**We Are Going to Make a Specialty of Our Long Lasting Steel Range This Fall**

Our Range will last from twenty years to a life time. It won't need repairing in eight to ten years. We are going to sell any size at \$5.00 down and \$5.00 per month, or cut the price for cash.

There is no other line of merchandise under the sun on which so many people are fooled, and on which it is as easy to fool people as on steel ranges. Our ranges are time tried and fire tested and are warranted to be the largest lasting steel range made. People who buy them know that, and buy them because they don't take chances.

### RIVAL SCALES ON THE SPIT

Toledo and Dayton Concerns Put to Test of Their Honesty.

ONE LOSING MUST GET OUT OF OMAHA

Mayor Dahlman Says Each Will Have Fair Chance, but Neither Can Cheat People of This City.

The hearing of rival computing scale manufacturers before Mayor Dahlman started at 11 o'clock Friday morning in his office and at 12:30 an adjournment was taken until the afternoon. There having been no actual demonstrations of the weighing habits of any scales up to that time.

The afternoon was taken up by Mr. Theobald in demonstrations and arguments to show that the Dayton scale errs in computing fractions of a pound. The other side will take its case up Saturday morning and it looks as though the hearing may last several days.

The session is the result of charges preferred by the Toledo Computing Scale company against types of weighing devices manufactured by the Computing Scale company of Dayton, O., and is part of a national fight between the two concerns which has been in progress several years with the Toledo people as aggressors.

Following the condemnation by John Grant Prag, local inspector of weights and measures, of several Dayton, or Money-weight scales, in a downtown butcher shop, General Manager Henry Theobald of the Toledo house sent a letter to Mayor Dahlman charging specifically that the Dayton-made apparatus was dishonest and manufactured and sold with intent to deceive the purchaser and rob him of a cent or two from every purchase.

E. W. Ray of the Dayton company came to Omaha and endeavored to prove that his scales were all right. The mayor spent a day with him making the rounds of meat markets in an effort to satisfy himself of the truth. Theobald offered to demonstrate the crookedness of the Dayton scale and the mayor decided to give him a chance to do it.

Lawyers and Agents Present.

Both sides had lawyers and various representatives present, besides the general manager, Attorney T. J. Nolan handling the legal end of the Toledo company's affairs and Attorney M. L. Learned those of the other concern. At the outset Mr. Ray made charges against the Toledo scale to the effect that it is set to weigh from one to three ounces less than a pound, but, at the request of Mayor Dahlman, declined to put the charges in writing.

A Dayton scale, bearing the seal of the city of 200, was produced, and Manager Theobald talked for an hour about the constant brought against the scale, which he characterized as a thieving device. Besides circulars issued by its sellers to the effect that it would save the retailer 3 cents out of every dollar in handling meat at cost prices, he produced a copy of the instruction book for agents together and then separately and impressed upon the prospective purchaser's mind the fact that the aggregate money value shown of the combined drafts separately was greater than the weight of the articles in bulk.

Figures set Wrong.

Mr. Theobald said he did not charge that the weights were not adjusted properly, but that the figures of the computing roll were set purposely to defraud the customer out of the correct weight; fur-

16th & Farnam Street.

Moreover, that it was possible to set them correctly, so there could be no chance for cheating.

He said he expected a libel suit in Omaha, following those in other cities where he had attacked the rival scale.

Mayor Dahlman assured both sides they would receive a fair deal and that which ever was proven wrong deserved to be driven out of Omaha. If the Dayton scales were proven dishonest, he said he intended to do all in his power to accomplish this end. They are extensively used here.

Manager Ray gave notice that he proposed to ask permission to demonstrate the truth of his charges against the Toledo scale, by actual demonstration.

It was pointed out that the computing scale, which sells by value and not by weight, is a comparatively new device and that municipal and state laws generally do not guard against it.

Low Rate Excursion to New York City.  
On August 28 and 29 the Nickel Plate road will sell tickets to New York City and return, at rate of one fare plus \$2.00, from Chicago. Returns limit, September 4, leaving New York City. For detailed information call on or address John Y. Calahan, general agent, No. 207 Adams street, Chicago.

New York Pass Running.  
NEW YORK, Aug. 10.—A large percentage of the railroad line boats affected by the strike Wednesday night of several hundred deck hands were running today.
