LARGE ORDERS FOR ALL STAPLES Are Running Sawmills. Crews and Many New Coke Ovens Are Being

Opened.

NEW YORK, July 20 .- R. G. Dun & Co.'s weekly Roview of Trade tomorrow will say?

Exceptionally encouraging reports for this time of the year are received regarding trade, industry and transportation, but there is no response in the market for securities. The best news of the past week comes from agricultural sections where progress is fully maintained, harvesting of winter wheat promising a larger yield than expected, and of good quality, while corn and outs exceed anticipations; cotton picking has begun in the early districts and hay alone of the leading crops threatens to be short. As results on the farms become assured there is a growth of confidence that brings out large orders for fall and winter delivery of all staples. Saw mills at the northwest are running night crews, new coke givens are in course of construction, and there is a general disposition to extend facilities in order to keep pace with expanding needs. More textile mills have voluntarily advanced wages 5 per cent to take effect after this month and the only important labor brouble that threatens to a local building complication, which will be averted if conservative counsel prevalls. Official returns show that foreign commerce in the fiscal year ending June 30, 1906, far eclipsed all records, both as to exports and imports, while the new year promises still better results because of the surplus on the farms available for consumera shroad. For the last week at this port, alone, exports were \$1,352,245 larger than in 1905, and imports gained \$514,255. Rajiway earnings thus far reported for July show an average increase of 7.2 per sent over last year.

Restoration of foundry pig to \$14 is probably the best development of the week in the iron and steel industry.

Improvement is noted in the primary markets for cotton goods after a prolonged period of indifference on the part of buyers.

Efforts to secure still further advances in the fide market encounter some opposition, but the lighest on record.

of huyers.

Efforts to secure still further advances in the hide market encounter some opposition, but the general level continues about the highest on record.

Failures this week numbered 192 in the United States against 103 last year and twenty-two in Canada, compared with twenty-three a year ago.

Trade, industrial and crop reports generally continue highly optimistic. Clearance sales enliven retail demand. Wholesale trade for seasonable goeds is naturally quiet, but excellent grain crop reports stimulate fail orders, which are in advance of a year ago, with rather less than usual evidences of summer quietness. Reports as to July trade all point to gains over a year ago. Building continues very active, unexpectedly so in fact—and reports as to iron and steel are almost unanimous in showing larger current sales and bookings than were looked for, favorable crop reports apparently having dissented in the Graefe house in this city

unanimous in showing larger current sales and bookings than were looked for, favorable crop reports apparently having dispelled some uncertainties visible a little while ago. There is also slightly more firmness noted in lumber, the southern yellow pine situation being in rather better shape than recently, owing to restriction of production. Railway earnings are good, both gross and net. For the first haif of July gains of 14 per cent over a year ago are indicated. Preliminary reports for the fiscal year indicate that final returns will eclipse all records, with the good crop outlook favoring a very large business in the current fiscal year. Confirmation of this latter is further found in free buying of rails, cars and miscellaneous supplies by the transportation companies. Bank clearings returns are vary heavy for a midsummer period, with gains in the country at large outstripping increases at the metropolis. Agreeably to expectations the country's foreign trade broke all records in the last fiscal year, the grand aggregate being just short of \$3,000,000. Prices of staples feel the Influence of favorable crop reports but in grain, bad crop reports and disorders in Russia rather help wheat prices here.

He made a short talk last evening, thanking his associates for past appreciation and in turn was voted the thanks of the union for his efficient serv-

The candidates for the presidency on the second ballot were Polian and C. F. Michelsen, the vote standing 29 to 16. The other officers elected were: Ben Keegan, vice president, to succeed himself; A. F. Hanson, recording and corresponding secretary, to succeed Carl Kanscheit; William Wardlaw, secretary-treasurer, to succeed John Pollan; A. H. Schroeder, Bert Bush and E. D. Miller, trustees; Carl Kanschelt, sergeant-at-arms.

After the election President Guye obligated the new officers and turned the gavel over to President-elect Polian, who assumed the chair and transacted the regular order of business.

Thomas Gibson, representing the United Mine Workers of the United States, spoke of the mining situation in Wyoming from the standpoint of a worker. He declared the eight-hour question the paramount issue at the present time. On motion of Member Guye it was voted to tender the good offices of the Central Labor union to the mine workers at any time necessary.
