Trade Light and Proceedings on the Foard NEW YORK GENERAL MARKET Realising Sales in Wednesday's Favorites Are Dull.

JULY WHEAT MAKES SLIGHT GAIN

september Wheat Falls Off Fourth of Cent-Receipts Are Large and Northwestern Weather Favorable.

OMAHA, July 25, 1996.
The grain markets were generally dull and uninteresting. Trade was so ignit that the wheat market remained fairly strong after starting out a traction of from the day before. Throughout the morning the range of prices was imitted. There was some activity in July wheat and the prices closed a trule better than yeaterday. Bettember wheat managed to fail off he by the time the gong rang. Ite-celpts were large and northwestern weather reported favorable. Cables were from he

reported favorable. Cables were from moto to the lower.

Corn was weak from the start. Shorts have covered freely during the last few days, and this support was missing. Rain was reported all over the corn best. Hecipts were small and cash demand fair. September closeo the below yesterday.

The primary receipts of wheat were 1,166,000 bushels, against 802,000 bushels last year, with shipments of 53,000 bushels against 632,000 bushels, against 632,000 bushels, against 163,000 bushels opagainst 632,000 bushels a year ago. On corn, 476,000 bushels, against 165,000 bushels, against 165,000 bushels, and shipments of 225,000 bushels opposed to 559,000 bushels last year. Clearances were: Wheat 23,000 bushels, flour, 2,000 barrels; corn, 21,000 bushels, and outs, 3,000 bushels.

CHICAGO GRAIN AND PROVISIONS Peatures of the Trading and Closing

Prices on Board of Trade. CHICAGO, July 28.—Liberal receipts had a weakening effect today on the local wheat market, but talk of a heavier demand by exports caused a steady tone at the close, final quotations on the September delivery being practically unchanged. September corn was off %c. Onts were down %c. Provisions were a shade to 12%c tower.

The wheat market exhibited considerable weakness during the first part of the sen-

weakness during the first part of the ses-sion on selling by cash houses and local longs, who were induced to part with their holdings because of continued heavy relongs, who were induced to part with their holdings because of continued heavy re-ceipts of wheat at Chicago. A moderate decline in the price of wheat at Liverpool helped to encourage additional selling on the local market. Another reason that was given for the selling pressure was a fear of still larger receipts here as a result of a cut in freight rates on grain between fear of still larger receipts here as a result of a cut in freight rates on grain between Kansas City and Chicago. The market continued weak until the last hour, when a fair rally occurred following talk of considerable export business done at New York. Reports of rust in the wheat fields of North Dakota had some effect in creating the firmer feeling. Practically all of the early loss was regained and the market closed steady. September opened %@%c closed steady. September opened %@%c lower at 78%c to 78%c, sold off to 78%c, and then advanced to 78%@78%c. Final and then advanced to 76% 77% c. Final quotations were at 76% 77% c. Clearances of wheat and flour were equal to 24,700 bu. Primary receipts were 1,168,000 bu., compared with 262,000 bu. the corresponding day one year ago. Minneapolis, Duluth and Chicago reported receipts of 685 cars, against 550 cars last week and 434 cars a year ago.

year ago. Partial relief from drouth conditions in Partial relief from drouth conditions in the corn belt caused weakness in the corn market, sentiment in the pit being bearish all day. Prominent bulls were moderate sellers and pit traders also sold quite freely. Large primary receipts which caused a break in the price of corn had a weakening influence on options. The market closed weak with prices at the lowest point. September opened \$4c to \$4c market closed weak with prices at the lowest point. September opened 1/c to 1/2 cand closed at 50/4c. Local receipts were at 10% cars, with fifty-four of contract grade. Reports of more liberal acceptances caused weakness in the oats market. The slump in the price of cotton was also a bearish factor. A heavy tone prevailed throughout the entire session and prices at the close were almost at the lowest point. September opened unchanged to 1/c lower at 13%c to 13%c, sold off to 33c and closed at 33/4c. Local receipts were 60 cars.

The feature of trading in provisions was a sharp break in the price of September pork. The decline occurred on initial transactions and was due to profit taking by local holders. Later part of the loss was recovered. The weakness of grain had a depressing effect on the market. At the close September pork was off 12½c at \$17.10.

Lard was down 2½c at \$8.30. Ribs were a shade lower at \$9.17%.

Estimated receipts for tomorrow: Wheat. Siz cars; corn, 116 cars; cats, 84 cars; hogs, 11,000 head.

Causes Upward Movement to Halt

SHARP ADVANCE LATE IN SESSION Fallure of St. Paul Directors to Act on Financing Plan Taken to Mean Merger with Union

Pacific.

NEW YORK, July 26.—Speculative sentiment showed itself sensitive still to the influence of the Harriman and Standard Ulifevorites, or what is equally affectual, what are accepted as favorites of those powerful financial forces. Yesterday the general market advanced because southern Facilic, Union Pacitic and St. Paul were atrons. When these stocks were seen today to be subjected to a process of market digestion and of diligent seiling on all favorable opportunities there was a revulsion from the feeling created yesterday by the aggressive buying of these stocks. The suspicion was aroused that the so-called news regarding these stocks was a result of the buying and not the cause of it. The brokers are who were employed to buy the stocks named yesterday gave the impression that the Harriman and Standard Oil Interests were buying enormous blocks of these usual favorites, and this belief was strongly prevalent throughout the stock exchange neighborhood. The reports of an early dividend declaration on Southern Pacific, with resulting benefit to Union Pacific from its large holdings of the former stock, found end expressed the conviction that the whole as a result of the stocks. Tollay many of the same persons who accepted these reports were skeptical, and expressed the conviction that the whole as a result of the return from Europe of William Rockefeller, and which was implicitly accepted yesterday, was shaken again in face of the selling off of that stock, and the market fell into an apathetic condition soon after the opening to a wait the meeting of St. Paul directors and silvanced strongly on the nonaction of the letic condition soon after the opening to a wait the meeting of St. Paul directors and silvanced strongly on the nonaction of the plan.

The realizing in yesterday's favorites was obscured for a time by the rising tendance of after a time by the risin NEW YORK, July M .- Speculative senti-

await the meeting of St. Paul directors and advanced strongly on the monaction of the plan.

The realising in yesterday's favorites was obscured for a time by the rising tendency of other stocks. But these were less effective in dominating sentiment than the ones which were being sold. The most influential support was due to sympathy with the large buying of United States Steel. Trade reports from this industry were highly encouraging, but this was not the new factor in the market. More importance was attached to the news that the steamship Baltic had been sighted, having on board J. P. Morgan, and was expected to dook during the atternoon. The effectiveness of the movement in United States Steel was marred by the backwardness of the preferred stock and by the positive depression of the sinking fund bonds. The personal element thus is seen to have played a large part in the day's market. Foreign influences continued in favor of higher prices. There was a conspicuous rally in Russians on the presumption that a further smouldering without an immediate confiagration might be looked for in Russian affairs. The Bank of England reported some deterioration of condition, and there was improvement shown in the bids and the low prices for the New York city bonds offered yesterday were the subject of wide discussion, with unfavorable effect on the opinion of the investment situation. The effect was manifered to decline here and approached to gold import point again. The small amount of the bids and the low prices for the New York city bonds offered yesterday were the subject of wide discussion, with unfavorable effect on the opinion of the investment situation. The effect was manifered the announcement of nonaction by the St. Paul directors on the supposed.

vestment situation. The effect was manifest in bonds more than in stocks.

The new upward start in prices came after the announcement of nonaction by the Bt. Paul directors on the supposed financial plan. This apparently singular action was based upon a speculative assumption that the delay in the St. Paul financing heralded an abandonment of the proposed Pacific coast extension and a combination with Union Pacific. The mariet closed strong and active all around on this assumption.

Bonds were heavy. Total sales, par depth of the property of the proper

Halsted Other buyers CATTLE—The cattle trade was dead all this morning and the forenoon was very well advanced before any business whatever was transacted. Buyers seemed to feel that they had been paying too much for their cattle at this point, as compared with other markets, and were determined. with other markets, and were determined to force a reduction or leave the cattle alone. Their bids were at least luc lower, even on the good kinds of cattle, and more than that on the common to medium grades. As sellers were not prepared to take off without a struggle, it was very late, as noted above, before buyers and sellers could get together on a trading basis. Medium to common kinds of catNe, such as were selling the first of the week at from \$5.25 downward, were the worst sufferers, and they are anywhere from 25 of 40c lower than a week ago.

Cows and heifers were slow and lower, in about the same proportion as beef steers, and it was unusually late before any business was transacted.

Stockers and feeders were in rather

HOGS.—Hogs were unevenly lower this morning and the trade not particularly active. Yesterday light hogs felt the most decline, whereas today it was the deavy and rough loads that suffered the worst. On such loads as buyers especially wanted and on which there was good competition the decline did not amount to very much, whereas on the least desirable kinds it %as more pronounced. The general market whereas on the leas desirable kinds it was more pronounced. The general market might be described as about the lower than yesterday. The most of the hogs sold at right around \$6.50, the proportion of loads below that price being larger than yesterday, with not so many above. Representative sales:

APRICOTS—Fer 4-basket crast, \$1.75

MHEED—It was one of those dilatory markets, when everyone stands around looking wise and waiting for the other fellow to make the first move. As the other fellow was slow about making any move, it was after 10 o'clock before any business of consequence was transacted. The truth of the matter is prices have been and still are high for this season of the year, and at the same time the easter muutton market, as a packer expressed it, "Is simply rotten." Chicago has been and still are high for this season of the year, and at the same time the easter muutton market, as a packer expressed it, "Is simply rotten." Chicago has been and still are high for this season of the year, and at the same time the easter muutton market, as a packer expressed it, "Is simply rotten." Chicago has been cannot be market, as a packer expressed it, in the same time the easter the point. The fact that lower market at the point. The fact had ower market at the point. The fact had ower market at the point. The fact had ower market at the point. The fact had so were not very attractive and the fact that feeder buyers are beginning to come in, and, while it is still a little later; and the summoned up as slow and lower. An encouraging feature of the market is the fact that feeder buyers are beginning to come in, and, while it is still a little later; buyers of the packet with a little later. Such still a series of the market with shipments, which can be deferred until a little later. Such still as feeders could use today sold about steady.

Coffee Market.

NEW YORK. July 26.—COFFEE—Market for futures opened steady at unchanged prices to a decline of 5 points under realising and some selling on the theory that absence of reports from Brazil regarding the attitude of the senate toward the valorisation bill argued that the measure was meeting with opposition. This theory was not generally accepted, however. The market met with good support at the decline and closed steady at unchanged prices on all months except November, which was 5 points lower. European cables were considered steady. Brazilian markets were a little higher and receipts continued liberal. Sales were reported of 48,000 bags, including September at 6,6609-50c, October at 6.5c, December at 6,6609-50c, January at 7,60c, March at 7,1697,20c, May at 7,9937,30c and Juhe at 7,33c. Boot Rio, firm; No. 7 invoice, 84c. Coffee Market.
