evidently believes sincerely that the plan is achievable but there is little hope that either Gucpkoff or Shipoff will in any way make themself responsible for the energetic measures of repression which the emperor's coup d' etate entails and it is certain that none of the constitutional emocrats will brave the charge of open treason in giving co-operation to any government measure after the step to which they committed themselves at Viborg.

The plan, therefore, which is foredoomed to failure seems to be a deliberate plot of the court camerilla to induce the emperor, who shows weakness in the present crists when energy and nerve are imperative, to entrust the direction of affairs to an advisory council and while nominally the council would retain the authority the camerilla would gradually absorb its power and exercise a virtual dictatorship as did Count Loris-Melikoff's committee of public safety during the terrorist preceding the assassination of Alexander II.

M. Shipoff's opinion of the dissolution can be judged by the fact that last night he sent a note to a constitutional democratic member of the council of the empire asking for a invitation in the event that the constitutional democrat group of the cotmetl held a caucus.

Old Espionage System Adopted. It is already certain that some consternation exists in the upper apheres over the magnitude of the task they have assumed. Events are marching with startling rapidity. Having taken a decision to tain admittance to the station greeted the workmen's council, but only succeeded in knows of no method except force and all the old bureaucratic machinery of suppression has been placed in operation to prevent an explosion. Domoelliary searches continue in all quarters of the capitol, the prisons are already filling and the old system to conceal from the people what is happening has been adopted. The censorship of the press has been resumed with a vigor unknown since the days of the late Minister von Phleve accompanied by the wholesale conviction of newspapers. No word of the proceedings have been permitted to be published. Telegrams from the provinces telling of the universal indignation aroused by the dissolution and even those from abroad outlining public opinion in foreign countries have been emasculated or suppressed. This is partially confirmative of the revolutionists boast that the troops will not fire again on the people.

The most serious immediate problem confronting the government is what to do with the members of the outlawed Parliament, Isolated arrests of members have occurred in various parts of the country and it is difficult to see how the government logically can avoid arresting all who participated in the Viborg meet-

A crowd of several thousand persons whence they were driven away by mounted gendarmes. Several arrests of suspects were made in the crowd, but the orders of the police evidently were limited to preventing a demonstration, the cavalry in a last car of the train was occupied by the embers of the group of toil and had red flags flying from the windows as it rolled into the station. Prince Dolgoroukoff and M Naboukoff headed the members as they marched out in a body through lines of parliamentarians warmly but they feared to indulge in any demonstration which might have justified the arrest of the members, who fully expected to be surrounded and marched off to prison. They appeared grave but resolute. On the train it had been arranged that the members of the various groups, if not arrested, should hold a caucus this evening and confer on the next step. Massachusetts Building Collapses Burying Many Workman Under the Debris.

FALLING WALLS KILL ELEVEN

EIGHT INJURED AND FIVE ARE MISSING

Tottering Walls and Pillars and Hanging Beams Make Work of Extricating Bodies Difficult and Dangerous.

SOUTH FRAMINGHAM, Mass., July 24. -Although the search for the bodies of workmen and other persons thought to be buried in the ruins of the collapsed business block on Concord street continued all last night and throughout the day, the coming of nightfall found the task of the searchers still far from completion.

The finding of the body of Henry L. Sawyer, a prominent hardware dealer, who went to the building to inspect the plumbing plans, brought the number of dead up to eleven, and it is believed that there are four more in the ruins.

At dawn there were still nine podies at the morgue, one other victim could be seen in the ruins, eight of the injured colors, and a great many pretty pinks were at the hospital, two others were among them, mostly all sizes; sold regular at their homes while the list of missing still remained at six, making a total of twenty-six, who so far as could be learned early today were about the building when the support gave way and sent the tons of cement, from columns and steel beams crashing in a tangled mass into the base-

BACK TO PULPIT What Food Did for a Clergyman.

A minister of Elizabethtown tells how Grape-Nuts food brought him back to his pulpit: "Some 5 years ugo I had an attack and I suffered for some time with nervous the hospital today so seriously a burden to me, I lost interest in every- in such a manner that it entered his perthing and almost in everybody save my son, tearing his internal organs. The forprecious wife.

Then on the recommendation of some ton. friends I began to use Grape-Nuts food. At that time I was a miserable skeleton, without appetite and hardly able to walk across the room, had ugly dreams at night, no disposition to entertain or be entertained and began to shun society.

"I finally gave up the regular ministry, indeed I could not collect my thoughts on any subject, and became almost a hermit. After I had been using the Grape-Nuts food for a short time I discovered that I was taking on new life and my appetite began to improve; I began to sleep better and my weight increased steadily; I had lost some 50 pounds, but under the new food regime I have regained almost my former weight and have greatly improved in every way.

"I feel that I owe much to Grape-Nuts and can truly recommend the food to all who require a powerful rebuilding agent delicious to take and always welcome." Name given by Postum Co., Battle Creek.
