their state fair premiums are encouraging this change by offering premiums especially for American bred horses

Judge's Death Complicates Things. The Marshall-Tama-Benton judicial dis trict has a complication of affairs that sildom arises and consequently there is r precedent by which it can be settled. The complication arises over the unexpected death of Judge Obed Caswell of Marshall county. In the recent judicial convention the delegates were selected from Marshall county by Judge Caswell, that authority being delegated to him by the county con-

J. W. Willett the Tama delegates. Only two candidates were to be nominated and Will Increase Value of Butter in the State Benton and Marshall united and nominated Burnham and Caswell. Judge Caswell died and now the question is what will be done, Can the delegates from the various counties be reassembled to make another nomination or will each county have to call another convention for the purpose of selecting delegates. The delegates selected before were selected on authority of the counties with the statement that they should be in the interests of the candidate naming them. But Judge Caswell is dead and if the same delegates reassemble they cannot be in his interests. No solution has yet been reached, though it is probable a

new convention will be called. Trouble Over Supervisors Law. All kinds of trouble is being experienced by public officials over the state as to the meaning and workings of the new law as to the terms of supervisors. It is generally conceded that the law is quite crude and bungling. It was written by Senator O. B. Courtright, one of the best constitutional lawyers in the last session, but was not written according to his ideas. Senator Courtright, in view of the change from annual to blennial elections, wanted to make the term of supervisors either two or four years, preferably four. He could not get either and had to compromise by leaving the term as it was before-three years. To adapt a three-year term to biennial elections was difficult. Heretofore with the term three years a part of the board in each county has been elected every year. Under the new law in order to avoid a change of the entire board every three years, the attempt is made to have part of the board take office the January following the election and the rest the January following that. The terms of all other offices have been simply arranged. That of the supervisors is necessarily complex and will probably be amended at the coming session.

Drowns Before Finnees. DES MOINES, Ia., July 15,-In full yiew of his fiancee, Miss Nona Boniface, whom he was to have married in three weeks. produce the cream.
