ASSESSORS HAVE GOOD EYES

Find a Large Amount of Froperty This Year Not Assessed Hitherto.

ACCOUNTS FOR INCREASE IN TOTALS

Returns Show that Farmers Had Much More Wheat and Corn on Hand April 1 Than at Same Time Last Year.

(From a Staff Correspondent.) LINCOLN, July 10.—(special.)—The State Board of Equalization has come to the conclusion that the various county assessors have done a good job of digging up property which has heretofore escaped taxation. A comparison of some of the items this year and last shows the increase is due to a great extent to new property dug up by the assessors and not o any material increase on property assessed last year.

Without having analyzed all of the returns made the state board is of the opinion the county assessors have done mighty good work. Some of the Items have been reduced from last year, but the assessors have dug up so much more property of the same character the totals are greatly in excess of last year.

The average assessment for wheat per pushel this year is .114 cents, while last year it was .146 cents, a reduction of 3 cents a bushel or an actual reduction this year of 15 cents a bushel. The wheat on hand last fear amounted to 2,995,528 bushels assessed at \$425,198, while this year there was on hand April 1, 4,457,290 ushels, valued at \$509,325.

Corn last year was assessed at an averge value of .0625 cents a bushel and this rear at .0571 cents a bushel. The corn ast year on hand, April 1, amounted to 49.849.941 bushels, assessed at \$3,115,976, while this year the corn on hand amounted to 58,355,575 bushels, assessed at \$3,334,-

The increase in wheat on hand amounts o 1,551,962 bushels, at an assessed value of \$74,127, while the increase in corn mounted to \$,505,614 bushels, at an assensed value of \$218,962.

Land was returned this year at an inreased acreage of 206,392, at a valuation of \$1,784,410; increase on lots and improvements amounted to \$1,617,522; increase on money returned amounted to \$765,465, and the increase on merchandise mounted to \$547,269. These items make total increase of \$4,714,666. This year there was returned an increase in cattle of 25,000 head, though the total assessment of cattle is reduced \$454,470.

Omaha Overlooks Chance. If Omaha wants the corn contest to be held in December it had better get busy. Lincoln and Frement are both trying to get it, and so far Omaha has not even made a request that it be held in that city, though the Commercial club of the big town has been advised that the place will be named shortly. The corn contest will bring to the city in which it is held at least 1,000 people and possibly twice that number. Last year it was held in Lincoln. It looks as though Omaha could get this event with little trouble, if it wants it. A number of letters have been received by RULO — Norman Kermode was today awarded the contract of painting the \$15.000 of Lincoln and Fremont and some indicated by time school commences in but no organization in Omaha has made application for the meeting.

Fish Exhibit at State Fair. Fish Commissioner O'Brien is preparing a fine exhibit of fish for the state fair OGALALLA-Sufficient raise have fallen this year to show the people of Nebraska to keep the crops in a thrifty growing condition, and the small grain especially is a splendid prospect. There has been no hall to do any damage. he will place on exhibition is a catfish weighing eighty-seven pounds. This inhabitant of the waters was caught at the nouth of the Platte with an ordinary fishhook. After being snared a rope was slipped around the fish behind the gills and he was tugged ashore. O'Brien was notified and at once made the twenty-mile trip down the river and annexed the catch

at 20 cents a pound. The slime which abounds on the catfish was rubbed off where the rope touched it is badly inflamed. The trouble may be and quite an abrasion resulted. This has serious, though at this time it is thought to be treated with carbolic acid to prevent not. a fungus growth, and Mr. O'Brien each day from now until the state fair will Secretary Mellor received some yellow the state and the United States.

State House Briefs. John M. Stewart, attorney for the state, who has already been paid \$217 for mak-

ing a couple of trips to Norfolk to take testimony in the Norfolk asylum case, is now preparing to file quo warranto proceedings to oust Dr. Alden and Dr. Nich-

Found on the Skin.

Direct from the

Phosphate

Brain.

We know that active brain work throws out the phosphate of potash, for this product is found on the skin after excessive brain work, therefore, brain workers, in order to keep well, must have proper food containing phosphate of potash to quickly and surely rebuild the used-up tissue. That one can obtain such food has been proven in thousands of cases among users of Postum Food Coffee and Grape-Nuts. Both contain phosphate of potash in mi-

nute particles, just as it is furnished by nature in the grains. This product makes from albumen the gray matter that builds the brain and fills the nerve centers.

In no way can this gray matter be mass except by the action of phosphate of potash upon a'bumen, and this mineral should be introduced to the body just as it comes from nature's laboratory, and not from the drug store. The system is more or less fastidious about taking up the needed elements, and as might be suspected, it will favor the products of Mother Nature rather than the products of the drug shop, however valuable they may be for certain

to pay the expenses of a funeral and burial. The sister said the young man had left St. Louis twelve years ago, since which time he had not written to her. He was a member of the union until recently, when he dropped out. An affidavit was filed with the State

Board of Health this morning by the atorney for Dr. Palmer of Holdrege, harged with performing a criminal operation. The affidavit was made by Miss Hattle E. Seagren, upon whom the operation is said to have been performed, and in it the girl said Dr. Palmer was not guilty. She also swore she had been influenced to make the charges against Dr.

Berge Threatens Democrats. In an editorial in his paper tonight George W. Berge, demo-pop. candidate for governor, says the democratic party would act cowardly if it refused to nominate him; that all of the democratic leaders suiked their tents when he was nominated and he fought the last battle alone. He concludes that if he is turned down the party will make him United States senator, in he following language:

The collective mind cannot be deceived y the wiles of small men, nor the will of the people defeated by the blundering of the incompetent. Therefore, if perchance the cowardly souls should dominate the democratic state convention and deny to the people of the state the privilege of electing the man of their choice to the governorship by refusing to renominate Mr. Berge, such action cannot fail to incite the people to resentment against the treatment of their favorite and result in his being elevated to premiership of the party in the state and made the preferred candidate for the United States senate.

Notable Family Reunion. GORDON, Neb., July 20 .- (Special.)he home-coming of Frank S. Parker from his sunny home in Tennessee to enjoy a brief vacation beneath the paternal roof of Uncle Josh Parker of this place was the signal for a home-gathering this week that was of more than local pride and interest. Letters were sent to absent ones, far and near, bidding them hasten to the sheltering fold of the old nome, to join in the festivities and feast on the fatted caif. Today the home circle was complete and nine stalwart sons and daughters answered to the family roll call. This is the first reunion of the family held in thirty years. What is remarkable is the fact that in this large family of nine children, all grown to manhood and womanhood, there has never been a va cant chair and among more than thirty grand-children and great grand-children there has been but one death,
