HELSINGFORS, Finland, Aug. 1.-News of the revolt here caused the greatest excitement at Cronstadt, especially in view of the report that a mutiny of the crews of warships was proceeding at Cronstadt and that the revolutionists were working hard to persuade the troops there to mutiny and refuse to fire on the warships. Fight During Night.

HELSINGFORS, Finland, Aug. 1.-The fight between the mutineers and the loyal troops was waged during most of last night. The cannonade was heavy, the firing of the guns furnishing an awe-inspiring spectacle to the thousands lining the points of vantage on observatory hill.

The loyal mipority seemed to command the fort on Nicolai island, which was engaged in a duel with Sandham's formid- | picions of poisoning. able masked batteries. At 10 o'clock this morning they were still exchanging broad sides at ten-minutes intervals. The victims transported to Helsingfors numbered less than fifty, of whom fifteen are dead, but thus far the number of killed or wounded in the Sveaborg hospitals has not been ascertainable.

Order has been restored at Skatudden years. island, where 110 sailors and eleven civil-

ians have been disanged. From the civilian point of view the local situation is easier. No cruisers are visble. Troops are expected here, but the destruction of the bridge near Rihimacki raffroad station and the tearing up of the permanent railway at several points delays the arrival of reinforcements.

The town is quiet and business is proceeding, but the workmen are on strike. The Diet at its sitting late last night issued an earnest warning to the population to abstain from participation in acts which might possibly gravely affect the whole country.

The revolt, it is pointed out, occurred on the anniversary of a mining disaster. which was caused by the recklessness of some officers, and resulted in the loss of a dozen lives.

Copies of the Viborg manifesto of the outlawed Parliament are being distributed among the Cossacks, who quietly put them in their pockets.

and a servant girl was killed. For more than a week Russian revolutionists have been working among the troops, distributing the Viborg and Group of Toil manifestos, and it is reported that on Bunday 1,500 soldiers took an oath to fight on the side of the people.

Decrease in the Last Piscal Year.

MANILA, Aug. 1 .- Governor Ide has received reports stating that during the WELL FITTED FOR PLACE IN ORIENT fiscal year ending on June 30, the importaions of rice to the Philippines decreased 61,072,411 pounds, valued at \$3,054,183 in gold. Commenting on the reports Governor Ide

From these reports it appears that the number of pounds of rice imported into the Philippines during the fiscal year of 1906 was something less than three-sevenths of the importations in 1901, and the cash sent out from the islands for rice was less than four-elevenths of the sum tent in 1894. ent in 1894.

If the same ratio of decrease continues

The publication of the report has caused controversy. The local shippers contend that the decrease of importations is a result of the poverty of the people, who, t is alleged, are not buying rice, but are living on yams and other food. Railroad commissioners-W. L. Eston.

The republican state convention met in he Auditorium. There were not seats for the 1,640 delegates in the parquet circle so one district delegation was assigned chairs on the stage and two other delegates were given seals in the dress circle. Every seat and all the available room was occupied by spectators. No previous state convention

exceeded such interest in Des Moines or Judge Towner, who was introduced as temporary chairman, spoke in part

follows:

I desire to congratulate the republicans of lowa in this most prosperous year of this most marveilously prosperous year of this most marveilously prosperous erathat we see in this swelling flood of prosperity the consummate triumph and vindication of republican principies and policies. We live under a republican administration, with a republican president, a republican house and a republican senatelin a republican nation from ocean to ocean and a republican state from river to riverwith a republican national sentiment so strong that even democratic state conventions endorse the administrations, and a republican state sentiment so strong that not a single county of the nmety-nine can be longer classed as democratic. follows:

not a single county of the nanety-nine can be longer classed as democratic.

These two words, "republican" and prosperity, seem formed for union. They are the harmonious complement one of the other, so that with the success of one comes the triumph of the other, and with the failure of either the downfall and disaster of the other. Happy the nation that can harness such sizeds to its car of progress it is like the yoking of Phoebus and Aurora to the charlot of the sun. Happy the party whose very name is synchomous with joy.

Control of Corporations.

The president in his message to congress last December put first in importance the last December put first in importance the question of government control of the great corporations doing an interstate business. For many years this has been a most important and difficult question, not only in this country, but n others. In response to this the original interstate traffic act and the Sherman act were passed. Later the Edkins law and the rate bill passed by the last congress has been placed upon the statute books. All these laws are republican laws-framed by reof inspection to several slaughtering and packing houses in the cast.

Upon leaving his office the secretary gave instructions that to all inquiries regarding him the answer should be that he had gone away and it was not known when he would return.
