In his dispatch to the embassy in this city Baron Rio Branco said great preparations are being made for the reception of Secretary Root, who is expected in Rio Janeiro on July 36. Several thousands of Brazilian students will lead the demonstration in honor of the American secretary of state. The president's parace in Petropolis, the summer capitol in the mountains near Rio Janeiro, will be at Mr. Root's disposal and while in Rio Janeiro he will be entertained in the famous Abrantes palace, which is the most historic building in the republic. It belonged to Joso VI of Portugal before the independence of Brazil and was occupied by Dom Pedro VI, emperor of Brazil.

State department officials and members of the diplomatic corps who are still in Washington expressed pleasure today at the delay in the opening of the pan-American conference as the full conditions of the peace agreement in Central America are now fully known and the Rio conference will open with absolute peace prevailing throughout this continent.

Some of the girls growth of Dr. Calvo's famous dictum, in-

volving the right of a nation to use force in the collection from other nations of public debts. In the program this takes the form of the proposition to allow The Hague conference to determine this important question, and as many of the South American debtor nations are bitterly opposed to allowing the creditor nations of Europe to pass upon this vital doctrine, a bitter discussion is expected when the subject comes before the third conference. Reorganization of the Bureau of Ameri-

can Republics so as to greatly enlarge the usefulness of that institution is the very first article of the program. It is proposed to erect a magnificent building in Washington for its accommodation, to open a commercial museum in connection therewith, and, a suggestion based largely upon Latin-American suspicion, to limit the life of the bureau to a ten-year period.

Arbitration of Disputes. A strong effort is to be made to bring about unanimous action of the American republics to agree to settle by arbitration all future disputes arising between them and to endeavor to have the approaching Hague conference apply this principle generally to the nations of the world. The United States and several other American republics were signatories to a treaty providing for the arbitration of pecuniary claims alone. The conference is to endeavor to limit the period-it is suggested to two yearswithin which a naturalized citizen may remain in the country of his nativity without forfeiting his naturalization. Latin-Amerand is of a most cheerful disposition. They ica has always been jealous of these returned citizens and they have given the United States much trouble, so that the subject is even now being considered by a special board, meeting at the State department in Washington.

Development of commercial intercourse between the American republics engaged the attention of the first and second con ferences and was left as a legacy to this meeting. It will endeavor to increase rapid communication by additional cable and telegraph lines and fast mail lines; new commercial treaties are to be proposed and commercial and industrial statistics are to be freely exchanged.

### Sanitation and Health. An effort is to be made to bring into uni-

ST. PETERSBURG, July 22.-Russia's first experiment in parliamentary government came to an ignominious end tonight with the promulgation of two imperial ukases, the first dissolving the present Parliament and providing for the convocation of its successor on March 5, 1907, more than six months hence, and the second proclaiming the capital of Russia and the surrounding province to be in a state of extraordinary security, which is only infinitesimally different from full martial This measure of safety is to provide for the outbursts which undoubtedly will be provoked by this daring measure. It is now but a step to dictatorship.

The texts of the two ukases, both of which are addressed in the stereotyped form to the ruling Senate, are as follows: According to paragraph 105 of the funda-mental law we order the Imperial Parlia-ment dissolved and fix the time for the convocation of the newly elected Parliament for March 5, 1907.

or March 5, 1907.

Regarding the time for the new elections of the imperial Parliament we will later asue special indications.

The ruling Senate will not fail to take proper measures to place this into effect. Signed)

Peterhof, July 21. The text of the second ukase follows: The text of the second ukase follows:

In consideration of a report of the council of ministers presented to us regarding the necessity in the future for the preservation of order and public asfety in the city and province of St. Petersburg, we consider it necessary to declare in the above city and province, instead of the state of reinforced security which now prevails there, a state of extraordinary security. The profect of the city and the governor of the province are intrusted with the rights thereto appertaining.

The ruling Senate will not fail to take proper measures to place this into effect, (Signed)

The constitutional democratic caucus adjourned before the news of the dissolution of Parliament was received, but the information already has reached the leaders of the party. The Associated Press is informed that a meeting has been summoned for today to discuss procedure and whether they shall attempt, like the French third estate, to continue existence as a revolting

body in defiance of the sovereign's will.

Conference at Peterhof Palace. ST. PETERSBURG, July 21.-As the week closes the dissolution of Parliament, with all the grave possibilities involved in such an event, is staring the country in the face. The emperor, discouraged by his failure to form a coalition ministry and the distinctly revolutionary paths which Parliament has chosen, has apparently been persuaded to risk a final appeal from Parliament to the people, or, in other words, to dissoive Parliament and order new elections on the basis of universal suffrage.

It is positively asserted that Thursday an imperial ukase authorizing the dissolution of Parliament was actually signed and was to be enforced today, but yesterday, in view of the manifest efforts of the con-CANON CITY, Colo., July 21 .- (Special stitutional democrats to nullify the effect

Riot and Bloodshed Expected.

Evidently the government is not blind to the fact that the dissolution of Parliament will be accompanied by tremendous excitement, ricts and bloodshed, if nothing worse.
