NEBRASKA CROP CONDITIONS

Rainfall of Last Week Above Normal
Except in Western Portion.

SLIGHT DEFICIENCY FOR CROP SEASON

Showers During the Week Decidedly Beneficial to Corn and Covered Practically All of the Corn Belt.

LINCOLN, July 24.—(Special).—The past week was cool, with little wind and with heavy showers in the eastern counties. The mean daily temperature averaged 4 degrees below the normal in the extreme eastern counties, and only 1 degree in the western. Saturday was the warmest day, with maximum temperatures generally exceeding 80 degrees. Tuesday was the coolest day, with minimum temperatures quite generally about 50 degrees.

The rainfall was above the normal in most central and eastern counties, but was very light in the western part of the state. Showers occurred on Monday, Wednesday, Thursday and Friday. The weekly rainfall exceeded five inches in Butler county and was slightly more than four inches in Furnas and Fillmore counties. It accompanied a few of the heavy thunderstorms. The total rainfall from April 1 to date is below the normal in most counties. The departure from the normal is small in a considerable portion of the state, but is between two and three inches in several counties, and in Jefferson county is nearly five inches.

Southeastern Section.
Clay—Showers occurred on Monday, Wednesday and Friday. The weekly rainfall was decidedly above the normal.
Gage—Light showers occurred on the last four days of the week.
Hamilton—The days were warm and the nights cool. Showers occurred on three days.
Johnson—The nights were cool the first part of the week. Light showers occurred on the 19th, 20th and 21st.
Lancaster—The week was cool, with showers on four days.
Osage—Showers occurred Monday afternoon, and a good soaking rain Wednesday forenoon.
Richardson—The week was warm, with showers in the evenings, which was very favorable for the growth of vegetation.
Saline—The week was warm and sultry, with showers Wednesday and Friday.
Saunders—The week was most favorable. Heavy rain occurred on Wednesday and light showers on Friday.
Seward—Heavy rains occurred on Wednesday and Friday and were very beneficial.
Taylor—Light showers occurred on Thursday, Friday and Saturday. More rain would be beneficial.
York—Heavy and beneficial rain occurred Wednesday. Most of the week was warm and dry.

Southwestern Section.
Dundy—The week was warm and mostly clear, with just a trace of rain Friday.
Frontier—Showers occurred Friday. The rest of the week was fair and warm.
Goose—The week was warm and sultry, with little wind and heavy showers on the 18th, 19th and 20th. Hail on Monday injured vegetation in the southwestern part of Frontier county, the southwestern part of Goose and extended into Furnas.
Harrison—The first of the week was dry, but a fine rain occurred Friday.
Hayes—The week was warm and dry, except on Friday, when local showers occurred.
Kearney—Showers occurred on Monday, Wednesday and Friday. The air was moist, with light wind, and seemed oppressively hot.
Phipps—Good rains occurred Wednesday and Friday, supplying sufficient moisture for all vegetation at present.
Webster—The days were warm and the

LIVE STOCK VALUES RAISED

State Board Finds Great Inequality in the Various Counties.

TALK OF BOOST ON MERCHANDISE ALSO

Difficulty of Getting at Comparative Values in This Kind of Property Is a Paper for the Board Members.

(From a Staff Correspondent.)
LINCOLN, July 24.—(Special).—The State Board of Equalization is dealing in horses and cattle today and a number of counties have been boosted. The boosts, however, are merely tentative and may be changed before the final figures are made by the board. The counties in which live stock values were increased are: Fillmore, 10 per cent on cattle, from \$3.56 to \$3.91; Dundy, cattle, 10 per cent, from \$5 to \$5.50; Douglas, horses, 20 per cent, from \$13.55 to \$16.27; mules, 20 per cent, from \$15 to \$18.18; Deuel, cattle, 10 per cent, from \$12.98 to \$13.27; mules, 20 per cent, from \$14.71 to \$17.65; Colfax, horses, 25 per cent, from \$11 to \$13.75; mules, 50 per cent, from \$9.98 to \$14.75; Cheyenne, cattle, 10 per cent, from \$3.05 to \$3.35; Cherry, horses, 20 per cent, from \$5.29 to \$7.55; Burr, horses, 10 per cent, from \$12.12 to \$13.33; Blaine, cattle, 10 per cent, from \$3.42 to \$3.76; Antelope, cattle, 10 per cent, from \$3.10 to \$3.41; mules, 20 per cent, from \$10.73 to \$12.87.

The different ways assessors have of looking at a horse has been the means of numerous valuations being placed on these animals, consequently the board had to do a lot of figuring to get anywhere near an equal valuation between the various counties. In some counties which adjoin live stock is valued at prices which are the extremes. Just how to equalize these values is what is worrying the board.

There is some talk that the board's hardest work will be on merchandise, but it is not likely that the merchandise in any one county will be particularly increased or decreased. The great stir made by the Journal here again in the merchandise assessments in Douglas county, merely for political reasons, and the failure of the combination to make good yesterday, likely will result in Douglas county merchandise going through without a change. As no member of the board has looked into the assessment of merchandise in any county and has no means of knowing what this item is worth, except the returns of the county assessors, the item will not, in all probability, be changed at all.

The board will continue to meet from day to day until the work is done.

Constitutional Amendment Notices.
Secretary of State Charles C. Bennett has issued the copy of the constitutional amendment to be submitted at the fall election and the notices will be sent to the newspapers about August 1. The notices will run for seven weeks and will be published in one paper in each county of the state. It will cost \$6 for each paper, or a total of \$10.

Mr. Galusha has not yet selected the papers in which the amendments will be published, but will do so within a few days.

The amendment to be voted on this fall provides for the election of a railway commission consisting of three members, and it has been provided by law that should a political party endorse the amendment a straight party vote is a vote for the amendment.

Barnes Must Drop Title.
A. T. Barnes of Plattsmouth, who has been making his living for years as a veterinarian, will no longer use the title of veterinary surgeon after his name, the State Board of Veterinarians today having upheld the decision of the State Board of Veterinarians, who ruled that Barnes was not entitled to the title because he failed to make the required grade at his examination. Barnes claimed to have been graduated at a college in New York, but that his diploma had been destroyed by fire, and as the college had gone out of existence he could not get the records. The secretaries, however, compelled him to take the examination and he failed to make good. He can still practice, but cannot call himself doctor.

Dr. Ramacioti of Omaha was re-elected by the State Board of Veterinarians today as a member of the Board of Secretaries. The term is for three years.

Governor Goes to Wisconsin.
Governor Mickey will leave August 6 for Geneva Beach, Wis., where he will deliver an address before the Young Men's Christian association. The governor will be accompanied by his son Benjamin and the two will remain for several days resting. The governor's eye is much better and his physician believes his trouble is about over.

Call for State Veterinarians.
Dr. C. A. McKim, state veterinarian, has received a letter from Sheriff C. E. Hall of Holt county, asking him to come at once to O'Neill to examine some horses which are under quarantine, supposed to be afflicted with glanders. Sheriff Hall declares that the farmer who owns the horses is losing a train because he cannot pass along the public road to a part of his farm, two miles away. He does not want to kill his horses unless they are surely afflicted with the glanders, and he does not want to bring new ones on the place if they are thus afflicted. Dr. McKim will also make a short stop at Pileas and Albia, where some cattle are alleged to be afflicted with tuberculosis.

Vacancy in National Guard.
Adjutant General Culver has issued an order declaring that the captaincy of Captain Allen D. Palmer of Omaha was vacant because of expiration of term of office, July 26. A new election is ordered. John N. Daum, Lloyd G. Moffitt, Arthur J. Cruickshank and Chase A. Reynolds, members of Fremont signal corps, have been promoted to the position of corporal.

SANTES TO HOLD FESTIVAL.
Sioux Will Hold Feast and Dances Near Center.

CENTER, Neb., July 24.—(Special).—On August 1, 2 and 3, on the Santee Indian reservation in this county, will be held the annual celebration in memory of the departed chiefs of the Sioux nation. At this time all the Indians of the tribe, together with invited representatives from the tribes of Pine Ridge, Yankton, Sisseton, Flandreau, Winnebago, Omaha and the Oklahoma territory, will meet and pitch a camp, as in the olden days, and for the entire time they will indulge in the games and sports traditional with the people of this race. War dances, pony races, lacrosse, busting bronchos and sham battles will all be tried over again, as in the days when the white men knew the prairies not. The famous Santee-Sioux Indian band will furnish music, and a cowboy will accommodate the white people present who care to dance. Base ball between the Indians and other good teams will be among the attractions. These celebrations of the Indians have always been of interest to many white people who attend and pitched their camps with the Indians. This year, some of those who have heretofore attended merely as spectators, have taken an interest and given the Indians some pointers on how to make a celebration a success, and this will probably be the biggest thing of the kind ever held on a reservation. The

1—Better cigars for your money, whatever price you pay.

2—Better in EVERY way—aroma, cleanness, condition.

3—And always UNIFORM—the cigar that suits you to-day the same next month and next year.

The American Cigar Company's scientific system of handling the tobacco leaf has made it possible to guarantee *absolute uniformity* of quality in every one of the cigars it produces. The American Cigar Company *knows where its tobacco comes from*. It maintains a great buying and storing service in each tobacco-growing district; and buys *exactly* the tobacco it wants. Its tobacco is all harvested under the *direct supervision* of its *own experts*, and the plants are cured in its own storing houses on the plantations.

The new two-year *fermenting* process is what gives to the cigar its best smoking qualities. It extracts every last trace of the original harsh greenness and develops to perfection the aromatic fragrance of choicest selected leaf.

The *blending* process combines in an *actual blend* the characteristic goodness of each required variety of leaf.

The particular brand that suits your taste to-day will be *exactly* the same next year—in strength, flavor and grade.

“ANNA HELD” CIGAR

5 cents

The American Cigar Company manufactures many brands of cigars from as many different “blends” to suit as many different tastes. Among all these widely varied “blends” *your* taste has been provided for. And of them all there is none that suits more smokers than the *Anna Held*.

Anna Held is a direct and unmistakable proof of the quality produced by these new processes of fermenting and blending. It is a smooth, rich, even smoke of mellow flavor and absolutely uniform quality.

Sold by all dealers who want to give good value.

WILL SOLVE THE PROBLEM

When a coffee drinker is ailing

POSTUM

10 DAYS

Get What You Ask For!

THERE IS A Reason—

Why the Good People of America buy Cascares as Fast as the Clock Ticks.

Every second some one, somewhere, is Buying a Little Ten-Cent Box of Cascares.

1, 2, 3, 4, 5, 6—60 times to the Minute, 60 Minutes to the Hour, 3600 Boxes an Hour, 36,000 Boxes a Day of Ten Hours, 1,080,000 Boxes a Month, and then some.

Think of it—220,000 People take a Cascares tablet each day. Millions use Cascares when necessary.

The Judgment of Millions of Bright Americans is Infallible. They have been Buying and Taking Cascares at that rate for over Six Years.

There is also a Reason—

Why there are Parasites who attach themselves to the Healthy Body of Cascares's success—Imitators, Counterfeiters, Substitutes.

They are Trade Thieves who rob the people of the "Good Will" of the product, and sneak unearned profits earned and paid for by Cascares.
