Big Bill Morrison Joins the Tribe and Promises Results.

OLD-TIME FOE NOW IN OMAHA UNIFORM

Team Back from West with Good String of Victories and a Little Story of Unexpected Hard Luck.

William Rourke and his base ball tribe arrived from Kearney Friday morning ready for the fray with Pueblo. Rourks explained several matters over which the Omaha fans have been worrying. In the first place rain fell at Denver from i o'clock in the afternoon to just before time to start the same, which kept the crowd down to nothing, or 500 rather, when Rourke said they expected a large crowd, as Denver is completely overrun with Elks from all over the country. He said he never saw a town as lively as Denver, for the Elks had taken the whole city, even blocking the street cars by the large crowds on the streets.

In regard to his new pitcher, Rourke said it was Bill Morrison from the Pueblo team whom he had signed and not Morse, the university boy, as the dispatches said. He says Morrison is in fine condition and should help the team out materially in its present shortage of pitchers. Morrison was one of the stars of the Des Moines team last year and helped them to win the pengood pitcher. He has been helping Selecin the outfield when not pitching. Ayers

"Perring muffed a high foul which cost us a game. Bassey dropped an easy one right in his mit and Carter lost the last game by dropping a fly he should have held. These are all unusual occurrences and counted hard against us."

Omaha will play with Pueblo until Monday, with a double header Sunday, and Des Ruces at Wymore.

Nearly forty people are camping near the Omaha Rod and Gun club boat house, wheth mak : a most handy camping ground. The street car service is excellent and the campers have everything handy with the boat house so close. Omaha now has as good fishing right at its door as many of the far-famed summer resorts which people go miles to visit. The bass have been taking the lure in good shape and large quantities of sunfish and crapples have been caught. These are much larger than any caught in previous years and show the good work which has been done by the club and the fish commissioners as a protective association. Since several convictions were secured the seiners have been making themselves scarce around the lake. Campers at Boat House.

Sporting Brevities. Hans Wagner ought to be released at once. He batted four times and got four bits Thursday.

It looks as though the Cantillons would not win more than one pennant this year, but the Brewers may skin Columbus yet.

While some of the umpires in the Western league may have needed rotten eggs at times, the fans on this circuit have never gone quite that far as yet. "Pendergrast is a good impire," said Frank Selee, "but I see he was not called in to umpire the Omaha-Kearney game un-til the game was well along. He has good judgment on balls and strikes."

judgment on balls and strikes."

E. Quick is playing left field for Little Rock, and your oid friend, Douglas, is hanging onto first base. Somebody by the name of Hickey is covering third. Little Rock seems to have a cinch on eighth place in the Southern league.

"Kearney is getting too swelled up," said Manager Selee, "and we expect to stop off there. August 3 and take a fall out of them. They are beginning to think they can beat any of these league teams. The trouble is the boys go in and loaf until the other team gets something on them and then can't win out."

Golf at the Field club Saturday will be then can't win out."

Golf at the Field club Saturday will be for the Foster cup and a new scheme for play will be worked out, something new for this neck of the woods. The play will be medal with handicaps, eight to qualify at eighteen holes. Thirty-six more holes will be played at medal play, with handicaps for the low score, and fifty-four holes will be played to determine the winner.

The tennis men are having a hard time.

will be played to determine the winner. The tennis men are having a hard time trying to pull off the city champlonship. They are not complaining, however, as they figure they can finish before time for the Middle West tournament, and by that time they have hopes the rainy season will be over. The date of the tournament has been advanced this season in hope of getting better weather than was had last season, when two days rain made the players hustle to finish the tournament by Saturday night. The club handicap championship in singles is scheduled for August 5.

Announcements of the Theaters. An excellent vaudeville program at the new Bijou theater this week has drawn crowded houses at nearly every performance. On Saturday at 2:30 a matince at bargain prices will be given. The week's bill will close in the evening with a performance at 8:15.

The stock company has scored a great success in its clever play, "Love and War." The Okuras, the juggling Japs, present an act that is both novel and sensational. Bandy and Wilson are clever dancers; the two Beckets have a sketch full of pleasing lovelties, and the great Le Fevre accomplishes some wonderful feats on the bicycle. Pauline Courtney, the popular little singer, renders "Genevieve" and "Way Down East," accompanied by beautiful lantern slides. The motion pictures this week are excellent.

Andrew Rosewater Takes Steps to Hold His institute quo warranto proceedings to oust Present Position.

Council Majority's Plan Not as Yet

Disclosed, but Some Move in Opposition is Ex-

pected.

Claiming that the failure of Jesse Lowe o qualify for the position of city engineer permits him to hold over under the general laws of the state, City Engineer Rosewater Friday morning filed an official bond in the sum of \$10,000 and the following letter with the city clerk:

with the city clerk:

Herewith please find my bond in the sum of \$10,000 as city engineer of the city of Omaha for the term from date thereof until the end of the mayor's term of office and until my successor shall have been appointed and qualified.

This bond is filed with you in accordance with the provisions of the statutes of this state, which provide that the incumbent of an office holding over by reason of the neglect or refusal of the successor to qualify, shall qualify anew within ten days from the time at which his successor, if appointed, should have qualified.

You are therefore requested to file the same for record in your office in accordance with the said provisions of the statutes of the state of Nebraska.

Supported by Mayor.

Supported by Mayor. The second paragraph states briefly the attitude of Mr. Rosewater in the matter. He is supported by Mayor Dahlman and asserts that able lawyers have studied the question and told him he is obrrect. Mr. Resewater bases his view upon the theory that, although the charter gives the mayor and council the power to fill vacancies, no specification ordinance or regulation has been enacted to cover the office of city engineer, also upon section 88 of the charter, which reads:

"The general laws of the state governing public officer, so far as applicable, shall govern and fix the qualifications and liability of sureties, the penalties for failure to give bonds, the bonds of persons appointed to fill vacancies or the bonds to be given by officers reappointed, re-elected or

Section 17 of chapter x of the compiled statutes says that "when it is ascertained that the incumbent of an office holds over by reason of the nonelection or nonappoint. ment of a successor, or of the neglect or refusal of the successor to qualify, he shall qualify anew within ten days from the time at which his successor, if elected, should have qualified."

Fight May Go On. It is not at all likely that the action taken by Mr. Rosewater will terminate the fight between Mayor Dahlman and the uncil majority. The legal department is understood to have looked into the proposition and to hold that the engineer's position is untenable. In case of advice of this

bility. The surety bond submitted by City En-Dahlman and Judge Redick of the district court. Under these conditions the approval of the council is not necessary to make it effective.

From the first a majority of the demo-

man's efforts to reappoint Engineer Rosewater. Bitter feeling has grown out of nomination. The city engineer-elect would the contest. The name of Jesse Lowe, a contracting engineer of Chicago and an old Mr. Rosewater, who would hold the job resident of Omaha, was submitted by the mayor as the imperative alternative to that of Mr. Rosewater. The council, after some deliberation, confirmed him, but Mr. Lowe permitted thirty days to pass without accepting or declining the position, the time being all that is allowed by law. The period expired Thursday and Mr. Rosewater gineer Rosewater was approved by Mayor filed his new bond bright and early Friday morning.
