"Males are Ripe" Is said of "green beer"—not of Schlitz.

Schlitz beer is aged in glass enameled steel tanks for months before it is marketed. Fermentation is finished long before you get it.

That is an apparent virtue. But the chief distinction of Schlitz is its purity—a virtue that you can't see. Yet the cost of that purity exceeds all other costs of our brewing.

Ask for the Brewery Bottling. Common beer is sometimes substituted for Schlitz. To avoid being imposed upon, see that the cork or crown is branded

of our brewing.

THREE FACTS For Sick Women To Consider

FIRST.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful periods, displacements of the female organs, pain in the head, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, inflammation of the female organs, weakness and displacements, regulating the periods perfectly and overcoming their pains. It has also proved itself invaluable in preparing women for childbirth and the change of life.
