

FIGURES FROM ASSESSORS

Notable Increase in the Value of Property in the State.

FAIL TO BOOY ICE TO ANY EXTENT

No-Called Minor Crops Set a Material Figure in the Farm Products—Sugar Beet Average Materially Decreased.

(From a Staff Correspondent.)

LINCOLN, Aug. 13.—(Special.)—Following are some comparisons of the returns made by assessors last year and this year, as compiled by the State Board of Equalization. Noticeable increases are made in the poultry valuation and in the property of telegraph and telephone companies. In the matter of the low value of alfalfa it is said the crop on hand about April 1 is small and therefore the assessment is small.

Table with columns for 1905 and 1906 values for various categories like Improvements on land, Franchises, Stocks in national banks, etc.

The completion of the reports of the county assessors made by the state labor bureau shows a sufficiency of miscellaneous crops, including speltz, millet, Hungarian, sorghum and sugar beets. The latter crop is considerably less than in former years, there being only 11,275 acres planted. Speltz is said to be a coming crop, this year the acreage being 64,538 acres. At the state farm a number of hogs have been fed on speltz and nothing is said of the result is very gratifying. The increase on miscellaneous crops by counties is as follows:

SCALY ECZEMA ALL OVER BODY

Eruptions Appeared on Chest, and Face and Neck Were All Broken Out—Scales and Crusts Formed—How Lady Had Great Faith in Cuticura Remedies for Skin Diseases.

ANOTHER WONDERFUL CURE BY CUTICURA

I had an eruption appear on my chest and body and extend upwards and downwards, so that my neck and face were all broken out; also my arms and the lower limbs as far as the knees. At first thought it was eczema, but soon scales or crusts formed where the breaking out was. Instead of going to a physician, I purchased a complete treatment of the Cuticura Remedies, in which I had great faith, and all was satisfactory. A year or two later the eruption appeared again, only a little lower; but before it had time to spread I procured another supply of the Cuticura Remedies, and continued their use until the cure was complete. It is now five years since the last attack, and have not seen any signs of a return. I have taken about three bottles of the Cuticura Remedies, and do not know how much of the Ointment or Cream, as I always keep them with me; probably one half dozen of each.

STRANGER DIES FROM WOUNDS. Mysterious Case Puzzles Authorities at Bloomfield. BLOOMFIELD, Neb., Aug. 13.—(Special Telegram.)—An unidentified man, supposed to be about 30 years of age, of sandy complexion, was found lying in an unconscious condition near the roadside about eleven miles north-east of town Saturday afternoon. The mail carrier of route No. 1 had seen this man along his route a number of times during the past week, carrying a sack filled with straw. Friday the carrier again passed him, but this time without the sack. When asked what he had done with his sack he answered: "I have lost it." The man acted very strangely, and it was noticed by the carrier that he was suffering from a wound in his head. On Saturday the man was lying near the roadside, wearing only a pair of overalls, his shirt being torn from his body, and an old sack was thrown over his head to protect him from the hot sun and flies. The city authorities were notified and on Saturday evening he was brought to the Kalar hospital.
