## Springfield Republican.

Mr. Bryan's insistence upon his consistency in public life is possibly due to the fact that he has been so little in office. His four years in congress were a long time ago, and since then he has navigated merely as a private citizen. Office is apt to make a man do things occasionally that are dead against his theories; at least, such is the experience of most men who have had a long public experience. A term or two in the presidency might make Mr. Bryan as indifferent to charges of inconsistency as Mr. Roosevelt is, and as all the foremost statesmen of past times have been. Consistency is the virtue of little minds, said our epigrammatic philosopher, Douglas have been bound. We feel that and, however that may be, it is often comfortable for great men to think so

#### Court Ruling Favorable to Theatrical Managers.

It has to be sustained by one higher court before it will be the final law for will be no difficulty in subpoenaing New York. # A CELEBRATED CASE.

Stripped of the entangling yarn of tragedy and comedy, of perjury, forgeries and murders, the true thread of the Dreyfus story is not difficult to trace. An opportunity was offered Mercler to rehabilitate himself when a bordereau, or list enumerating articles that had been transmitted to a foreign power, was intercepted and taken to him. > Mercier called to his aid one Du Paty de Clam and ordered him to find the author of the bordereau among the officers of the various bureaus. The handwriting of an Alsatian Jew, Captain Dreyfus, resembled that in the bordereau. Experts were of warled opinions. Dreyfus was arrested and a curlous "acte d'accusation." or indictment, was drawn up against him in which various charges were made on less than hearsay.
