Collision on Stock Vards Tracks Results in Engine and Number of Cars Being Badly Smushed Up.

A sad case of neglect came to light in the neighborhood at Twenty-afth and P streets yesterday. The first intimation of the affair was given to the police by the neighbors representatives of the police and the papers swept. It contained a mattress with no bed rest of the principals on the other charge. ciothing. A big basket full of clothes sat on a chair and rubbish of all kinds was in every corner. Files were there by hords affifeted by aptnal trouble and cannot walk. which Dr. Delanney declared was the result of neglect and tack of proper nourishment. In a second room things were in a worse condition. Here the remains of the baby's floor. Distinguishable in the mess, through which it had rolled, were stewed potatoes and a big chunk of boiled beef which would be worth the life of an ordinary child to eat. The child had been left to feed itself, the dish being set on the floor and left there. In the make-shift kitchen was a mess of partially prepared fruit and a dishpan full of green applied. At that point of the investigation the mother and grandrother of the child arrived, having learned that the police were examining the house. The mother, whose name was Mrs. John J. Painter, broke down and wept, while she levidence was secured to send them up for thirty days.

Painter, broke down and wept, while she out up a defense for the conditions. She said her husband worked at the Howland Lumber company and earned \$10 a week; that he was not a drinking man. She said she was working for her mother, Mrs. Squires, who runs the New Home restaurant at Twenty-sixth and P streets. She said they were trying to get money enough together to pay for having a doctor attend the child. It was the expressed opinion of the police that if the father earned as much as he did. The city treasurer is about to institute new plan for handling the personal tax lists. Heretofore when any party wished to pay personal taxes the heavy books were finuled out and the accounts gone over. The process led to many errors and mistakes, especially on the part of the BOY people themselves, who often thought they were paying up all the arrears of their taxes when in truth they were paying only one year. The plan contemplated is exactly similar to the card catalogues of any public library. Each resident will have a card on which will be placed the exact condition of his personal taxes for all the years in which they are unpaid. These cards will be filed in cases alphabetically arranged. This system is in vogue in many places.

Leg Broken in Runnway James Lessetts had his leg broken in two places in a runaway accident yesterday morning. Lossetts is a boy about 16 years The father suffered no serious injury. The boy was brought to the city where his injuries were attended by Dr. Grosman.

Collision in Stock Yards. small railroad accident occurred in the South Omaha yards early yesterday morning. A switch engine with ten cars of ice ran into a string of stock cars unloading at the chutes near the L street laduct at about 6 a, m. The engine belonged to the Burlington and the stock to the Northwestern. The accident occurred because the engine crew thought it had the right of way in the yards and the grade was too steep to avoid the collision after the mistake was discovered. The engine was derailed, but in the meantime the crew had jumped off and saved themselves. The engine is fit for the junk pile. It was reversed and continued to run after being everturned, and the big drivers dug a hole in the ground big enough to let the engine fall in. The ice cars in the front of the string were damaged and a couple of the stock cars were upset. The cattle and hogs had to be let out by cutting through the roofs. Fortunately none of the stock was injured. The amount of the damage will be about \$8,000 or \$10,000.

## High Grade Treatment

If responsible, you may pay will feel you have a disease or weakness peculiar to the Felvic region, your cendition calls promptly for the best treatment the medical profession afferds. Of this fact you must be thoroughly convinced when you stop to consider how many different doctors you have consulted, and how many bottles of worthless medicines you have taken. We have no fault to find with the man who employs such inferior treatment, for that is his privilege, but the money he thus expends would go far toward securing for him a cure that is safe, rapid and permanent. We have long studied and thoroughly mastered infirmities of this character—male pelvic diseases. Recently we have treated scores of stubborn cases, and not a single failure or unpleasant result has been reported to us. Other physicians may treat men, but we cure them, cure them to remain cured, and this fact we are prepared to prove to the entire satisfaction of any man sincerely interested. Our fees are as low as they can grade treatment.

By the latest and best methods we cure to remain cured,
