

GRAIN AND PRODUCE MARKET

Factors Work Together for Lower Prices in Wheat. ENORMOUS RECEIPTS OF NEW GRAIN Close is Over Cent Lower for July Delivery and Three-Quarters for September-Corn Quiet and Prices Slightly Lower.

At times there were rallies, but the elevator took advantage of them to hedge purchases. The wheat market in Nebraska indicates an early movement of the crop. The wheat market in the corn market was quiet, though prices were lower. Weakness in wheat and favorable weather influenced the market but this was offset to a large extent by light movement. Trade is very light. Closing prices were but a few cents lower than yesterday.

Primary wheat receipts were 1,190,000 bushels and shipments 250,000 bushels against receipts last year of 1,000,000 bushels and shipments of 250,000 bushels. Corn receipts were 2,000,000 bushels and shipments 250,000 bushels. Clearances were 1,338 bushels for 5,000 bushels corn and 3,000 bushels oats.
