Y. Mrs. Chapin, it should be noted, was a widow. She also provides that in case of any of its beneficiaries contested the probate of it they shall be cut off from any share in the estate.

ZION CITY DECLARED TRUST

Judge Landis Renders Important Decision in Voliva-Dowle Case.

CHICAGO, July 27.—Neither John Alexander Dowle, founder, nor Wilbur Gien Voliva, present general overseer, is given the property estimated to be worth \$250,000 in the decision handed down today by Judge K. M. Landis of the United States circuit court in the Zion City case. Instead Judge Landis declared Zion City a trust estate, named John G. Hatley, member of the Chicago Board of Trade, a receiver of the property and ordered the grant of an election September 18, when the people of the Christian Apostolic church in Zion City shall choose their overseer. Judge Landis will decide later what compensation Dowle will be allowed for his past services.

The gist of the court's decision is in the ruling that contributions of property and money given Dowle were in trust. Judge Landis declared the conveyance of the Zion City property by Voliva under power of attorney to John Alexander Granger to be void. Judge Landis quoted from writings of Isaac Newton that the people of the Christian Apostolic church in Zion City shall choose their overseer. Judge Landis will decide later what compensation Dowle will be allowed for his past services.

ROCK ISLAND YIELDS

Puts Omaha on Equality with Kansas City in Matter of Grain.

THE Rock Island has yielded to the demands of the Omaha Grain exchange and Commercial club and abolished the payment at Kansas City of the elevation charge of 1/4 cents per bushel on grain there, while paying no such premium on receipts in Omaha. Not only this, the Rock Island has met the reduced rates on grain from the Missouri river east and south introduced by competing lines. But this latter action is a matter of slight concern to Omaha grain men as compared with the concession on the elevation charge. The reason for this is that the concession brought about by the boycott imposed upon the Rock Island only a few days ago and it means much, grain men contend, to Omaha.

GOWER'S VISIT HERE BEARS GOOD FRUIT

Discrimination Removed by Abolition of Elevation Down at Kawville.

The discrimination against Omaha in favor of Kansas City was removed by the abolition of the elevation allowance at the latter city, giving Omaha the gratification of seeing Mr. Gower's visit here bear good fruit very promptly. When Mr. Gower came to Omaha and saw what a united and determined sentiment had set in against the road, he thought that he would not be slow to perceive that he nor the entire Rock Island could turn the tide by frank refusal or conciliation. He was advised that Omaha had passed the day of playing second fiddle in these sorts of things and that his road could either do as much for itself as it was doing for Kansas City or take the consequences. And Mr. Gower decided they didn't need the consequences.

Announcement Comes from Chicago

Announcement was made yesterday afternoon that the Rock Island had abolished the payment of elevation of 1/4 cents at Kansas City and had met reductions in grain rates from the Minneapolis, St. Louis and southern and gulf ports. The information was received by telegram from Traffic Manager Gower of Chicago yesterday by J. E. Uhl, general agent. The reduction in rates was practically to 4 cents a hundred, 2 1/2 cents actual reduction in schedule and 1/4 cent consisting of the elevation charge.

Reason for Rate Scramble

Dark rumors are circulating as to the reason for all this cutting and slashing of the grain rates from the Missouri river to Chicago. The reason given by some is that the roads were forced to make the cut to meet the action of the Rock Island in giving an 8-cent rate on flour from Kansas City to Chicago. They claim the finished product is not entitled to a lower rate than the raw material, and to protect themselves they had to make as low a rate on wheat as the Rock Island is making on flour.

Burlington Puts in Rate

Burlington officials announced yesterday afternoon that they would put in a proportional rate of 8 cents per hundred on wheat and flour from Missouri river points to Chicago, effective July 29 and expiring August 10. Between the same points the rate on coarse grains and products will be 7 cents, with the usual differential to the Mississippi river, making the rate on wheat from Missouri to Mississippi rivers 8 cents and on coarse grains 7 cents. The rate on wheat from Omaha to Minneapolis will be 7 cents.

Rate War Settled

CHICAGO, July 27.—The war on grain rates from Missouri river points to Chicago will come to an end August 16. This decision was reached at a conference today at which every road running west of Chicago was represented. The tariff cut, which for twenty-four hours gave promise of serious consequences, was precipitated by the Chicago Great Western's quotation of a proportional rate of 3 and 1/2 cents on wheat and coarse grains from the Missouri river to Chicago and the action of the Wabash in quoting a through rate of 18 1/2 cents on grain from the Missouri river to the seaboard. The conference agreed that all western roads should meet the Great Western's rate. The tariff to expire August 10, when rates are to resume their normal condition. The Great Western agreed also to abandon the 8-cent rate on flour from the Missouri river to Chicago the same day.
