Wanted-A Reapportionment.

Wayne Herald (rep.). How long will this part of Nebraska be flimflammed out of the representation it first, last and all of the time for Edward do the authorities tolerate the use for deserves in the state legislature? The last Rosewater for United States senator. The this purpose of wagon boxes that are apportionment took place in 1885, more than claims of no other candidate for state office Nebraska has done most of its growing. Southern Nebraska was favored by earlier outside of Douglas desiring the support of settlement, but has grown less in recent the delegation will be expected to deliver the merits of a greatly increased population in this part of the state. For ten years Any one observing the spasms of the Wayne county has been entitled to a reprewith Stanton county, which latter also deserves more consideration than it receives. Worse yet, Knox, Boyd, Cedar and short of sufficient numbers. Nine populous and prosperous countles-Wayne, Madison, Pierce, Stanton, Dixon, Cedar, Dakota, less strength in the matter of approriapassage of laws and creation of United States senators than properly belongs to it. We should like to see north Nebraska representatives unite in a determined effort to secure a reapportionment and shall hope and pray that the south Platte country will get out of the public trough long enough to give fair consideration and yield to a just demand.

LIBERTY'S SPIRIT IN MEXICO.

Ambassador Thompson and President Diag Exchange Greetings.

Springfield (Mass.) Republican. The Americans in the City of Mexico engineered a Fourth of July celebration of high order. There were no firecrackers merry making, with dignified, formal exerwhich included speeches and the reading of the Declaration of Independence. The American colony gathered at the presence of President Diaz, members eign governments and leading citizens of ing among other thinks:

"In extolling the greatness of our native country, let us not forget the kindly consideration and the privileges accorded us by the government of Mexico, on whose soil we have assembled, and whose illustrious president and wise counselors of state graclously honor us by their presence. Two in on behalf of the people, as Edward flags greet us today; both are emblems of Rosewater did, without any official obligaliberty; under each, by the blessing of tion? heaven, the hopes and aspirations of a free people have been realized. It may be doubted if any land in the world, outside of our own country, contains so many prosperous Americans as does this beautiful Mexico. While great rewards for industry are offered at home, the industrial develop ment and enterprise of our sister republic have tempted here many thousands of active, talented Americans. The activities of these colonists are adding to the national wealth of Mexico, and prosperity and plenty reward the efforts of all earnest, honest working Americans in this republic. Let us make due acknowledgment to the country offering us so much and to the admin istration and government that has brought about such happy conditions and made such prosperity of the American colonists

Luncheon was served, at which President Dias was the guest of honor. There will be interesting reading what he said in response to the very complimentary toast: "The entrance of your country into the concert of free peoples marked an event of universal importance, an event worthy of undying commemoration among the bright. Luther Burbank and spends much time at est and most solemn anniversaries of human annuals, not only for you, but for us Mexicans and all nations which cultivate with yours relations of friendship and commerce. This is why we take part in your festivities today and offer you our congratulations in the absence of any other way of evincing to you more tangibly how fully we share in your rejoicings. This ing more than 15,000,000 acres. is why we drink to the prosperity of the several hundred thousand head of cattle, land of Washington and to the health of Wheat is, after all, king. The officers in command of the companies will take special means of observing the value of these attachments and report, as well, the merits of this type of personal transportation of the ration

> The status of bandsmen, musicians and similar enlisted men of the army as to target practice has been the subject of consideration at the War department. A question arose as to the construction of various paragraphs of the small arms firing regulations in regard to these classes of enlisted men, as to whether a band is to have an individual figure of merit; whether trumpet ers and musicians are to be included in making up the individual figure of merit of their organizations; whether the band should be reported as an organization for pistol practice; and whether the post nonommissioned staff is to be included in making up the individual figure of merit of a post. The affirmative was decided upon in the first three points, and on the fourth point it was decided that only such members should be included as actually fire.

> The session of the Army Signal Corps school at Fort Leavenworth closed on June 30 with seven graduates-Major Charles McK. Saltzman, Signal corps, honor graduate; Lieutenant G. A. Wieczorek, Seventeenth infantry, distinguished graduate; Lieutenant Olney Place, Sixth cavalry, distinguished graduate; Lieutenant G. C. Lewis, First infantry, distinguished graduste; Lieutenant P. W. Beck, Fifth in fantry, distinguished graduate; Lieutenant C. I. Willard, Twenty-ninth infantry, distinguished graduate, and Lieutenant E. D. Warfield, Thirtieth infantry, graduate. The next session of the school will begin about September 1, with Major G. O. Squier, Signal corps, as assistant commandant. The student officers of the Signal corps who will attend include Captain William Mitchell, Lieutenant E. E. Jeunet and Lieutenant John E. Hemphill, who will return from Alaska by that time. There will also be in attendance Company A of the Signal corps, under Captain L. D. Wildman and Lieutenant George E. Kumpe. It is also proposed to send to the school a larger number of line officers than were present in the session just ended.

A very unusual case in regard to post exchanges, which, although presenting some difficulties, will probably rarely occur, has been brought to the attention of the War department. A hospital corps detachment at an army post brought into the post exchange at that post on a basis of twelve men to the detachment. The number of men has now been reduced to six, and the dividends of the exchange are distributed to the detachment on the basis of that number. The post surgeon asked what the remedy is for that condition. The War department replied that the post exchange regulations provide that the amount to be paid by an incoming organization shall be determined by the per capita membership of the organization, and therefore in the case in question the purchase price was properly fixed on the basis of a detachment of twelve men. It is clearly the intent of size of the organization shall be considered tion of dividends, except that the size of the number of men present at the time of tolning, whereas the proportion of dividends due to an organization is calculated on the basis of the whole number of men

tribution. This method of determining the amount of a dividend seems entirely equitable and fairly meets the ordinary variation There are now fifty-four applications with in strength which organizations may undergo from day to day. It does not, however, contempiate the permanent reduction who are anxious to be examined on July or an organization to the half of its orig-

FULL NATIONAL BASKET.

Unrivalled Record of Material Development. New York San

All present signs indicate that there will be a good increase in the contents of the national basket this year. Wheat, corn, cotton, tobacco, all promise abundant yield, There is activity in all lines of industry Wages are high and show a tendency to rise rather than fall. The sun of prospercontinues to shine with unlessened radiance. Out of this abundance many will get much and all will get something

Unless supply and production be curtailed by some unforeseen disaster, the United States will raise more foodstuffs than it can consume and more raw materials than it can manufacture, and turn out of its mills and factories more wares than it needs. In addition to what will be required for the enormous home demand, there is now every reason to expect a surplus output, the value of which for the fiscal year just beginning will be not far short of \$2,000,000.000.

No longer ago than 1870 the total value of the farm products of the country for the year was a triffle less than \$2,000,000 .-000. For this year it will probably be not far from \$7,000,000,000. The value of manufactured products in 1870 is given by the census return as \$4,232,325,442. For the present year it will be about \$15,000,000,000 The cotton crop of 1870 was 3,114,592 bales. The crop of this year is reported as prom-Ising a yield in excess of 11,000,000 bales The corn crop of 1870 a little exceeded 1,000,000,000 bushels. The indicated crop for this year is 2,700,000,000 bushels. wheat crop of 1870 was 236,000,000 bushels The indicated crop for this year exceeds 700,000,000 bushels. Since 1870 imports have been multiplied by three and exports by four. The export of manufactures has increased from \$68,000,000 to \$600,000,000

This is an astounding record of material development within a single generation. Along with this material growth has gone a parallel gain in physical comfort and convenience not to be estimated in figures, either actual or comparative. What is somewhat loosely called the "standard of living" has been raised for wage earner, farmer, clerk and millionaire. By wage earner as well as by millionaire many of the luxuries of 1870 are regarded as necessities today.

PASSING PLEASANTRIES.

Sillieus-Do you believe the good die young to whether they die young or outgrow it.—
Philadelphia Record.

"You admit you were at fault in that investigation?"
"Greatly at fault," answered the trust magnate. "I see now where I could have taken far better precautions for concealment."—Washington Star. Mamma-No, dear, the Atlantic ocean

never freezes over.

Elsie—Oh, but it must! I heard papa telling Mr. Gayley that when he was coming across from Europe the last time he had his skates on all the time.—Philadelphia Ledger.

"That young Jenks is a useful fellow to meet in a sudden shower, for he always carries an umbrella."
"Yes; the girls all call him their rain beau."—Baltimore American. Lawyer-My wife bought this rug in my office at an auction sale.

Client-She pald a big price for it too.

Lawyer-Hew do you know?

Client-I sold it to her.-Detroit Free

"Look out foh pride," said Uncle Eben.
"It's generally when a man is braggin' to
hisse! bout what a good card player he
is dat he gets ketched off his guard and
loses all de mos' important tricks."—Wash-

loses all de n ington Star. "Isn't it awful." remarked Growells, looking over his gas bill for the last quar-ter, "isn't it surprising how gas bills run ter, "isn't it surprising how gas bills run up?" "Not so surprising," replied Kidder, "con-sidering how many thousand feet they have."—Philadelphia Press.

WOMAN'S WAYS. Dwight Anderson in the Bohemian. Dwight Anderson in the Boneman.
The young man kissed the maiden fair
And she did not resist.
Nor any protest offer as
Bhe twice—and thrice—was kissed.
But when he smacked her once again
With a resounding pop.
She stamped her protty foot and cried.
"Don't!" "Stop!"

The young man was chagrined to be So frigidly repelled; He mutely frew his head away And freed the hand he held. And freed the hand he held.
Desp silence reigned—one might have heard
A tiny hairpin drop—
Intil at last the maiden lisped,
"Don't stop!"
