State Board of Assessment Finds Some Discrepancies in Beturns.

Berge Followers Jubilant Over His Victory in Platte County and **Predict His Nomination** for Governor.

(From a Staff Correspondent.)

LINCOLN, July 26 .- (Special.)-The State Board of Equalization took a recess this morning after spending an hour or more discussing automobiles to give the secretary time to call up the assessors and find out why it is no more are on the assessment rolls. Inasmuch as the that convention practically ends the conowners of automobiles are required to register the same in the office of the secretary of state, the board has a complete record and the secretary has been ordered to see that the reports of the assessors tally with the number registered prior to April 1.

On this class of property Lancaster county shows a big discrepancy, its assessor returning fifty-six machines, while the records in the office of the secretary of state show there are eighty-five machines owned in the county. Douglas county's assessor reports ninety-eight, while the records show 109 were owned there before April 1. Holt county re turned two machines, while the records at the state house show only one was owned there April 1. This county also carried off the banner for placing the highest value upon the automobiles, its pair being returned at \$300 each. In Lancaster automobiles were assessed at \$181 and in Douglas at \$165 each. In Dixon county automobiles were returned at \$32 each, though the assessor found one more than is registered in the office of the secretary of state. Only twenty-six counties returned automobiles, though the records in the office of the secretary of state show automobiles are owned in sixty-three countles,

The value placed upon automobiles in the various counties is as follows. Boyd, \$94; Buffalo, \$60; Burt, \$70; Butler, \$90; Clay, \$125; Colfaz, \$80; Cuming, \$73; Dawson, \$100; Dixon, \$32; Douglas, \$165; Harlan, \$100; Hoit, \$300; Howard, \$80; Jefferson, \$60; Knox, \$80; Lancaster, \$181; Nemaha, \$112; Pawnee, \$90; Phelps, \$88; Platte, \$87; Polk, \$70; Red Willow, \$76; Richardson, \$50; Sheridan, \$100; Valley, \$100; Webster, \$120.

The following table shows the number of automobiles registered in the office of the secretary of state and the number reported by the assessors:

smashed such precedents. Berge Followers Jubilant. Berge democrats in Lincoln are rejoicing today over the outcome of the Platte county Elected Licutenant Colonel of First onvention yesterday, which endorsed Mr. Berge for the democratic nomination for governor. On the other hand, those who ppose Berge merely say it was a slap at

nothing about Berge. Berge now intends to put up a fight in Otoe county, and if that instructs for him his friends assert he will get the nomination without any more op position. One of the principal backers of the Berge candidacy said last night: "A few of the so-called leaders of the

democratic party are fighting Berge on the ground that he is a populist. The fight in Platte county forever puts an end to that opposition. Platte county is the hotbed of democracy in this state. The result of test and Mr. Berge will be the nominee of the democratic party.

"Hitchcock will try his best to name Shallengerger, but he will fall, and with his failure there his chance to be United States senator, even if the democrats control the legislature, is gone glimmering. In fact, there is no opposition to Berge except by a half dozen would-be leaders who can do nothing with the uprising among the rank and file of the democratic party for Berge." Pullman Assessment.

The attention of the next legislature will be directed to the law which governs the assessment of the Pullman Car company in Nebraska. Attorney General Brown, upon the request of Tom Benton, the Pullman representative here, told the Board of Assessment, when that body wanted to in crease the assessment, that under the law would be impossible for it to so do. Every member of the board expressed a

desire to increase the assessment of the lived alone. Pullman company and Treasurer Mortensen and Governor Mickey wanted to do so even after Mr. Brown had told them the law did ot permit it

Mr. Mortensen and the governor wanted to double the assessment of the Pullman company by adding the franchise value instead of just assessing it upon the dead physical property. Both held that the railroads were assessed that way and that it was legal to assess the franchise of the Pullman company. Tom Benton at once sent for the attorney general and Mr. Brown sided with

the Pullman representative. That Tom Benton, the Pullman lobbyist, then became the ardent supporter of Mr. Brown for United States senator and assisted him in setting Lancaster county, according to Mr. Brown's friends, is of no

significance. In the meantime Mr. Mortensen, though still believing the board has a right to asseas the Pullman company on its franchise value, believes if the law is not right the next legislature should amend it so the itics and tests as high as sixty-three pounds Pullman company could be assessed at something near the value of its property in Nebraska.

Woman Accidentally Killed. FREMONT, Neb., July 26-(Special Telegram.)--Mrs. Laura Foy was found hanging by her dress to some nails in the rafters of her barn on her farm, about eight miles east of town. It was at first thought she had committed suicide, but later information indicated that it was accidental. The boards of the floor were broken and immediately below on the mow floor were a umber of broken eggs. It is supposed that she had gone to the barn after eggs, that the board broke, letting her through. and her dress caught, leaving her suspended head downwards. She lived alone and had

been dead evidently several hours. She was found by her son-in-law, John Fransis, who lives near. Mrs. Foy was about 60 years old. She came to Nebraska with her husband forty years ago, taking up a homestead, where she had ever since lived, Two years ago her husband deserted her and much of the time since then she has
