

Another Oil Refinery, Omaha, 1906

Two Large Oil Refineries Already Built and Working on the Third One and Will Probably Build "Fuel Alcohol Plant" at Kansas City, Kansas, Where Company Now Owns Fifty-Seven Acre Farm Abutting on the Kansas River.

WHY NOT INVEST SOME OF YOUR IDLE MONEY IN THIS RAPIDLY GROWING MANUFACTURING ENTERPRISE?

135 Miles Main Trunk Pipeline Delivered, and Two-Thirds Completed, Including Five Mammoth Pumping Stations—When Fully Finished Will Be Longest Independent Pipeline in the United States—Will Enable This Company to Deliver Oil by Pipeline and Barges Over Nine Hundred Miles to Ocean Steamers at Very Little Cost, Independent of the Oil Trust Railroads—Nearly a Million Dollars Cash and Ten Thousand Shareholders Are Back of Uncle Sam.

It is generally conceded that the passage of the denatured alcohol bill pulls the rug from the robber oil trust on the gasoline monopoly, and the Uncle Sam Oil Company will be the first to push this "alcohol fuel oil" into practical use. The company already owns a fifty-seven-acre farm only a short distance from the big packing plants of Kansas City, Kan., and as soon as a full report can be had from expert men now at work will undoubtedly commence the building of a plant within fifteen minutes' ride of the main office. With gasoline or its equivalent the independent pipeline will be a trust from the markets of the West. The trust has been and is now discriminating against the independent pipeline, and the entire demand in Kansas and adjoining states for gasoline where independent oil is offered, the trust not only can secure enough gasoline to supply the demand, hence they are holding a small monopoly, but they will also be able to supply the demand for fuel alcohol. The trust has been and is now discriminating against the independent pipeline, and the entire demand in Kansas and adjoining states for gasoline where independent oil is offered, the trust not only can secure enough gasoline to supply the demand, hence they are holding a small monopoly, but they will also be able to supply the demand for fuel alcohol.

NEW HEARING OF DIGGS CASE
Negro and White Woman Arrested as Alleged Slayers of Wheeler.

CHANCE FOR JUNIOR YELLOW TO MAKE GOOD
County Attorney's Office Decides to Throw Whole Matter Open and Let Reporter Tell His Story.

Notwithstanding the utter failure of the junior yellow to make good on his "confession" in the James Diggs case and the emphatic repudiation by Miss Wheeler of an alleged interview published in the little yellow purporting to claim new evidence against the colored man for the murder of her brother, Frank E. Wheeler, the county attorney's office has yielded to the importunities of the illuminated publication to give it one more chance to support itself. Diggs and Mrs. Dora Wheeler, widow of Frank E. Wheeler, were arraigned in the police court Tuesday morning on the charge of murder in the first degree. The information, filed by Deputy County Attorney Shotwell, charged the prisoners with having murdered Frank E. Wheeler. Diggs and Mrs. Wheeler, through Attorney W. W. Dodge, waived the reading of the complaint and demanded a preliminary examination in the police court. The hearing was set for Thursday morning, when the case will be fully tried on its merits, each side bringing all the evidence it has. The case will be unusual for a police court trial in that both sides will show their full strength at the preliminary examination.

REPORTER STAR WITNESS
Deputy County Attorney Shotwell said Tuesday morning that his strongest evidence will be that of a junior yellow reporter, who claimed to have secured a confession on the day following Mrs. Wheeler's arrest in February. That confession was exploited by a local newspaper, although Mrs. Wheeler repeatedly denied ever making the confession. She was put through the "assaulting" process by the police, but would in no way implicate herself or Diggs with the murder of Wheeler. Although there was circumstantial evidence against Diggs, he was not indicted by the grand jury, before which body his case was brought, as the county attorney and the police were unable to secure sufficient evidence to make their case.

REPORTER STAR WITNESS
The deputy county attorney said he filed the murder charges in the police court Tuesday morning to put a quietus to the insinuations that his office had failed fully to make a prosecution against Diggs and Mrs. Wheeler and to give the aforementioned reporter an opportunity to make

then be only a question of a short time until the dividends will increase at each dividend period until this stock will gain in solid value to several times the present selling price.

Not Possible for the Stock to Go to \$5.00 Per Share.
It takes more than \$100,000 to place a pipe line and refinery works where it can successfully meet the great criminal trust. However, the Uncle Sam company of Kansas will soon have that sum in money back of its great undertaking; besides, there will be more than 10,000 shareholders, representing every nook and corner of the land, supporting it and securing their friends to do likewise, while in Kansas, Oklahoma, Missouri, Iowa, Arkansas, Nebraska and Illinois, where the Uncle Sam It is a fact that the company has stockholders thicker than democrats in Arkansas. These stockholders wield an influence and a power that money cannot buy and are an invaluable asset back of the Uncle Sam stock. At every bend of the road you will find impregnable bulwarks being completed to support and protect this great company, which spells greater success and certain returns and increased value for every share of the stock you may be able to secure in this anti-trust organization. There is not a single sane reason why the company keeping pace with its past rapid progress cannot build up to a capacity to produce and deliver one million barrels of this oil can be marketed in the Missouri valley states, where the public almost to a man are generally in American methods of the anarchist oil trust, and will rally to independent oil at the first opportunity. Just as the company where Uncle Sam oil has been placed on the market.

It may sound like hot air and look like blue sky to you to talk about an investment in this stock, but it is a fact that with any degree of promptness at 30 cents per share, ever becoming worth \$5.00 per share, and in doing so you will not only have a safe investment, but you will help a good cause on to greater success.

What \$100,000 More Money Will Do.
In placing your money in any enterprise that promises you great returns it must be in a position to place that money where it will do the most good. The ten thousand dollars more cash expended by the Uncle Sam Company will increase the Atchison refinery to where it can refine more than 100,000 barrels of oil every twenty-four hours. Will build a paraffin plant at Atchison that will handle the output after the turbine oil is refined and manufactured and turn it into a score of valuable products. It will also command a high price and will find a ready market. It will also complete the Tulsa refinery, which will handle the output of that plant and manufacture it into the different by-products. It will also complete the Tulsa refinery, which will handle the output of that plant and manufacture it into the different by-products.

IRRIGATION CONGRESS IN WEST
Fourteenth Annual Meeting Will Be Held at Boise Week in September.

Arrangements are already being made for the fourteenth annual irrigation congress, which will be held at Boise, Idaho, September 2 to 8, inclusive.

New Machinists' Officers.
Officers of the consolidated district No. 11 of the machinists of the Harriman line have been elected and the Harriman made public. All the lines of the Harriman system are now united in one district lodge with but one set of general officers, whereas formerly there was a different set for each railroad.

Lull in Rate War.
No move has been made by the Union Pacific for several days in the grain rate war which has been on for some time. The rate war has been on for some time.

20 NEW MOTOR CARS
Order Comes from East to the Union Pacific in Omaha.

GO ON THE MARKET FOR ADVERTISING
Harriman Decides This Will Be the Best Way to Exploit the Virtues of McKeen's Car.

The McKeen motor car holders at the Union Pacific shops in Omaha are about to begin on an order for twenty of these new cars. This order has been received from the east and must be filled as soon as possible.

Benefit Muscular Thursday.
The Salvation Army, and particularly Mrs. Adjutant Dodge, has the workingman's hard battle through life close to heart, and with that in view there will be a very interesting muscular game Thursday evening, July 13, at 8 o'clock, at the Salvation Army hotel. The muscles is for the benefit of the workmen's hotel and everybody should do his part to make the game a success.

Man Who Beat Hotel Bill and Passed Bogus Check in Under Arrest.
Clerk Kenyon of the Murray hotel is elated over the prospect of the return to Omaha of H. H. Hall, the smooth citizen who hounded him out of \$250 several days ago by means of a bad \$50 check and a board bill amounting to \$24.80. Hall left the city shortly afterward and the check came back from Chicago with the endorsement of "no funds" across it, whereas Clerk Kenyon looked up at the ceiling and thought things. Hall told Clerk Kenyon that he was going to St. Louis, where all mail would be forwarded to him in care of the Mosher hotel. Telegraph inquiry revealed the fact that there was plenty of mail at that hostelry for Mr. Hall, but no Mr.

Over \$825,000 Has Been Subscribed at the Same Price Offered You.
Another fact that should appeal to any investor is that this stock has been selling for the past five months at 25 cents per share. During that time refinery No. 2 at Atchison, has been built, besides over seventy more per cent completed. It cannot be denied but that every dollar of this entire \$825,000 has gone to the benefit of the stockholder. A great deal of it has been placed where it has done the most good, and it is certainly self-evident that it is safe for you. A \$200 check or there is sales about \$100,000 (ten thousand dollars per day or better. Nearly ten hundred men are employed on a daily basis per day for the six months ending December 31, 1906, or in other words, only 100,000 barrels, at a profit of say, only 20 cents per barrel, would make a total profit of \$20,000. Now, the refinery No. 2 will produce more than 1,000 barrels per day, and the average profit on each barrel is 20 cents. The entire capitalization, or 3 cents per share in six months on stock offered you to reach in six months, the company guarantees a dividend of \$60,000, and even if the stock only pays the \$60,000, the balance will be used to increase the dividend and make your stock just that much more valuable.

Reasons Why This Stock is Paying Dividends.
Nine hundred barrels per day will be the output of the Uncle Sam refinery, commencing this week. By the end of August it will be up to 1,500 barrels per day, and by the end of September it will be up to twenty-seven hundred (2,700) barrels per day. Suppose, however, that the company only averages 1,000 barrels per day for the six months ending December 31, 1906, or in other words, only 180,000 barrels, at a profit of say, only 20 cents per barrel, would make a total profit of \$36,000. Now, the refinery No. 2 will produce more than 1,000 barrels per day, and the average profit on each barrel is 20 cents. The entire capitalization, or 3 cents per share in six months on stock offered you to reach in six months, the company guarantees a dividend of \$60,000, and even if the stock only pays the \$60,000, the balance will be used to increase the dividend and make your stock just that much more valuable.

Certainly a Strong Manufacturing Concern.
With the amount of capital and men and influence that is back of this company now, it certainly can and will force it to the top notch, where it will produce the stock may go to \$5 per share. It does not matter how long you stop to consider the profit in refining oil. The company will pay you 30 cents per barrel, and the total profit on each barrel is 20 cents. The entire capitalization, or 3 cents per share in six months on stock offered you to reach in six months, the company guarantees a dividend of \$60,000, and even if the stock only pays the \$60,000, the balance will be used to increase the dividend and make your stock just that much more valuable.

Assets Back of the Stock.
The good will of the general public clamoring for anti-trust oil. Two oil
